Tremain Houses Volker M. Welter, 2019-11-19 This volume analyzes the extraordinary patronage of modern architecture that the Tremain family sustained for nearly four decades in the mid twentieth century From the late 1930s to the early 1970s two brothers Burton G Tremain and Warren D Tremain and their respective wives Emily Hall Tremain and Katharine Williams Tremain commissioned approximately thirty architecture and design projects Richard Neutra and Oscar Niemeyer designed the best known Tremain houses Philip Johnson and Frank Lloyd Wright also created designs and buildings for the family that achieved iconic status in the modern movement Focusing on the Tremaines houses and other projects such as a visitor center at the meteor crater in Arizona this volume explores the Tremaines architectural patronage in terms of the family s motivations and values exposing patterns in what may appear as an eclectic collection of modern architecture Architectural historian Volker M Welter argues that the Tremaines patronage was not driven by any single factor rather it stemmed from a network of motives comprising the clients practical requirements their private and public lives and their ideas about architecture and art

The Man in the Glass House Mark Lamster,2018-11-06 A smoothly written and fair minded Wall Street Journal biography of architect Philip Johnson a finalist for the National Book Critics Circle Award When Philip Johnson died in 2005 at the age of 98 he was still one of the most recognizable and influential figures on the American cultural landscape The first recipient of the Pritzker Prize and MoMA s founding architectural curator Johnson made his mark as one of America s leading architects with his famous Glass House in New Caanan CT and his controversial AT T Building in NYC among many others in nearly every city in the country but his most natural role was as a consummate power broker and shaper of public opinion Johnson introduced European modernism the sleek glass and steel architecture that now dominates our cities to America and mentored generations of architects designers and artists to follow He defined the era of starchitecture with its flamboyant buildings and celebrity designers who esteemed aesthetics and style above all other concerns But Johnson was also a man of deep paradoxes he was a Nazi sympathizer a designer of synagogues an enfant terrible into his old age a populist and a snob His clients ranged from the Rockefellers to televangelists to Donald Trump Award winning architectural critic and biographer Mark Lamster s The Man in the Glass House lifts the veil on Johnson s controversial and endlessly contradictory life to tell the story of a charming yet deeply flawed man A rollercoaster tale of the perils of wealth privilege and ambition this book probes the dynamics of American culture that made him so powerful and tells the story of the built environment in modern America
