groundbreaking portrait of a colossus who dominated half a century of American history and planted the seeds for much of today's conservative political landscape. We remember him as a bulldog: squat frame, bulging wide-set eyes, fearsome jowls. But in 1924, when he became director of the FBI, he had been the trim, dazzling wunderkind of the administrative state, buzzing with energy and big ideas for reform. He transformed a failing law enforcement backwater riddled with scandal into a modern machine. He believed in the power of the federal government to do great things for the nation and its citizens. He also believed that certain people—many of them communists or racial minorities or both—did not deserve to be included in that American project. Hoover rose to power and then stayed there, decade after decade, using the tools of state to create a personal fiefdom unrivaled in U.S. history. Beverly Gage's monumental work explores the full sweep of Hoover's life and career, from his birth in 1895 to a modest Washington civil service family through his death in 1972. In her nuanced and definitive portrait, Gage shows how Hoover was more than a one-dimensional tyrant and schemer who strong-armed the rest of the country into submission. As FBI director from 1924 through his death in 1972, he was a confidant, counselor, and adversary to eight U.S. presidents: four Republicans and four Democrats. Franklin Roosevelt and Lyndon Johnson did the most to empower him; yet his closest friend among the eight was fellow anticommunist warrior Richard Nixon. Hoover was not above blackmail and intimidation, but he also embodied conservative values ranging from anticommunism to white supremacy to a crusading and politicized interpretation of Christianity. This garnered him the admiration of millions of Americans. He stayed in office for so long because many people, from the highest reaches of government down to the grassroots, wanted him there and supported what he was doing, thus creating the template that the political right has followed to transform its party. G. Man places Hoover back where he once stood in American political history: not at the fringes but at the center, and uses his story to explain the trajectories of governance, policing, race ideology, political culture, and federal power as they evolved over the course of the 20th century.

**Total Cold War** Kenneth Alan Osgood, 2006 Osgood focuses on major campaigns such as Atoms for Peace, People to People, and cultural exchange programs. Drawing on recently declassified documents that record U.S. psychological operations in some three dozen countries, he tells how U.S. propaganda agencies presented everyday life in America to the world: its citizens living full, happy lives in a classless society where economic bounty was shared by all. Osgood further investigates the ways in which superpower disarmament negotiations were used as propaganda maneuvers in the battle for international public opinion. He also reexamines the early years of the space race, focusing especially on the challenge to American propagandists posed by the Soviet launch of Sputnik.
