Eminent Historians Arun Shourie, 2004 **Eminent Historians** Arun Shourie, 2014-06-01 Shourie has the anecdotal reasoning of Nirad Chaudhuri married to the writing style of Robert Ludlum Both are in ample evidence in this book India Today In this incisive commentary Arun Shourie documents the ways in which our history textbooks have been doctored by leftist historians Thoroughly researched and riveting this study brings to light the techniques and frauds that a cabal of some of our best known academicians has used to promote themselves and to acquire control over institutions And then to put these supposedly academic institutions to use Shourie shows how in the process this cabal has perverted India's historical narrative and thereby vitiated the country's public discourse Two new chapters bring to light recent developments in the field how with their holy scriptures having been repudiated in their holy cities these historians strive to retain their perches by dominating niche domains how these efforts are bound to fail but how their trajectory holds vital lessons for those who seek to replace them A must read for every Indian who has an interest in the country's history and a stake in its future

Eminent Historians: Their Technology Their Line Their Fraud Arun Shourie, 1999 Save Humanity Maanoj Rakshit, 2004-11-17 Humanity that existed before and how it has been brought to today's level Religious teachings as reflected through conducts of its followers how they helped establish and practice Humanity and also how they gradually destroyed humanity The journey thereof and the Teachings responsible for this downfall *Do your History textbooks tell you these Facts?* Maanoj Rakhit, **The Life & Times of Shyama Prasad Mookerjee** Tathagata Roy, 2014-06-25 **BJP Today**, 1999 Arise Arjun Maanoj Rakhit, 2003 First published 2003 March **The Routledge Encyclopedia of Indian Writing in English** Manju Jaidka, Tej N. Dhar, 2023-09-29 Today Indian writing in English is a field of study that cannot be overlooked Whereas at the turn of the 20th century writers from India who chose to write in English were either unheeded or underrated with time the literary world has been forced to recognize and accept their contribution to the corpus of world literatures in English Showcasing the burgeoning field of Indian English writing this encyclopedia documents the poets novelists essayists and dramatists of Indian origin since the pre independence era and their dedicated works Written by internationally recognized scholars this comprehensive reference book explores the history and development of Indian writers their major contributions and the critical reception accorded to them The Routledge Encyclopedia of Indian Writing in English will be a valuable resource to students teachers and academics navigating the vast area of contemporary world literature The Mind of an Engineer: Volume 2 Purnendu Ghosh, 2019-11-18 This book is a collection of chapters reflecting the experiences and achievements of some of the Fellows of the Indian National Academy of Engineering INAE The book comprises essays that look at reminiscences eureka moments inspirations challenges and opportunities in the journey of an engineering professional The chapters look at the paths successful engineering professionals take towards self realisation the milestones they crossed and the goals they reached The book contains 38 chapters on diverse topics that truly reflect the way

the meaningful mind of an engineer works *Religions That Teach Hatred and Enmity* (Ed 2012) Maanoj Rakhit , The Sociology of Religion George Lundskow,2008-06-10 Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion s practioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one Many use real life examples only superficially to illustrate concepts Lundskow s approach is the opposite students will learn the facts of religion in its great diversity all the most interesting and compelling beliefs and practices and then learn relevant concepts that can be used to explain empirical observations The book thus follows the logic of actual research investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society This approach using provocative examples and with an eye toward the historical and theoretical not to mention global experience of religion will make this book a success in the classroom The author envisions a substantive approach that examines religion as it actually exists in all its forms including belief ritual daily living identity institutions social movements social control and social change Within these broad categories the book will devote particular chapters to important historical moments and movements leaders and various individual religions that have shaped the contemporary form and effect of religion in the world today TipuSultan- The Tyrant of Mysore Sandeep Balakrishna,2015-01-28 This book is part of a series of books aimed at disseminating the accurate history of India drawn from the primary sources History writing especially about the medieval Muslim rule has been fraught with political correctness controversy and in several cases downright falsification This has occurred mostly with official state patronage As a result any attempts to correct this course has been virulently opposed with the result that most urban educated Indians have now internalized a politically correct version of Indian history The history of Tipu Sultan too stands as a glaring instance of this distorted historical narrative Indeed we have seen read and heard about a lot of people claiming to be freedom fighters and receiving pensions from the Government Several of these worthies would not have been born before Independence yet they succeed in such blatant manipulations There are instances of portraying certain rulers and chieftains as true heroes who fought against the British Empire One such ruler happens to be Tipu Sultan Tipu Sultan is widely known as the Tiger of Mysore Indeed the image of Tipu battling a tiger barehanded crosses the mind whenever his name is mentioned But is this the truth Was Tipu Sultan truly the warrior as he has been portrayed What exactly is his record of fighting the British Was he really a freedom fighter as is widely claimed Sandeep Balakrishna in this well researched book explores both the myths and the truth surrounding Tipu Sultan A must read for those who wish to learn the true story of Tipu Sultan The Construction of History and Nationalism in India Sylvie Guichard,2010-06-25 Most studies on nations and nationalism argue that history or more precisely a common past is crucial for the process of national identity building

However the existence of one or more concurrent narratives for the construction of this identity is often not accounted for and there are cases where the common past or a collective memory is no longer shared This book centres on the construction elaboration and negotiation of the narratives that have become official history in India These narratives influence politics and the representation of the nation Depending on the chosen definition of the nation over 160 million Muslim Indians are either included or excluded from the nation and considered as foreigners from inside The author shows that beyond the antagonism of two representations of history two conceptions of the Indian nation secular and Hindu nationalist confronted each other during the history textbook controversy between 1998 and 2004 The diverging elements of the two discourses are underlined and surprising similarities are uncovered Yet in contemporary India this convergence remains overshadowed in political debates as the definition of the political has been shaped by the opposition between these two visions of the nation This book analyzes and questions the conception of the school textbook as a tool of national construction and more generally highlights the complexity of the link between historiography nation state and nation building [Hindutva For The Changing Times](#)

J.Nandakumar, Senior RSS leader J Nandakumar in *Hindutva for the Changing Times* states that Hindutva Hindu ness is the apt expression that captures the spiritual intellectual religious philosophical and political dimensions of the millennia old Dharmic civilization The book will interest academicians political thinkers sociologists and intellectuals as it is the first time that an RSS leader has attempted to analyze topics such as Multiculturalism versus Hindu Universalism Cultural Marxism Environmentalism Dataism through the Hindutva prism He states Hindu Rashtra will remain the unchanging core of the RSS Vedic scholar David Frawley has written the foreword for this thought provoking book *Hindu Nationalism, History and Identity in India* Lars Tore Flåten,2016-10-04 When the Hindu nationalist Bharatiya Janata Party BJP assumed power in India in 1998 as the largest party of the National Democratic Alliance it soon became evident that it prioritized educational reforms Under BJP rule a reorganization of the National Council of Educational Research and Training occurred and in 2002 four new history textbooks were published This book examines the new textbooks which were introduced considering them to be integral to the BJP s political agenda It analyses the ways in which their narrative and explanatory frameworks defined and invoked Hindu identity Employing the concept of decontextualization the author argues that notions of Hindu cultural similarity were conveyed particularly as the textbooks paid scarce attention to social geographical and temporal contexts in their approaches to Indian history The book shows that intrinsic to the textbooks emphasis on similarity is a systematic backgrounding of any references to internal lines of division within the Hindu community Through a comparison with earlier textbooks it sheds light on the contested nature of history writing in India especially in terms of nation building and identity construction This issue is also highly relevant in India today due to the electoral success of the BJP in 2014 and the efforts of the Hindu nationalist organization Vishwa Hindu Parishad to construct a coherent Hinduism Arguing that the textbooks operate according to the BJP s ideology of Hindu cultural nationalism this book will be of interest to academics in the field of
