Emily Dis Organizer:

I'm Dying Laughing Christina Stead, 2012-10-23 DIV Christina Stead's unforgettable final novel a profound examination of love and radicalism during the McCarthy era div DIV In the wake of the Great Depression Emily Wilkes a young American journalist travels to a Europe still scarred by World War I During her crossing she meets Stephen Howard a charismatic and wealthy Communist who quickly converts Emily to his ideals when the two become lovers Upon their return to the States they marry and settle into a comfortable life in Hollywood as darlings of the American left Emily shines as a screenwriter and novelist while Stephen dedicates himself to the Party line but their radicalism soon finds them out of favor and retreating to Paris where they tragically and bitterly unravel Published posthumously by Christina Stead's literary executor professor Ron Geering I'm Dying Laughing is an unflinching look at political faith and romantic attachment div **Making Volunteers**

Nina Eliasoph, 2011-02-28 An inside look at how community service organizations really work Volunteering improves inner character builds community cures poverty and prevents crime We've all heard this kind of empowerment talk from nonprofit and government sponsored civic programs But what do these programs really accomplish In Making Volunteers Nina Eliasoph offers an in depth humorous wrenching and at times uplifting look inside youth and adult civic programs She reveals an urgent need for policy reforms in order to improve these organizations and shows that while volunteers learn important lessons they are not always the lessons that empowerment programs aim to teach With short term funding and a dizzy mix of mandates from multiple sponsors community programs develop a complex web of intimacy governance and civic life Eliasoph describes the at risk youth served by such programs the college bound volunteers who hope to feel selfless inspiration and plump up their resumes and what happens when the two groups are expected to bond instantly through short term projects She looks at adult plug in volunteers who working in after school programs and limited by time hope to become like beloved aunties to youth Eliasoph indicates that adult volunteers can provide grassroots support but they can also undermine the family like warmth created by paid organizers Exploring contradictions between the democratic rhetoric of empowerment programs and the bureaucratic hurdles that volunteers learn to navigate the book demonstrates that empowerment projects work best with less precarious funding more careful planning and mandatory training reflection and long term commitments from volunteers Based on participant research inside civic and community organizations Making Volunteers illustrates what these programs can and cannot achieve and how to make them more effective Proceedings from Philadelphia's Political Reform Movement, 1946-1961, 1988 **Power Transfer and Electoral Politics**

Hsin-chi Kuan, 1999 This book provides an in depth analysis of the election of the Hong Kong Legislative Council in May 1998 which was the first general election in Hong Kong since the change of sovereignty to China in 1997 The election was conducted in the wake of the government's mismanagement of health policy and other aspects of public concern and amid widespread hardships inflicted by the Asian financial crisis Nevertheless the election still had the highest turnout rate in Hong Kong's entire history The elected

legislature replaced the Provisional Legislative Council which was a product of the Sino British conflict before the change over. However, as a result of institutional design and electoral outcome, this duly elected Legislative Council has been fragmented and weak in its legislative and supervisory powers and therefore there are long term implications for the governance of Hong Kong in general and for the executive legislative relations in particular. Contributors to this volume are renowned scholars in Hong Kong studies. The various aspects of the 1998 legislative election are critically examined to ascertain their exact meanings and to clarify doubts. Questions such as the following are properly addressed: Did the transfer of sovereignty have any impact on the systems of election representation and authority? What was the impact of institutional change on the conduct of electoral campaigns? Did the end of colonialism and the advent of one country two systems help to activate Hong Kong voters who were once dubbed attentive spectators? Did the China factor which had been influential in the 1991 and 1995 elections give way to other electoral divisions? Did the mass media properly perform their roles during the election? Does the emergence of class and economic issues during the election signify a new era of political normalization? Will the now legitimately constituted Legislative Council have political clout? What is in store for the future? Feminine Fascism

Julie V. Gottlieb, 2021-04-28. The British Fascists: the first fascism movement in Britain was founded by a woman in 1923. During the 1930s 25 per cent of Sir Oswald Mosley's supporters were women and his movement was largely built up by the fanaticism of women. What was it about the British form of Fascism that accounted for this conspicuous female support? Gottlieb addresses these questions in the definitive work on women in fascism. This book continues to fill a significant gap in the historiography of British fascism which has generally overlooked the contribution of women on the one hand and the importance of sexual politics and women's issues on the other. Gottlieb's extensive research makes use of government documents, a large range of contemporary pamphlets, newspapers and speeches as well as original interviews with those personally involved in the movement. This new edition includes a preface analysing the current affairs of the last 20 years, reframing the book according to contemporary context. Here Gottlieb looks at the resurgence of populism, the rise of women as leaders of far right parties across Europe and North America and the normalisation of fascism in fiction and political discourse.
