humans is another question entirely and two articles From Wolf to Dog and The Taming of the Cat look at the evolution of the human relationship with dogs and cats respectively Pets behavior is examined further in several articles including The World According to Dogs in which Julie Hecht deciphers what it means when a dog won't play and whether that guilty look really indicates a feeling of responsibility Meanwhile in The Inner Life of Cats Kate Wong investigates feline quirks such as why cats purr or bring their kills to their humans Finally all pet owners know that animals feel things and science is starting to agree As we learn in Do Animals Feel Empathy and When Animals Mourn many species grieve over the loss of relatives or close companions indicating that empathy and grief could have neural and evolutionary roots
