Golden Excess Eric R. Varner, 2025-02-19 Golden Excess Art and the Aesthetics of the Incredible in Neronian Rome is the first monograph to offer a

full art historical synthesis of the rich archaeological and monumental evidence for Nero's remarkable principate. An outsized and innovative artistic program emerges informed by aesthetics of excess, the grotesque and learned luxury that rivals the cultural achievements of Rome's first emperor Augustus and stands in stark contrast to the universally negative and disparaging accounts of Nero in ancient authors. Indeed, Neronian Rome witnessed an astonishing efflorescence in the arts whose lasting effects still resonate. *A Written Republic* Yelena Baraz, 2012-04-29 Baraz examines the rhetorical battle that Cicero stages in his philosophical prefaces: a battle between the forces that would oppose or support his project. He presents his philosophy as intimately connected to the new political circumstances and his exclusion from politics. Fragmented Memory Nicoletta Bruno, Martina Filosa, Giulia Marinelli, 2022-02-21 Chance, in addition to the unavoidable ambiguity caused by time, is one of the main guilty parties in the transmission of ancient texts or lack thereof. However, the same cannot be said for what concerns the mechanisms of selection and loss of historical and literary memory, where the voluntary awareness of obscuring is often part of a precise aim, thus leading the cultural memory of a literate society to become fragmented. The present volume explores the devices and criteria of selection and loss in Ancient and Medieval texts and the subsequent fragmentation of such literature, but it also addresses the questions of the *damnatio memoriae* of literary strategies such as reticence and omission, as well as of known texts deemed lost but re-found thanks to state-of-the-art methods in digitization. The many and diverse nuances of the concepts of omission, selection and loss throughout Ancient and Medieval literature and history are illustrated through a number of case studies in the four sections of this volume, each examining a different facet of the topic: Mechanisms and criteria of textual loss and selection; Lost texts re-discovered; Voluntary omissions and desire for oblivion; and Re-working the known. **Ancient Memory** Katharine Mawford, Eleni Ntanou, 2021-07-05 Although the recent memory boom has led to increasing interdisciplinary interest, there is a significant gap relating to the examination of this topic in Classics. In particular, there is need for a systematic exploration of ancient memory and its use as a critical and methodological tool for delving into ancient literature. The present volume provides just such an approach, theorising the use and role of memory in Graeco-Roman thought and literature and building on the background of memory studies. The volume's contributors apply theoretical models such as *memoryscapes*, civic and cultural memory and memory loss to a range of authors from Homeric epic to Senecan drama and from historiography to Cicero's recollections of performances. The chapters are divided into four sections according to the main perspective taken. These are: 1. the Mechanics of Memory; 2. Collective memory; 3. Female Memory; and 4. Oblivion. This modern approach to ancient memory will be useful for scholars working across the range of Greek and Roman literature as well as for students and a broader interdisciplinary audience interested in the intersection of memory studies and Classics. *Reading by Example: Valerius Maximus and the Historiography of Exempla*, 2021-10-25 Long regarded as a sycophantic producer of overblown moral platitudes, Valerius Maximus emerges from a series of studies as an independent thinker capable of challenging his readers through the material he has collected.

he makes them think about real moral dilemmas and grants to non Roman societies a remarkable equivalence to Rome Through his silences as much as his sermons he decodes the value and political system of his day Valerius is talented as a reader of others and himself was read appreciatively in the Later Empire and even more so by Christians in Medieval Europe

The Tombs of Pompeii Virginia Campbell,2014-12-05 This book offers a comprehensive overview of the tombs of Pompeii and its immediate environs examining the funerary culture of the population delving into the importance of social class and self representation and developing a broad understanding of Pompeii s funerary epigraphy and business The Pompeian corpus of evidence has heretofore been studied in a piecemeal fashion not conducive to assessing trends and practices Here a holistic approach to the funerary monuments allows for the integration of data from five different necropoleis and analysis of greater accuracy and scope Author Virginia Campbell demonstrates that the funerary practices of Pompeii are in some ways unique in to the population moving away from the traditional approach to burial based on generalizations and studies of typology She shows that while some trends in Roman burial culture can be seen as universal each population time and place constructs its own approach to commemoration and display Including an extensive catalogue of tomb data and images never before assembled or published this collective approach reveals new insights into ancient commemoration The Tombs of Pompeii is the first English language book on Pompeian funerary rituals It s also the first in any language to provide a complete survey of the tombs of Pompeii and the first to situate Pompeian differences within a wider Roman burial context

Cultural Memory in Republican and Augustan Rome Martin T. Dinter,Charles Guérin,2023-05-11 Cultural memory is a framework which elucidates the relationship between the past and the present essentially why how and with what results certain pieces of information are remembered This volume brings together distinguished classicists from a variety of sub disciplines to explore cultural memory in the Roman Republic and the Age of Augustus It provides an excellent and accessible starting point for readers who are new to the intersection between cultural memory theory and ancient Rome whilst also appealing to the seasoned scholar The chapters delve deep into memory theory going beyond the canonical texts of Jan Assmann and Pierre Nora and pushing their terminology towards Basu s dispositifs Roller s intersignifications Langlands sites of exemplarity and Erll s horizons This innovative framework enables a fresh analysis of both fragmentary texts and

archaeological phenomena not discussed elsewhere

Religion and Memory in Tacitus' Annals Kelly E.

Shannon-Henderson, 2018-11-29 Throughout his narrative of Julio Claudian Rome in the Annals Tacitus includes numerous references to the gods fate fortune astrology omens temples priests the emperor cult and other religious material Though scholars have long considered Tacitus discussion of religion of minor importance this volume demonstrates the significance of such references to an understanding of the work as a whole by analyzing them using cultural memory theory which views religious ritual as a key component in any society's efforts to create a lived version of the past that helps define cultural identity in the present Tacitus who was not only an historian but also a member of Rome's quindecimviral priesthood shows a marked interest in even the most detailed rituals of Roman religious life yet his portrayal of religious material also suggests that the system is under threat with the advent of the principate Some traditional rituals are forgotten as the shape of the Roman state changes while simultaneously a new form of cultic commemoration develops as deceased emperors are deified and the living emperor and his family members are treated in increasingly worshipful ways by his subjects This study traces the deployment of religious material throughout Tacitus narrative in order to show how he views the development of this cultic amnesia over time from the reign of the cryptic autocratic and oddly mystical Tiberius through Claudius failed attempts at reviving tradition to the final sacrilegious disasters of the impious Nero As the first book length treatment of religion in the Annals it reveals how these references are a key vehicle for his assessment of the principate as a system of government the activities of individual emperors and their impact on Roman society and cultural identity

Constructing Communities in Vergil's Aeneid Tedd A. Wimperis, 2024-01-03 A new take on the Aeneid drawing previously unexplored connections between Vergil's fictional world and its political context

Reading Quintilian Laura Loporcaro, 2025-01-30 Reading Quintilian takes Quintilian's Institutio oratoria as a coherent literary work one worth reading in full This book examines how didactic authority is created and how readers are guided through the Institutio thanks to an overarching framework that holds it together This framework is composed of several leitmotifs the author's self staging statements of didactic intent and method the depiction of an ideal didactic constellation remarks suggesting that the work proceeds in parallel with the pupil's training and the author's life polemics against other authorities and proleptic strategies deflecting responsibility for students potential failures As Reading Quintilian shows the pervasiveness of that framework and the implementation in the Institutio of the same rhetorical strategies it describes indicate that the work is not a mere accumulation of precepts but an artfully crafted whole All the stops of rhetorical art are pulled out to engage readers and to persuade them that the teachings conveyed are valid Laura Loporcaro grounds her analysis of the leitmotifs in the discussion of central themes including Quintilian's reception of Cicero and Seneca the Younger his conception of the ideal orator and his polemic against corrupt oratory Combining a panoramic view with in depth study of single leitmotifs and themes Reading Quintilian investigates the construction goals and models of the Institutio thereby shedding new light on the treatise as a whole
