fun games it seeks to engage kids in active learning and provide them ample opportunities to independently practise and master maths. The short stories are meant to ignite children's curiosity and creativity and encourage them to approach maths with a positive attitude and an eagerness to learn. The mini games which are carefully developed in consultation with expert educators and psychologists help children realise how maths is used in their daily lives in a way that is most effective for today's digital natives. These games make learning fun and engaging so that children can enjoy maths as well as develop their critical thinking and analytical reasoning skills. The main objective of Play Maths is to help today's children build a strong base of maths from the very beginning because building a strong foundation of maths is like an investment an investment that will pay throughout life. Let's make learning fun and exciting.

Mathematics Through Play in the Early Years Kate Tucker, 2010-03-18 Teaching mathematics to young children in creative ways is made easy with this second edition of a wonderful book which offers the reader clear advice and lots of exciting ideas to use in any early years setting. New material includes an additional chapter on creative recording a whole new chapter on ways to involve parents discussion of policy throughout the UK more on using ICT case studies covering the whole birth to eight age range. Essential reading for any practitioner who wants to develop their mathematics teaching this book is equally important for all trainee teachers and early years students. Kate Tucker is an early years teacher trainer and writer based in Exeter she has over 20 years of experience and has written widely on early years mathematics and Foundation Stage practice.

The Power of Picture Books in Teaching Math and Science Lynn Columbia, 2017-05-12 This book's 50 plus lessons each based on a different picture book or story will help classroom teachers build a foundation for teaching math science and social studies concepts to their students. Each lesson uses children's literature to make challenging abstract concepts relevant to children's lives inviting them to learn these concepts while responding to a story's illustrations theme characters and plot. The lessons also demonstrate how teachers can use children's literature to meet national standards in math science and social studies. Chapters 1 through 5 set the stage for using picture books discussing the effective imaginative integration of literature into the classroom. Teachers will learn to create an environment that ensures that when children and books come together the experience is enjoyable and thought provoking. Chapters 6 through 9 provide individual lessons by grade level with detailed activities based on specific books.
