Frog Living Things:

Living Things Arthur G. Clement,1925 *50 Fantastic Ideas for Caring for Living Things* Judith Harries,2022-11-24

The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5. Each activity features step by step guidance, a list of resources and a detailed explanation of the skills children will learn. Creative, simple and highly effective, this series is a must have for every Early Years setting. The ideas in this book will enable children to experience the delights of watching animals and plants grow, sharing and caring for pets, observing a variety of life cycles, surveying different minibeasts and finding out how to help vulnerable wild animals like hedgehogs. Linked to the Understanding the World section of the EYFS framework, this book includes ideas for games, creative activities, role play and hands on experiences with animals and plants to build children's empathy and encourage respect for living things both in their own environments and further afield.

Thomas,2025-05-15 If frogs come from eggs and eggs come from frogs, where did the first frog come from? This is the incredible story of how frogs came to be. To find out, we go all the way back to the very beginning. Before frogs, dinosaurs, planet Earth, before even the stars existed, back 13.7 billion years to the moment just before the universe began. And from there, through Isabel Thomas's beautifully lyrical text and Daniel Egnus's breathtaking illustrations, we are transported through time to the evolution of the very first frogs. The story of frog is an epic, an adventure in space and time. It's a story still being told in every garden, every pond, and every corner of our extraordinary planet.
