Empowerment In Chicago:

Empowerment in Chicago Cedric Herring, 1998 Perhaps most importantly Empowerment in Chicago systematically examines what has gone right and wrong with the Empowerment Zones process BOOK JACKET Empowerment Zone Chicago: Empowering Chicago's citizens. v. 2. Materials in support of our strategic plan. v. 3. Resource guide. v. 4. Support from our partners , 1994 Barack Obama and African American Empowerment M. Marable, 2009-11-09 This book examines the evolution of black leadership and politics since the Civil Rights Movement It looks at the phenomenon of Barack Obama from his striking emergence as a successful candidate for the Illinois State Senate to President of the United States as part of the continuum of African American political leaders **Empowered Participation** Archon Fung, 2009-01-10 Every month in every neighborhood in Chicago residents teachers school principals and police officers gather to deliberate about how to improve their schools and make their streets safer Residents of poor neighborhoods participate as much or more as those from wealthy ones All voices are heard Since the meetings began more than a dozen years ago they have led not only to safer streets but also to surprising improvements in the city's schools Chicago's police department and school system have become democratic urban institutions unlike any others in America Empowered Participation is the compelling chronicle of this unprecedented transformation It is the first comprehensive empirical analysis of the ways in which participatory democracy can be used to effect social change Using city wide data and six neighborhood case studies the book explores how determined Chicago residents police officers teachers and community groups worked to banish crime and transform a failing city school system into a model for educational reform The author's conclusion Properly designed and implemented institutions of participatory democratic governance can spark citizen involvement that in turn generates innovative problem solving and public action Their participation makes organizations more fair and effective Though the book focuses on Chicago's municipal agencies its lessons are applicable to many American cities Its findings will prove useful not only in the fields of education and law enforcement but also to sectors as diverse as environmental regulation social service provision and workforce development Hearing on H.R. 818, the Community Services Empowerment Amendments of 1993, and the Role of Community Development Corporations in Rebuilding Low-income Communities United States. Congress. House. Committee on Education and Labor. Subcommittee on Human Resources, 1993 Empowerment Zone Chicago , 1994

Empowering Ourselves and Transforming Schools Judith W. Irwin, 1996-09-12 In this readable and ground breaking text Irwin examines the forces that keep educators and students from feeling fully empowered She defines empowerment as gaining the power to self actualize and to facilitate this for others Grounding her arguments in feminist and critical examinations of domination Irwin begins by defining empowerment as fundamentally opposed to domination She then examines the implications of this definition for our educational system This book encourages the reader to consider new directions for educational reform and synthesizes current innovations under the umbrella philosophy of empowerment

suggesting how the change from the patriarchal paradigm to one based on cooperation and connection might revolutionize the organization of schools and their classrooms The reader is challenged to develop his or her own philosophy and agenda for change through a series of reflective activities A comparative case study of five empowered teachers is included to demonstrate that empowerment is an individual as well as a collective process *Revitalizing America's Economically Distressed Communities* United States. Congress. House. Committee on Small Business,1998 **Chicago's Empowerment Zone** Chicago (Ill.). Department of Planning and Development,1995 *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986* ,1994 *High Stakes Education* Pauline Lipman,2004 What are the implications of education accountability reforms particularly in urban schools in a political economic and cultural context of intensifying globalization and increasing social inequality and marginalization along lines of race and class High Stakes Education provides a cogent and critical examination of such questions investigating concretely the political economy of neoliberal education reforms and the cultural politics of race Using Chicago a standard bearer for high stakes testing and centralized regulation of schools as a case study noted scholar Pauline Lipman argues there is a strategic relationship between these policies and processes of economic restructuring racialized social control and globalization **Black Metropolis** St. Clair Drake,Horace R. Cayton,2015-11-10 Ground breaking when first published in 1945 Black Metropolis remains a landmark study of race and urban life Few studies since have been able to match its scope and magnitude offering one of the most comprehensive looks at black life in America Based on research conducted by Works Progress Administration field workers it is a sweeping historical and sociological account of the people of Chicago s South Side from the 1840s through the 1930s Its findings offer a comprehensive analysis of black migration settlement community structure and black white race relations in the first half of the twentieth century It offers a dizzying and dynamic world filled with captivating people and startling revelations A new foreword from sociologist Mary Pattillo places the study in modern context updating the story with the current state of black communities in Chicago and the larger United States and exploring what this means for the future As the country continues to struggle with race and our treatment of black lives Black Metropolis continues to be a powerful contribution to the conversation The Chicago Freedom Movement Mary Lou Finley,Bernard LaFayette Jr.,James R. Ralph Jr.,Pam Smith,2016-04-22 Six months after the Selma to Montgomery marches and just weeks after the passage of the Voting Rights Act of 1965 a group from Martin Luther King Jr s staff arrived in Chicago eager to apply his nonviolent approach to social change in a northern city Once there King s Southern Christian Leadership Conference SCLC joined the locally based Coordinating Council of Community Organizations CCCO to form the Chicago Freedom Movement The open housing demonstrations they organized eventually resulted in a controversial agreement with Mayor Richard J Daley and other city leaders the fallout of which has historically led some to conclude that the movement was largely ineffective In this important volume an eminent team of scholars and activists offer an alternative assessment of the Chicago

Freedom Movement's impact on race relations and social justice both in the city and across the nation Building upon recent works the contributors reexamine the movement and illuminate its lasting contributions in order to challenge conventional perceptions that have underestimated its impressive legacy Chicago's Block Clubs Amanda I. Seligman,2016-10-04 What do you do if your alley is strewn with garbage after the sanitation truck comes through Or if you're tired of the rowdy teenagers next door keeping you up all night Is there a vacant lot on your block accumulating weeds needles and litter For a century Chicagoans have joined block clubs to address problems like these that make daily life in the city a nuisance When neighbors work together in block clubs playgrounds get built local crime is monitored streets are cleaned up and every summer is marked by the festivities of day long block parties In *Chicago's Block Clubs* Amanda I Seligman uncovers the history of the block club in Chicago from its origins in the Urban League in the early 1900s through to the Chicago Police Department's twenty first century community policing program Recognizing that many neighborhood problems are too big for one resident to handle but too small for the city to keep up with city residents have for more than a century created clubs to establish and maintain their neighborhood's particular social dynamics quality of life and appearance Omnipresent yet evanescent block clubs are sometimes the major outlets for community organizing in the city especially in neighborhoods otherwise lacking in political strength and clout Drawing on the stories of hundreds of these groups from across the city Seligman vividly illustrates what neighbors can and cannot accomplish when they work together Forum for Applied Research and Public Policy ,1995 Federal Register ,2000-02-22 *Ideas in Unexpected Places* Leslie M. Alexander,Brandon R. Byrd,Russell Rickford,2022-04-15 This transformative collection advances new approaches to Black intellectual history by foregrounding the experiences and ideas of people who lacked access to more privileged mechanisms of public discourse and power While the anthology highlights renowned intellectuals such as W E B Du Bois it also spotlights thinkers such as enslaved people in the antebellum United States US Black expatriates in Guyana and Black internationals in Liberia The knowledge production of these men women and children has typically been situated outside the disciplinary and conceptual boundaries of intellectual history The volume centers on the themes of slavery and sexuality abolitionism Black internationalism Black protest politics and power and the intersections of the digital humanities and Black intellectual history The essays draw from diverse methodologies and fields to examine the ideas and actions of Black thinkers from the eighteenth century to the present offering fresh insights while creating space for even more creative approaches within the field Timely and incisive *Ideas in Unexpected Places* encourages scholars to ask new questions through innovative interpretive lenses and invites students scholars and other practitioners to push the boundaries of Black intellectual history even further *Running the Numbers* Matthew Vaz,2020-04-13 Every day in the United States people test their luck in numerous lotteries from state run games to massive programs like Powerball and Mega Millions Yet few are aware that the origins of today's lotteries can be found in an African American gambling economy that flourished in urban communities in

the mid twentieth century In *Running the Numbers* Matthew Vaz reveals how the politics of gambling became enmeshed in disputes over racial justice and police legitimacy As Vaz highlights early urban gamblers favored low stakes games built around combinations of winning numbers When these games became one of the largest economic engines in nonwhite areas like Harlem and Chicago s south side police took notice of the illegal business and took advantage of new opportunities to benefit from graft and other corrupt practices Eventually governments found an unusual solution to the problems of illicit gambling and abusive police tactics coopting the market through legal state run lotteries which could offer larger jackpots than any underground game By tracing this process and the tensions and conflicts that propelled it Vaz brilliantly calls attention to the fact that much like education and housing in twentieth century America the gambling economy has also been a form of disputed terrain upon which racial power has been expressed resisted and reworked

America's Urban History Lisa Krissoff Boehm, Steven H. Corey, 2023-07-26 In this second edition *America's Urban History* now includes contemporary analysis of race immigration and cities under the Trump administration and has been fully updated with new scholarship on early urbanization mass incarceration and cities the Great Society the diversification of the suburbs and environmental justice The United States is one of the most heavily urbanized places in the world and its urban history is essential to understanding the fundamental narrative of American history This book is an accessible overview of the history of American cities including Indigenous settlements colonial America the American West the postwar metropolis and the present day landscape of suburban sprawl and an urbanized population It examines the ways in which urbanization is connected to divisions of society along the lines of race class and gender but it also studies how cities have been sources of opportunity hope and success for individuals and the nation Images maps tables and a guide to further reading provide engaging accompaniment to illustrate key concepts and themes Spanning centuries of America s urban past this book s depth and insight make it an ideal text for students and scholars in urban studies and American history

The Paradox of Urban Space S. Sutton, S. Kemp, 2011-01-31 As racially based inequalities and spatial segregation deepen further strained by emergent problems associated with climate change ever widening differences between wealth and poverty and the economic crisis this book issues a timely call for just sustainable development
