

# EMOTIONAL DEVELOPMENT

Emotional development refers to a person's improving ability to recognize, regulate, and express their feelings.

## THEORIES

- **Attachment Theory:** Explores how students overcome their attachment to their parents and replace it with self-efficacy, self-confidence, and ability to self-regulate emotions.
- **Psychosocial Theory:** people emotionally develop through a series of stages in life. In each stage, we have a fundamental crisis to overcome.

## EXAMPLES

- **Emerging ability to name feelings (7 to 24 months):** Toddlers develop the ability to name feelings like happy, sad, and scared.
- **Declining egocentrism (5 years and up):** Children will slowly move out of egocentric thinking from about age 5 and start to develop perspective-taking and empathy for others' viewpoints.

**Understanding How Family-Level Dynamics Affect Children's Development** James P. McHale, Philip A. Cowan, 1997-10-03 Recent studies of early socialization and child development have begun to contextualize early family influences more broadly than ever before Yet despite advances in family and child research over the past decade most studies continue to examine dyadic subsystems of the larger family system rather than the full family context With a few noteworthy exceptions empirical support for the utility of whole family analysis in child development research remains to be established This sourcebook draws together diverse studies of whole family dynamics to explore the potential of this paradigm for understanding individual variability in children's early social and emotional development Several chapters underscore the significance of coparental processes behaviors between adults that include and involve the child Other chapters assess patterns of cohesion emotion coordination and involvement among members of the family group Though the studies reported in this sourcebook capture family level processes in only one type of family the two parent family they provide a knowledge base from which subsequent research on other family configurations can proceed It is our hope that this sourcebook moves us one step closer to realizing the rich and nuanced perspectives inherent in the careful clinical observations and writings of family therapists who emphasize the relevance of the whole family group for our safety health security and reality This is the 74th issue of the quarterly journal *New Directions for Child Development*
