Sellers, Marta Arretche, Daniel Kübler, Eran Razin, 2016-11-26 This book undertakes the first systematic multi country investigation into how regimes of place equality consisting of multilevel policies institutions and governance at multiple scales influence spatial inequality in metropolitan regions Extended diversified metropolitan regions have become the dominant form of human settlement and disparities among metropolitan places figure increasingly in wider trends toward growing inequality Regimes of place equality are increasingly critical components of welfare states and territorial administration They can aggravate disparities in services and taxes or mitigate and compensate for local differences The volume examines these regimes in a global sample of eleven democracies including developed and developing countries on five continents The analyses reveal new dimensions of efforts to grapple with growing inequality around the world and a variety of institutional blueprints to address one of the most daunting challenges of twenty first century governance

Greer, Heather Elliott, 2019-05-24 Federalism and Social Policy focuses on the crucial question Is a strong and egalitarian welfare state compatible with federalism In this carefully curated collection Scott L Greer Heather Elliott and the contributors explore the relationship between decentralization and the welfare state to determine whether or not decentralization has negative consequences for welfare The contributors examine a variety of federal countries including Spain Canada and the United Kingdom asking four key questions related to decentralization 1 Are there regional welfare states such as Scotland Minnesota etc 2 How much variation is there in the structures of federal welfare states 3 Is federalism bad for welfare 4 Does austerity recentralize or decentralize welfare states By focusing on money and policy instead of law and constitutional politics the volume shows that federalism shapes regional governments and policies even when decentralization exists

Rescaling Social Policies towards Multilevel Governance in Europe Yuri Kazepov, 2017-10-24 The workings of multi-level governance: institutional choices concerning centralisation, decentralisation and subsidiarity are widely debated within European public policy, but few systematic studies assessing the effects of changing divisions of power for policy making have been carried out. This volume offers an assessment of the workings of multi-level governance in terms of social welfare policy across different clusters of European states: Nordic, Southern European, Central and East European. This book reports on a major comparative study at the European Centre for Social Welfare Policy and Research, which included partners from universities in Finland, France, Italy, Norway, Sweden, Poland, Spain and Switzerland. It reports on three particular policy areas: social assistance and local policies against poverty, activation and labour market policies, and care for the elderly. The authors describe different starting points, strategies and solutions in European countries which are facing similar challenges and could thus learn from each other. They explore the differences between European welfare regimes in terms of territorial responsibilities, the changes that have taken place over the past few years and their effects. The book is distinctive in highlighting comparative, transversal and transnational issues of multi-level governance in social welfare policies, rather than presenting country reports

Fiscal Federalism in Multinational States François Boucher, Alain Noël, 2021-07-21 Substate nationalism is often studied as a question of political identity and cultural recognition. The same applies to the study of multinational federalism: it is mainly conceived as a tool for the accommodation of minority cultures and identities. Few works in political philosophy and political science pay attention to the fiscal and redistributive dimensions of substate nationalism and multinational federalism. Yet nationalist movements in Western countries make crucial claims about fiscal autonomy and the fair distribution of resources between national groups within the same state. In recent years, Scottish nationalists have demanded greater tax autonomy. Catalan and Flemish nationalists have viewed themselves as unfairly disadvantaged by centralized fiscal arrangements and equalization payments, and social transfers in Canada have exacerbated tensions within the federation. In *Fiscal Federalism in Multinational States*, contributors from political philosophy and political science disciplines explore the fiscal side of substate nationalism in Canada, Belgium, the United Kingdom, Spain and Australia. Chapters examine the connection between secessionist claims and interregional redistributive arrangements, power relations in federations where taxing and spending

responsibilities are shared between orders of government the relationship between substate nationalism and fiscal autonomy and the role of federal governments in redistributing resources among substate national groups Fiscal Federalism in Multinational States brings together scholars of nationalism and federalism in a groundbreaking analysis of the connections between nationalist claims and fiscal debates within plurinational states **Challenges to State Policy Capacity** M. Pierre, 2004-12-17 Globalization and New Public Management pose major challenges to the policy capacity of the state Challenges to State Policy Capacity offers the most timely and comprehensive coverage of contemporary state policy capacity Drawing on the work by international leading scholars in political science and public administration the book is indispensable to anyone interested in policy capacity administrative reform and the state Healthcare Management Alan Gillies, 2024-12-10 Healthcare Management takes a look at international perspectives in healthcare management and the way regional priorities national income and social factors are crucial to effective healthcare services Readers are provided the skills to address issues and solve problems as a healthcare manager by understanding and appreciating the complex interrelationships of global health provision The book compares and contrasts different healthcare systems examining the role of policymaking health financing healthcare beyond hospitals leadership risk management and quality A range of international case studies provide the opportunity to see how different theories work in practice This comprehensive book is suitable for students and professionals undertaking healthcare management courses Canadian Urban Governance in Comparative Perspective Kristin R. Good, **New Directions in the Study of Policy Transfer** Mark Evans, 2013-10-31 Policy transfer analysis seeks to make sense of the cross cultural transfer of knowledge about institutions policies or delivery systems in an era of globalization The purpose of this volume is to evaluate how useful policy transfer analysis is as a descriptive explanatory and prescriptive theory of policy change It provides both a response to its critics and it presents a variety of new directions for studying processes of policy transfer The chapters proceed from an underlying assumption about the field of enquiry that policy transfer analysis alone cannot provide a general explanatory theory of policy change but when combined with other approaches an empirically grounded account of policy change can be developed Hence each of the chapters adopt a methodological pluralism in which complementary theories of policy development are combined in order to develop a theory of policy change that accounts for the role of particular agents of policy transfer in forging policy change This is an important contribution to our understanding of the impact of globalization on domestic policy formulation This book was previously published as a special issue of Policy Studies *Fundamentos de la Ciencia Política y de la Administración* Gema Sánchez Medero, Rubén Sánchez Medero, Bernabé Aldeguer Cerdá, Carolina Galais González, Elena García Guitián, Eliseo R. López, Gema Pastor Albaladejo, Javier Lorenzo Rodríguez, Jose Sanmartin, José Manuel Canales Aliende, Manuel Menéndez Alzamora, María Esther Seijas Villadangos, María Sánchez-Roca Ruiz, Roberto Losada, 2015-10-01 La obra que se presenta ofrece una visión global e introductoria de las grandes cuestiones que ocupan a la ciencia política y
