## **Emerging Minorities:**

**The Emerging Republican Minorities** Udi Sommer, Idan Franco, 2025-01-23 How is it possible that Donald Trump a champion of racist and anti immigrant policies has only attracted more minority voters since 2016 Drawing on extensive statistical analysis this book challenges the conventional wisdom on Black Latino and Asian American voters Positing a host of theoretical innovations based on diverse data sources *The Emerging Republican Minorities* establishes that some of the most heated debates of the Trump era race immigration and relations with China had effects on minority voters that challenged a paradigm ascribing their automatic loyalty to the Democrats For Black Latino and Asian American constituents much like for their white counterparts minority hostile positions are critical in explaining how members of those same minority groups vote even for candidates who prima facie should not win any of their support Udi Sommer and Idan Franco analyze detailed regression models and conduct robust empirical tests to demonstrate how minority constituencies are more ideologically diverse than commonly thought even on such issues where we would expect near unanimity such as opinions toward their own communities Moreover this diversity complicates the way we think and theorize not only about minority political behavior but also about democracy and its vitality in the Trump and post Trump eras *The Emerging Minorities* Leonard D. Cain, 1991 Chapter 22 was written by Sharlene McEvoy an alumna of Albertus Magnus College *The Emerging Minorities in America*, 1972 **Asian Americans** Harry H. L. Kitano, Roger Daniels, 1988 Using an interdisciplinary approach of history and social science the authors compare the experiences of Asian Americans who have grown from predominantly Chinese and Japanese of the 1960s to include the Filipinos Asian Indians the Koreans the Pacific Islanders and the southeast Asians The authors believe this transformation is the result of changes in American foreign and domestic policy the war in Vietnam and changes in U S immigration and refugee policies ISBN 0 13 049164 0 pbk 20 00 **Protecting the Religious Freedom of New Minorities in International Law** Fabienne Bretscher, 2019-09-19 This book examines the interpretation and application of the right to freedom of religion and belief of new minorities formed by recent migration by the European Court of Human Rights ECtHR and the United Nations Human Rights Committee HRC New minorities are increasingly confronted with restrictions of their religious practices and have addressed their rights claims both to the ECtHR and the HRC through their individual complaint procedures which resulted in several contradicting decisions Based on a quantitative and qualitative empirical analysis of the relevant case law focusing in particular on the reasoning adopted by the two bodies this book finds that the HRC in its practice offers a significantly higher level of protection to new minorities than the ECtHR Such divergence may be explained by various institutional and conceptual differences of which the concept of the margin of appreciation is the most influential It is contended that the extensive use of the concept of the margin of appreciation by the ECtHR in the case law regarding new minorities right to freedom of religion and belief and the absence of such concept in the HRC s case law could be explained by different understandings of the role of an international human

rights body in conflicts between the majority and minorities This book argues that such divergence could be mitigated with various tools such as the inclusion of cross references to the case law of other relevant bodies as well as to instruments specifically established for the protection of minorities The book will be of interest to academics researchers and practitioners in the area of international human rights law international public law in general and law and religion

**Minority Issues in Europe: New Ideas and Approaches** Tove H. Malloy, Caitlin Boulter, 2019-03-18 As the political landscape of Europe transforms so too does the field of minority issues New areas of focus encompass topics as varied as populism and media representation anthropological insights and intersectional feminist considerations education in human rights and participatory mechanisms and the changing categories and roles of minority communities as important actors in a variety of forums Volume 2 of *Minority Issues in Europe* reflects a growing range of disciplinary approaches to the field and a fresh outlook on the issues facing Europe's diverse communities Bringing together research from experienced experts and young researchers this book aims to equip students with critical and considered insights to some of the most pressing questions in minority studies today

**The New Minorities of Europe** Michael Johns, 2014-02-27 The New Minorities of Europe Social Cohesion in the European Union argues that while the EU currently faces economic issues it is pressed with larger questions and potential problems due to the backlash against those who move freely inside the union It uses the intra EU migrants particularly the Polish community who moved post 2004 into Britain and to a lesser extent Ireland as the case through which to examine these issues The book argues that the traditional definitions of minorities and migrants are no longer valid in the EU and we should look at all groups collectively through a continuum of social cohesion based on their ability to access rights The book traces the development of free movement in the EU the movement of the intra EU migrants and the challenges and growing chilly climate they and other non EU immigrants face across Europe The book concludes with a proposal for the development of a High Commission on Social Cohesion in the European Union similar to the OSCE High Commissioner on National Minorities who could use Quiet Diplomacy to try to work with minority groups in all their forms and the EU member states to address these issues

Language, Minorities and Human Rights Fernand de Varennnes, 2021-09-27 One of the most vexing issues in many of the world's so called ethnic or minority conflicts is the question of language use by the State and its citizens While international and national law has traditionally viewed language preference to be within a State's prerogative at least when involving governmental activities and machinery this position has proved to be a continuous source of acrimony and conflict and wrong in some respects *Language Minorities and Human Rights* is the most complete book ever written on the topic providing for the first time an analysis of every aspect of language and the law In addition to presenting a theoretical model for language's particular position and relevance in human rights it constitutes an invaluable reference document by including the provisions of close to 100 international multilateral and bilateral instruments involving language rights as well as the constitutional provisions of 140 countries dealing with language

By addressing little explored areas such as the language rights of indigenous peoples non citizens and even the use of script in addition to more traditional topics such as nationalism and language freedom of expression and non discrimination Language Minorities and Human Rights proposes a complete descriptive picture of language and human rights as well as proposing a number of suggestions on how to address and balance the many problems currently caused by the linguistic demands of various individuals and the interests of states in nation building

*Interculturalism and Discrimination in Romania* François Ruegg, Rudolf Poledna, Călin Rus, 2006 This volume presents research on intercultural relations in South Eastern Europe including the way they are imagined and managed in different social and historical contexts After an introductory critique of the concepts of interculturalism and citizenship the situation in Romania is investigated The second part deals with a series of in depth comparative studies namely on the Roma minorities in Romania and Bulgaria But it also considers the case of the Pomaks in Bulgaria of Russians living in parallel societies in the Baltic States and the recent evolution of interculturalism in the region

**Synergies in Minority Protection** Kristin Henrard, Robert Dunbar, 2008 Have recent developments in international and European law resulted in an integrated and coherent system of minority protection

**The Misrepresented Minority** Samuel D. Museus, Dina C. Maramba, Robert T. Teranishi, 2023-07-03 While Asian Americans and Pacific Islanders AAPIs are growing faster than any other racial group in the U S they are all but invisible in higher education and generally ignored in the research literature and thus greatly misrepresented and misunderstood This book presents disaggregated data to unmask important academic achievement and other disparities within the population and offers new insights that promote more authentic understandings of the realities masked by the designation of AAPI In offering new perspectives conceptual frameworks and empirical research by seasoned and emerging scholars this book both makes a significant contribution to the emerging knowledge base on AAPIs and identifies new directions for future scholarship on this population Its overarching purpose is to provide policymakers practitioners and researchers in higher education with the information they need to serve an increasingly important segment of their student populations In dispelling such misconceptions as that Asian Americans are not really racial minorities the book opens up the complexity of the racial and ethnic minorities within this group and identifies the unique challenges that require the attention of anyone in higher education concerned with student access and success as well as the pipeline to the professoriate

**Multicultural Odysseys** Will Kymlicka, 2007-08-02 Using an innovative blend of political theory international law and studies on the sociological and geo political foundations of minority rights this landmark publication will set the debate on the likely future of the international politics of diversity

*Minority Rights in Europe: Policies and Practices in CSCE Participating States* Minority Rights Group, Leningrad Association of Scientists, 1991-06-30 The Conference focused on minority issues that have not yet in our

**Minority Rights and Liberal Democratic Insecurities** Anna-Mária Bíró,Dwight Newman,2022-11-11 This book addresses the impact of a range of destabilising issues on minority rights in Europe and North America This collection stems from the fact that liberal democracy did not bring about the end of history but rather that the transatlantic region of Europe and North America has encountered a new era of instability particularly since the global financial crisis The transatlantic region may have appeared to be entering a period of stability but terrorist attacks on the soil of Euro Atlantic states the financial crisis itself and other changes including mass migration the rise of populism changes in fundamental political conceptions technological change and most recently the Covid pandemic have brought increasing uncertainties and instabilities in existing orders In these contexts the book investigates the resulting difficulties and opportunities for minority rights Bringing together scholars from a range of disciplines who are engaged in work on various unstable orders the book provides a unique and largely neglected perspective on present developments as well as addressing the pressing issue of the future of the minority rights regime at global regional and national levels This book will appeal to those with interests in minority rights human rights nationalism law and politics
