highlighting the diverse ways freedpeople defined and created freedom through quotidian acts of survival and occasional uprisings Lightfoot complicates conceptions of freedom and the general narrative that landlessness was the primary constraint for newly emancipated slaves in the Caribbean [Lucky Valley](#) Catherine Hall,2024-02-22 Why does Edward Long's History of Jamaica matter Written in 1774 Long's History that most civilised of documents attempted to define White and Black as essentially different and unequal Long deployed natural history and social theory carefully mapping the island and drawing on poetry and engravings in his efforts to establish a clear and fixed racialized hierarchy His White family sat at the heart of Jamaican planter society and the West India trade in sugar which provided the economic bedrock of this eighteenth century system of racial capitalism Catherine Hall tells the story behind the History of a slave owning family that prospered across generations together with the destruction of such possibilities for enslaved people She unpicks the many contradictions in Long's thinking exposing the insidious myths and stereotypes that have poisoned social relations over generations and allowed reconfigured forms of racial difference and racial capitalism to live on in contemporary societies

case study of some of those who returned to Africa and had to build a new identity based on their experiences as slaves and the abstract representations of race and color in the Caribbean All of these provide the reader with a glimpse of complex phenomena that though they cannot be generalized in a single definition of blackness in Latin America share the common element of living in societies where the definition of blackness was flexible there were no laws of racial segregation and where the culture on one hand tolerates miscegenation and on the other denies full recognition of rights to Blacks
