Health Performance Measurement In The Public Sector:

Health Performance Measurement in the Public Sector National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Panel on Performance Measures and Data for Public Health Performance Partnership Grants, 1999-03-31 There is growing interest in using performance measurement as a means of holding federal state and local health agencies accountable for their use of public funds *Health Performance Measurement in the Public Sector* is the second of two books for the U S Department of Health and Human Services on using and improving performance measurement in publicly funded health programs and the implications for data needs and systems This book focuses on data and information system issues at the federal state and local levels

Recommendations address Policy framework for selecting performance measures and using performance measurement Operational principles related to data and data systems that support performance measurement Essential investments in data systems and in training and technical assistance Research needed to improve performance measures and performance measurement

Measuring Health Performance in the Public Sector National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Panel on Performance Measures and Data for Public Health Performance Partnership Grants, 1999-07-21 The Panel on Performance Measures and Data for Public Health Performance Partnership Grants was established at the request of the U S Department of Health and Human Services DHHS Its charge is to examine the state of the art in performance measurement for public health and to recommend measures that could be used to monitor the Performance Partnership Grant agreements to be negotiated between each state and the federal government The panel was asked to consider performance measures in ten areas which are clearly a subset of the full range of traditional public health concerns chronic diseases sexually transmitted diseases STDs human immunodeficiency virus HIV infection and tuberculosis mental health immunization substance abuse and three areas of prevention of special interest to DHHS sexual assault disabilities and emergency medical services This report focuses on measures that states and the federal government can use over the next 3 to 5 years to negotiate agreements and monitor performance in these areas A later report will examine additional measures that might be developed from new research findings on program effectiveness or as improvements are made to state and federal surveys and data systems

Best Practices in Management Accounting G. Gregoriou, N. Finch, 2011-12-15 Management accounting has undergone significant evolution moving away from rigid budgeting programs and static output measures to comprehensive approaches of value identification and measurement The book provides case studies commentary and analysis from international experts in management accounting across the contemporary focus areas Outcome-Based Performance Management in the Public Sector Elio Borgonovi, Eugenio Anessi-Pessina, Carmine Bianchi, 2017-07-17 This book highlights the use of an outcome oriented view of performance to frame and assess the desirability of the effects produced by adopted policies so to allow

governments not only to consider effects in the short but also the long run Furthermore it does not only focus on policy from the perspective of a single unit or institution but also under an inter institutional viewpoint This book features theoretical and empirical research on how public organizations have evolved their performance management systems toward outcome measures that may allow one to better deal with wicked problems Today wicked problems characterize most of governmental planning involving social issues These are complex policy problems underlying high risk and uncertainty and a high interdependency among variables affecting them Such problems cannot be clustered within the boundaries of a single organization or referred to specific administrative levels or ministries They are characterized by dynamic complexity involving multi level multi actor and multi sectoral challenges In the last decade a number of countries have started to develop new approaches that may enable to improve cohesion to effectively deal with wicked problems The chapters in this book showcase these approaches which encourage the adoption of more flexible and pervasive governmental systems to overcome such complex problems Outcome Based Performance Management in the Public Sector is divided into five parts Part 1 aims at shedding light on problems and issues implied in the design and implementation of outcome based performance management systems in the public sector Then Part 2 illustrates the experiences problems and evolving trends in three different countries Scotland USA and Italy towards the adoption of outcome based performance management systems in the public sector Such analyses are conducted at both the national and local government levels The third part of the book frames how outcome based performance management can enhance public governance and inter institutional coordination Part 4 deals with the illustration of challenges and results from different public sector domains Finally the book concludes in Part 5 as it examines innovative methods and tools that may support decision makers in dealing with the challenges of outcome based performance management in the public sector Though the book is specifically focused on a research target it will also be useful to practitioners and master students in public administration **Public Health**

Administration Lloyd Novick,Cynthia Morrow,Glen Mays,2008-03-03 Public health has undergone enormous change in recent years the growing epidemics of obesity and diabetes the events of September 11 2001 devastating natural disasters such as the 2004 tsunami and Hurricane Katrina and the threats of emerging infectious diseases have redefined the field making the role of the public health administrator more important than ever before With contributions from top leaders in areas ranging from workforce to community based prevention to emergency preparedness the second edition of Public Health Administration Principles for Population Based Management offers detailed comprehensive coverage of current relevant issues for new as well as seasoned public health administrators **Public Health** Bernard J. Turnock,2015-07-20 Using a straightforward systems approach Public Health What It Is and How It Works explores the inner workings of the complex modern U S public health system what it is what it does how it works and why it is important The book covers the origins and development of the modern public health system the relationship of public health to the overall health system

how the system is organized at the federal state and local levels its core functions and how well these are currently being addressed evidence based practice and an approach to program planning and evaluation for public health interventions public health activities such as epidemiological investigation biomedical research environmental assessment policy development and more

Measuring the Performance of Public Services Michael Pidd, 2012-02-02 Measuring the performance of public agencies and programmes is essential to ensure that citizens enjoy quality services and that governments can be sure that taxpayers receive value for money As such good performance measurement is a crucial component of improvement and planning monitoring and control comparison and benchmarking and also ensures democratic accountability This book shows how the principles uses and practice of performance measurement for public services differ from those in for profit organisations being based on the need to add public value rather than profit It describes methods and approaches for measuring performance through time for constructing and using scorecards composite indicators the use of league tables and rankings and argues that data envelopment analysis is a useful tool when thinking about performance This demonstrates the importance of allowing for the multidimensional nature of performance as well as the need to base measurement on a sound technical footing

Novick & Morrow's Public Health Administration: Principles for Population-Based Management Leiyu Shi, James A. Johnson, 2020-10-05 Under the direction of lead editors Leiyu Shi and James A Johnson the Fourth Edition of Public Health Administration Principles for Population Based Management examines the many events advances and challenges in the United States and the world since the publication of the prior edition With contributions from experts in areas ranging from workforce to community based prevention to emergency preparedness this timely and thorough revision offers detailed comprehensive coverage of current relevant issues for students as well as practicing public health administrators This edition also addresses new perspectives of evidence based public health systems thinking accountable care organizations social entrepreneurship integrated information management disaster preparedness and response and social media

Implementing reforms in public sector accounting Susana Jorge, 2008-07-01 Over the life of the Comparative International Governmental Accounting Research CIGAR network there has been unprecedented global interest in public sector accounting reforms Hence the importance given to taking stock of reforms implementation This book gathers a set of papers many of them in comparative international perspective on several topics relating to Public Sector Accounting both at Central and Local Government levels Authors from several countries around the world present and discuss here issues such as financial reporting information users and accountability performance measurement and management accounting national and international standards reform processes budgeting auditing and controlling systems efficiency and service charters contingent liabilities and consolidated accounts Several of these are also analysed within the context of developing countries Subsequently the book offers a compilation of the most important topics actually being discussed in the Public Sector Accounting field

Contracts, Performance Measurements, and Accountability in the

Public Sector Gavin Drewry, Carsten Greve, Thierry Tanquerel, 2005 This book addresses issues to do with public accountability audit and performance measurement that are both highly topical and of crucial importance to the theory and practice of public administration in an era of contractualized public management The literature on public sector contracting covering both hard agreements ones that are legally enforceable and soft agreements enforced by negotiation and mutual trust has been growing for some time and the present book adds a primarily European perspective on contracting performance based management and accountability One important aspect of this study is its recognition that those responsible for monitoring public services and holding them to account have had to an increasing extent to reconcile tensions between on the one hand the need for strong oversight and on the other the encouragement of innovation and risk in an increasingly competitive and entrepreneurial public service culture Following an introductory overview by the three editors the book is in three parts The first part deals with the theory and practice of performance measurement and evaluation the second part provides a series of specific case studies of audit and accountability in a variety of countries and contexts the third part offers some wider cross cutting perspectives Based on the work of the EGPA permanent study group on the history of contractualization *Contracts Performance Measurement and Accountability in the Public Sector* draws upon the wide expertise and research interests of academics and practitioners from the United Kingdom Denmark Switzerland Belgium Sweden and the USA

Intelligent Health Policy Petri Virtanen, Jari Stenvall, 2017-11-29 This book provides a general overview of intelligence in health policy health care organizations and health services in the light of the current EU digital agenda which aims to make health data and e health tools publicly available The first part analyses the implications of knowledge management and decision making procedures for intelligent health policies and governance The second part discusses in detail the concept of intelligence and illustrates why the perspective of organizational intelligence offers a solution to contemporary problems in health care while the third part focuses on intelligent leadership models in health care organizations Providing a guide to new ways of understanding developing and reforming health policy and health services it appeals to scholars as well as decision makers in health governance and health care institutions

Public Service Operations Management Zoe J. Radnor, Nicola Bateman, Ann Esain, Maneesh Kumar, Sharon J. Williams, David M. Upton, 2015-07-30 How do policy makers and managers square the circle of increasing demand and expectations for the delivery and quality of services against a backdrop of reduced public funding from government and philanthropists Leaders executives and managers are increasingly focusing on service operations improvement In terms of research public services are immature within the discipline of operations management and existing knowledge is limited to government departments and large bureaucratic institutions Drawing on a range of theory and frameworks this book develops the research agenda and knowledge and understanding in public service operations management addressing the most pressing dilemmas faced by leaders executives and operations managers in the public services environment It offers a new empirical analysis of the

impact of contextual factors including the migration of planning systems founded on MRP ERP and the adoption of industrial based improvement practices such as TQM lean thinking and Six Sigma This will be of interest to researchers educators and advanced students in public management service operations management health service management and public policy studies

Public Sector Reform and Performance Management in Emerging Economies Zahirul Hoque,2021-05-23

In the recent decade governments worldwide are increasingly focusing on being community centric and outcomes based Consequently they are starting to move towards outcomes based approaches to public financial management systems An outcomes based approach allows government service agencies and specific program areas to organize and communicate priorities to achieve what matters and makes a difference rather than just going through the motions Empirical evidence on how government agencies in emerging economies go about this contemporary approach and issues affecting these practices is limited This edited collection of chapters is aimed at covering public sector reform and performance management in emerging economies with special reference to outcomes based approaches in practice in government services Practices from developed economies contained in the first book on the topic have been published by Routledge in February 2021 The insights offered on the topic are written by renowned scholars who have identified important issues pertinent to those interested in public sector governance accounting accountability and performance management effectiveness in emerging economies The book will be highly accessible to researchers academics and students in the fields of accounting public administration development studies and other non accounting audiences alike
