Wrongdoing and the Moral Emotions Derk Pereboom, 2021 This major new book by a leading philosopher of moral responsibility and free will provides an account in how we can and should respond to wrongdoing if we are doubtful about how free our human agency really is *Morality and the Emotions* Carla Bagnoli, 2011-10-27 Emotions shape our mental and social lives Their relation to morality is however problematic Since ancient times philosophers have disagreed about the place of emotions in morality One the one hand some hold that emotions are disorderly and unpredictable animal drives which undermine our autonomy and interfere with our reasoning For them emotions represent a persistent source of obstacles to morality as in the case of self love Some virtues such as prudence temperance and fortitude require or simply consist in the capacity to counteract the disruptive effect of emotions On the other hand venerable traditions of thought place emotions such as respect love and compassion at the very heart of morality Emotions are sources of moral knowledge modes of moral recognition discernment valuing and understanding Emotions such as blame guilt and shame are the voice of moral conscience and are central to the functioning of our social lives and normative practices New scientific findings about the pervasiveness of emotions posit new challenges to ethical theory Are we responsible for emotions What is their relation to practical rationality Are they roots of our identity or threats to our autonomy This volume is born out of the conviction that philosophy provides a distinctive approach to these problems Fourteen original articles by prominent scholars in moral psychology and philosophy of mind offer new arguments about the relation between emotions and practical rationality value autonomy and moral identity

Authorship and Authority in Kierkegaard's Writings Joseph Westfall, 2018-11-15 Authorship is a complicated subject in Kierkegaard's work which he surely recognized given his late attempts to explain himself in *On My Work as an Author* From the use of multiple pseudonyms and antonyms to contributions across a spectrum of media and genres issues of authorship abound Why did Kierkegaard write in the ways he

did Before we assess Kierkegaard's famous thoughts on faith or love or the relationship between the aesthetic the ethical and the religious we must approach how he expressed them Given the multi authored nature of his works can we find a view or voice that is definitively Kierkegaard's own Can entries in his unpublished journals and notebooks tell us what Kierkegaard himself thought How should contemporary readers understand inconsistencies or contradictions between differently named authors We cannot make definitive claims about Kierkegaard's work as a thinker without understanding Kierkegaard's work as an author This collection by leading contemporary Kierkegaard scholars is the first to systematically examine the divisive question and practice of authorship in Kierkegaard from philosophical literary and theological perspectives **Emotion:**

The Basics Michael Brady, 2018-12-07 While human beings might be rational animals they are emotional animals as well Emotions play a central role in all areas of our lives and if we are to have a proper understanding of human life and activity we ought to have a good grasp of the emotions Michael S Brady structures *Emotion The Basics* around two basic yet fundamental questions What are emotions And what do emotions do In answering these questions Brady provides insight into a core component of all our lives covering the nature of emotion emotion knowledge and understanding emotion and action emotions and social groups emotion morality and art In this concise and insightful introduction Brady explains why we are often better off as a result of emotion rather than reason being in the driving seat as our lives both individual and social would be significantly impoverished without the emotions With a glossary of key terms and suggestions for further reading *Emotion The Basics* is an ideal starting point for anyone seeking a full introduction to the philosophical study of emotion

MCKENNA, 2024-12-10 In *Responsibility Desert* Michael McKenna defends a theory of moral responsibility that explains the relationship between a wrongdoer and those who blame or punish on analogy with a conversation between speakers of a shared language In central cases blame functions like a conversational reply to another whose act bears a meaning revealing

the morally objectionable quality of her will But such blaming responses can be harmful McKenna defends the thesis that they can nevertheless be justified in terms of desert and he resists several criticisms of desert based justifications for blame and punishment

Rational Sentimentalism Daniel Jacobson, 2023-01-24 Rational Sentimentalism develops a novel theory of the sentimental values These values which include the funny the disgusting and the shameful are profoundly important because they set standards for emotional responses that are part of our shared human nature Yet moral philosophers have neglected them relative to their prominent role in human mental life The theory is sentimentalist because it holds that these values are emotion dependent contrary to some prominent accounts of the funny and the disgusting Its rational aspect arises from its insistence that the shameful for example is not whatever elicits shame but what makes shame fitting Shameful traits provide reasons to be ashamed that do not depend on whether one is disposed to be ashamed of them Furthermore these reasons to be ashamed transmit to reasons to act as shame dictates to conceal Sentimentalism requires a compatible theory of emotion and emotional fittingness This book explicates a motivational theory of emotion that explains the peculiarities of emotional motivation as other theories cannot It argues that a class of emotions are psychological kinds with a similar goal across cultures despite differences in their elicitors It then develops an account of fittingness that helps to differentiate reasons of fit which bear on the sentimental values from other considerations for or against having an emotion Significant and controversial conclusions emerge from this theory of rational sentimentalism Sentimental values conflict with one another and with morality but nevertheless provide practical reasons that apply to humans if not to all rational agents

knowledge This volume is the first collection focusing on the claim that we cannot but account for emotions if we are to understand the processes and evaluations related to empirical knowledge All essays are specifically written for this collection by leading researchers in this relatively new and developing field bringing together work from backgrounds such as pragmatism and scepticism cognitive theories of emotions and cognitive science Cartesian epistemology and virtue epistemology
