Social Policy for Social Work, Social Care and the Caring Professions Steve J Hothersall, Janine Bolger, 2020-11-29 This revised second edition analyses social policy in Scotland since devolution in 1999 and reflects the nascent and distinctively Scottish policy agenda Along with updated chapters there are two new inclusions a chapter analysing post devolution Scotland and a chapter on the likely impacts of Brexit on and within Scotland Providing diagrams tables and a range of activities the book maintains an innovative and pedagogic emphasis to introduce students to a wealth of materials ideas and practical responses to the increasingly complex

and diverse situations faced by social workers and other professionals Part 1 of the book looks at what social policy is how and why it is made and highlights the importance of the relationship between social policy and the law Part 2 refers to specific themes of social exclusion poverty and more visible for this revised edition austerity considering their complex and multidimensional forms and discussing the range of policies currently extant that aim to combat such disadvantage Part 3 provides a comprehensive overview of policy for practice considering concepts of health inequality mental health older people disability children and families education substance use criminal justice asylum and immigration and homelessness This book will be of interest to undergraduate and postgraduate students as well as post qualified professionals seeking to understand the complexities of the social policy landscape in Scotland and its influence on social work and related forms of professional practice

A Practical Guide to Congenital Developmental Disorders and Learning Difficulties Judith P. Hudson, 2014-04-24 To give children with congenital developmental conditions that manifest special learning needs and specific disabilities their best chance to succeed early identification and appropriate interventions and support is necessary This text highlights what to look for when there are concerns about a child's development Practical and accessible it is divided into three sections Part 1 looks at the theory and policy context discussing the social model of disability the responsibility of health social care and education services to the child and family and the role of reviews and assessment in recognising developmental disorders Part 2 provides a reference guide to atypical developmental conditions and disorders For each condition aetiology prominent theories and research profile of features including triggers and behaviours diagnostic assessment procedures and appropriate interventions are given and links made to sources of further information and support Part 3 explores practical issues how to work sensitively and effectively with children and their families looking at the psychological implications of diagnosis and how to plan promote deliver and evaluate multi agency support Designed to support professionals working within a multi modal collaborative approach to assessment and intervention processes it is suitable for health visitors allied health therapists nurses teachers and social care practitioners It is also a useful reference for students in these areas learning about child development and includes critical reading exercises online searching tasks self assessment questions reflective activities and document analysis prompts

Promoting the Health and Well-Being of People with Learning Disabilities Pauline Heslop, Crispin Hebron, 2020-06-10 This textbook presents a practical guide for new and experienced health or social care staff helping them promote the health and well being of people with learning disabilities Given the considerable demand for mandatory training on supporting people with learning disabilities especially in England the book provides a valuable resource for all training courses on working with people with learning disabilities The chapters are co written by practitioners and people with learning disabilities and their families rooting the book in the lived experiences of those concerned Topics covered include core elements of being happy and healthy communication changes in our behaviour when we are unwell making decisions about our health accessing health services how we would

want to be treated if we were unwell the use of psychotropic medication what a good death would be and how to keep ourselves healthy In addition the chapters include narrative examples concerning people with learning disabilities and their families so as to highlight key points and share best practice examples The use of personal reflection is used to consider how we can ensure that people with learning disabilities receive care and support that matches what we would expect for ourselves Core questions at the end of each chapter ask the reader to reflect on how the chapter content relates to their own work and how they will apply what they have learned A consistent theme throughout the book is equality of opportunity for people with learning disabilities to achieve good health There is now substantial evidence that people with learning disabilities have poorer health than the general population are more likely to have multiple health needs and can experience difficulties in having their illnesses diagnosed and treated promptly This book aims to help those supporting people with learning disabilities to achieve more equal outcomes

Unveiling the Power of Verbal Art: An Mental Sojourn through **Health Needs Of People With Learning Disability The Public Health Agenda**

In some sort of inundated with monitors and the cacophony of instantaneous communication, the profound power and psychological resonance of verbal beauty often fade in to obscurity, eclipsed by the continuous assault of sound and distractions.
