Women, Islam and Education in Iran Goli M. Rezai-Rashti, Golnar Mehran, Shirin Abdmolaei, 2019-02-21 Drawing on the complexities and nuances in women's education in relation to the aftermath of the 1979 Iranian Revolution this edited collection examines implications of religious based policies on gender relations as well as the unanticipated outcomes of increasing participation of women in education With a focus on the impact of the Islamic Republic's Islamicization endeavor on Iranian society specifically gender relations and education this volume offers insight into the paradox of increasing educational opportunities despite discriminatory laws and restrictions that have been imposed on women

The Hojatiyeh Society in Iran R. Cohen, 2013-02-12 This book analyzes the evolution of the Hojatiyeh movement in Iran a semi clandestine movement which emerged in the 1950s as an anti Baha'i movement went underground in the 1960s and re-emerged openly after Iran's 1979 revolution with its members coming to occupy some of the highest echelon posts in Iranian politics

**Rethinking Gender, Ethnicity and Religion in Iran** Azadeh Kian, 2023-07-13 Winner of the Latifeh Yarshater book prize 2024 Covering the Pahlavi modern nation state as well as the Islamic regime this book examines the crucial shifts that affected Sunnite and subaltern women once Shi'ism became the state religion after the Iranian Revolution Focusing on women in the Baluchistan and Golestan provinces of Iran Azadeh Kian analyses and explores issues of cultural racialization ethno-centrism Shi'a-centrism and patriarchal and chauvinistic ideologies in Iranian society propagated by the state and sustained by its policies Based on quantitative and qualitative surveys taken throughout Iran comprised of over 7 000 married women and 100 interviews with a sample of Sunnite and subaltern Persian women Kian reveals how social hierarchy and power relations based on gender class ethnicity and religion operate She argues that women have been at the heart of the process of national and ethnic re-construction as women as potential mothers are expected to reproduce national and ethnic boundaries Kian argues that by examining the family institution as a site of power analysing family dynamics as well as women's everyday lives the politics of ordinary Iranians and the relationship between state and society can be better understood Kian argues that the time is ripe to achieve a non-hegemonic definition of Iranian national identity through acknowledgement of gender class ethnic and religious diversity and plurality of experiences of oppression and injustice

**Land and Revolution in Iran, 1960-1980** Eric J. Hooglund, 2014-07-03 Carried out by the government of the shah between 1962 and 1971 the Iranian land reform was one of the most ambitious such undertakings in modern Middle Eastern history Yet beneath apparent statistical success the actual accomplishments of the program in terms of positive benefits for the peasantry were negligible Later the resulting widespread discontent of thousands of Iranian villagers would contribute to the shah's downfall In the first major study of the effects of this widely publicized program Eric Hooglund's analysis demonstrates that the primary motives behind the land reform were political Attempting to supplant the near absolute authority of the landlord class over the countryside the central government hoped to extend its own authority throughout

rural Iran While the Pahlavi government accomplished this goal its failure to implement effective structural reform proved to be a long term liability Hooglund who conducted field research in rural Iran throughout the 1970s and who witnessed the unfolding of the revolution from a small village provides a careful description of the development of the land reform and of its effects on the main groups involved landlords peasants local officials merchants and brokers He shows how the continuing poverty in the countryside forced the migration of thousands of peasants to the cities resulting in serious shortages of agricultural workers and an oversupply of unskilled urban labor When the shah s government was faced with mass opposition in the cities in 1978 not only did a disillusioned rural population fail to support the regime but thousands of villagers participated in the protests that hastened the collapse of the monarchy

**Democracy in Iran** Ali Gheissari,2009-07-24 In this book Ali Gheissari and Vali Nasr look at the political history of Iran in the modern era and offer an in depth analysis of the prospects for democracy to flourish there After having produced the only successful Islamist challenge to the state a revolution and an Islamic Republic Iran is now poised to produce a genuine and indigenous democratic movement in the Muslim world Democracy in Iran is neither a sudden development nor a western import and Gheissari and Nasr seek to understand why democracy failed to grow roots and lost ground to an autocratic Iranian state

Nomadism in Iran D. T. Potts,2014-03-03 The classic images of Iranian nomads in circulation today and in years past suggest that Western awareness of nomadism is a phenomenon of considerable antiquity Though nomadism has certainly been a key feature of Iranian history it has not been in the way most modern archaeologists have envisaged it Nomadism in Iran recasts our understanding of this timeless tradition Far from constituting a natural adaptation on the Iranian Plateau nomadism is a comparatively late introduction which can only be understood within the context of certain political circumstances Since the early Holocene most if not all agricultural communities in Iran had kept herds of sheep and goat but the communities themselves were sedentary only a few of their members were required to move with the herds seasonally Though the arrival of Iranian speaking groups attested in written sources beginning in the time of Herodutus began to change the demography of the plateau it wasn t until later in the eleventh century that an influx of Turkic speaking Oghuz nomadic groups true nomads of the steppe began the modification of the demography of the Iranian Plateau that accelerated with the Mongol conquest The massive unprecedented violence of this invasion effected the widespread distribution of largely Turkic speaking nomadic groups across Iran Thus what has been interpreted in the past as an enduring pattern of nomadic land use is by archaeological standards very recent Iran s demographic profile since the eleventh century AD and more particularly in the nineteenth and twentieth century has been used by some scholars as a proxy for ancient social organization Nomadism in Iran argues that this modernist perspective distorts the historical reality of the land Assembling a wealth of material in several languages and disciplines Nomadism in Iran will be invaluable to archaeologists anthropologists and historians of the Middle East and Central Asia

*The Elamite World* Javier Álvarez-Mon, Gian Pietro Basello, Yasmina Wicks, 2018-01-29 Amongst the civilizations to participate in the dynamic processes of contact and interchange that gave rise to complex societies in the ancient Near East, Elam has remained one of the most obscure, at times languishing in the background of scholarly inquiry. In recent years, however, an increasing body of academic publications have acknowledged its relevance and suggested that its legacy was more considerable and long lasting than previously estimated. The Elamite World assembles a group of 40 international scholars to contribute their expertise to the production of a solid, lavishly illustrated English language treatment of Elamite civilization. It covers topics such as its physical setting, historical development, languages and people, material culture, art, science, religion and society, as well as the legacy of Elam in the Persian empire and its presence in the modern world. This comprehensive and ambitious survey seeks for Elam, hardly a household name, a noteworthy place in our shared cultural heritage. It will be both a valuable introductory text for a general audience and a definitive reference source for students and academics.

**Power, Islam, and Political Elite in Iran** Eva Rakel, 2008-11-30 The Iranian Islamic revolution brought about a political system based on a combination of state institutions that derive their legitimacy from Islamic law and republican institutions legitimized by the people. As there are no legal political parties in the Islamic Republic of Iran, political factions represent the varying ideological and material interests of members of the political elite and their supporters. This book analyzes the rivalries between the political factions and their related state institutions and the impact of the dynamics of factionalism on domestic economic and socio-cultural and foreign policy formulation. It shows that tensions inherent to the structure of state institutions and factional rivalries slow down the process of democratization and economic reforms in the Islamic Republic of Iran.

**Forming National Identity in Iran** Ali Mozaffari, 2014-06-20 Modern Iran is a country with two significant but competing discourses of national identity: one stemming from ancient pre-Islamic customs and mythology, the other from Islamic Shi'i practices and beliefs. At one time co-existing and often mutually reinforcing, in more modern times they have been appropriated by intellectuals and the state who have drawn upon their narratives and traditions to support and authenticate their ideologies. The result has been an often

confused notion of identity in Iran In this essential work Ali Mozaffari explores the complex processes involved in the formation of Iranian national identity He lays particular stress upon the importance of place for it is through the concept of place that collective national identity and ideas of homeland are expressed and disseminated The author reveals the ways in which homeland is conceived both through designated permanent sites and ritual performance illustrating his arguments through an analysis of the ancient Achaemenid capital of Persepolis and the Shi i rituals of Moharram In a final part of the book he extends his analysis to the Ancient Iran Museum and the Islamic Period Museum housed in the National Museum of Iran showing how the major transformations of twentieth century Iran which have so far been perceived in terms of political discourses and historical events are in fact concerned with conceiving place *Forming National Identity in Iran* offers powerful insights into the forces shaping national identity in Iran which makes it a valuable contribution to the cultural and political importance of place

policy oriented contributions also include those concerning the country's responses to natural disasters Iran's Green Movement Navid Pourmokhtari, 2021-05-26 This book examines the emergence and development of the 2009 Green Movement in Iran. The approach emphasizes the context and the local and historical specificities in which mass oppositional movements arise, develop and conduct their operations. Meanwhile, it foregrounds an account of multiple modernities that work to transcend modernist assumptions. The volume describes and analyzes the power modalities, disciplinary, biopolitical and sovereign, employed by the Islamic Republic to governmentalize the masses. Bearing a triangular methodology, the book consists of six semi-structured interviews with authorities and activists who participated in the pivotal events of that period, discourse analysis focusing on the Iranian constitution and the relevant government policy documents and speeches, and archival analysis. These provide the historical background, perspectives and insights required to analyze and explicate the conditions responsible for the emergence of the Green Movement and to grasp how collective action was enabled and organized. Marking a particular historical phase in the development of a home-grown democracy in post-revolutionary Iran, the Green Movement is transforming the country's political landscape. This book is a key resource to students and scholars interested in comparative politics, Iranian studies and the Middle East. **Cultural Revolution in Iran** Annabelle Sreberny, Massoumeh Torfeh, 2013-10-17 The Islamic Republic of Iran has entered its fourth decade and the values and legacy of the Revolution it was founded upon continue to have profound and contradictory consequences for Iranian life. Despite the repressive power of the current regime, the immense creativity of popular cultural practices that negotiate and resist a repressive system is a potent and dynamic force. This book draws on the expertise and experience of Iranian and international academics and activists to address diverse areas of social and cultural innovation that are driving change and progress. While religious conservatism remains the creed of the establishment, this volume uncovers an underground world of new technology, media and entertainment that speaks to women seeking a greater public role and a restless younger generation that organises and engages with global trends online.
