Friends Guests Colleagues The Mu Fu Sy:

Li Huang-Chang: Friends, Guests, and Colleagues Kenneth Everett Folsom, 1964 **The Class of 1761** Iona Man-Cheong, 2004-08-12 The Class of 1761 reveals the workings of China's imperial examination system from the unique perspective of a single graduating class. The author follows the students' struggles in negotiating the examination system along with bureaucratic intrigue and intellectual conflict as well as their careers across the Empire to the battlefields of imperial expansion in Annam and Tibet, the archives where the glories of the empire were compiled and back to the chambers where they in turn became examiners for the next generation of aspirants. The book explores the rigors and flexibilities of the examination system as it disciplined men for political life and shows how the system legitimated both the Manchu throne and the majority non-Manchu elite. In the system's intricately articulated networks we discern the stability of the Qing empire and the fault lines that would grow to destabilize it. *A Chinese Pioneer Family* Johanna Margarete Menzel Meskill, 2017-03-14 In an absorbing account of a frontier family's rise to local eminence from its pioneer days in eighteenth-century Taiwan through its attainment of gentry status, a century later Johanna Meskill presents not just a family history but a social history of late imperial China as well. Originally published in 1979, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. Reproducing Women Yi-Li Wu, 2010-08-11 This innovative book uses the lens of cultural history to examine the development of medicine in Qing-dynasty China. Focusing on the specialty of medicine for women, fuke, Yi Li Wu explores the material and ideological issues associated with childbearing in the late imperial period. She draws on a rich array of medical writings that circulated in seventeenth to nineteenth-century China to analyze the points of convergence and contention that shaped people's views of women's reproductive diseases. These points of contention touched on fundamental issues: How different were women's bodies from men's? What drugs were best for promoting conception and preventing miscarriage? Was childbirth inherently dangerous? And who was best qualified to judge? Wu shows that late imperial medicine approached these questions with a new positive perspective. **The United States and China** John King Fairbank, 1983 Focusing on China during the last twenty-five years, the author illuminates the country's traditions, customs, political structure, and economy. *The Journal of Asian Studies*, 1968 **Journal of Asian History**, 1976 **California Librarian**, 1966 Includes Handbook and proceedings of the annual meeting of the California Library Association. **My Trouble is My English** Danling Fu, 1995 Can the whole language approach adequately prepare minority students, especially those with different cultural backgrounds, for the literate world? Danling Fu joins the current debate over this issue, examining the learning experiences of four Laotian students at a

mainstream secondary school She not only describes and interprets the students learning situations but also reveals their perspectives along with those of their teachers Throughout the book Fu provides essential information on how students with different cultural backgrounds and learning styles react behave and learn in a classroom and how teachers can use that knowledge to create a community of learners **Das Kommunikationsamt (T'ung-cheng shih ssu) der Ming-Dynastie (1368-1644)** Carmen Paul,1996
