Gomes Porto, Chris Alden, 2016-04-22 Demilitarization of conflict and society is crucial to building sustainable peace in countries emerging from the scourge of civil war As longstanding conflicts come to an end processes which facilitate the potentially volatile transition from formal peace to social peace are critically important At the heart of the exercise is the necessity of transforming the culture and the instruments of war demilitarization including disarming demobilizing and reintegrating DDR former combatants into society This volume represents the first in depth and comprehensive discussion of reintegration of former combatants in war to peace transitions In addition to a systematic reflection and review of existing literature on DDR the authors devised and applied a field research methodology to studying the reintegration of former combatants in Angola with potentially significant implications on the design and implementation of DDR programmes The volume is written for academics students and practitioners focusing on war to peace transitions and post conflict issues

War and Democratization Wolfgang Merkel, Sonja Grimm, 2013-09-13 Promotion of democracy in post war and post conflict societies became a topic during the 1990s The book deals with the legality legitimacy and effectiveness of military interventions where the international community of states not only felt impelled to engage in military humanitarian or peace building missions but also in long term state and democracy building External actors particularly engaged in four modes namely enforcing democratization by enduring post war occupation mode 1 restoring an elected government by military intervention mode 2 intervening in on going massacres and civil war with military forces humanitarian intervention and thereby curbing the national sovereignty of those countries mode 3 and forcing democracy on rogue states by democratic intervention in other words democracy through war mode 4 The contributions link juridical and philosophical reflections on just war ad bellum with empirical evidence post bellum in Afghanistan Georgia Serbia Croatia Cambodia and East Timor All empirical analyses stress the complexity and difficulties to establish democracy in post conflict societies driven or monitored

by external actors Such an endeavour implies a comprehensive agenda of political social and economic methods of peace building However if external actors withdraw before the roots of democracy are deep enough and before democratic institutions are strong enough to stand alone then the entire endeavour may fail This book was originally published as a special issue of Democratization

**Transitional Justice and Rule of Law Reconstruction** Padraig McAuliffe, 2013-06-26. This short and accessible book is the first to focus exclusively on the inter relation between transitional justice and rule of law reconstruction in post conflict and post authoritarian states. In so doing it provides a provocative reassessment of the various tangled relationships between the two fields exploring the blind spots contradictions and opportunities for mutually beneficial synergies in practice and scholarship between them. Though it is commonly assumed that transitional justice for past human rights abuses is inherently conducive to restoring the rule of law differences in how both fields conceptualise the rule of law the scope of transition and obligations to citizens have resulted in divergent approaches to transitional criminal trial international criminal law restorative justice and traditional justice mechanisms. Adopting a critical comparative approach that assesses the experiences of post authoritarian and post conflict polities in Latin America Asia Europe and Africa undergoing transitional justice and justice sector reform simultaneously it argues that the potential benefits of transitional justice are exaggerated and urges policy makers to rebalance the compromises inherent in transitional justice mechanisms against the foundational demands of rule of law reconstruction. This book will be of interest to scholars in the fields of transitional justice rule of law legal pluralism and peace building concerned by the failure of transitional justice to leave a positive legacy to the justice system of the states where it operates. This is a bold and nuanced scrutiny of the international system's approach to transitional justice and the much vaunted rule of law project. Dr McAuliffe should be congratulated for this well researched book which should be a must read for not only scholars and researchers in transitional justice and peace and conflict studies but also policy makers in the international system. Dr Hakeem O Yusuf Senior Lecturer University of Strathclyde and author of Transitional Justice Judicial Accountability and the Rule of Law.

the costs benefits consequences and prospects for rebuilding nations emerging from violent conflict The rationale for this comes from the growing realization that in the post Cold War era and in the aftermath of 9 11 our understanding of conflict and conflict resolution has to include consideration of the conditions conducive to sustaining the peace in nations torn by civil war or interstate conflict The chapters analyze the prospects for building a sustainable peace from a number of different perspectives examining the role of economic development democratization respect for human rights the potential for renewal of conflict the United Nations and other critical topics In an age when nation building is once again on the international agenda and scholars as well as policy makers realize both the tremendous costs and benefits in fostering developed democratic peaceful and secure nations the time has truly come for a book that integrates all the facets of this important subject Conflict Prevention and Peace building in Post War Societies will appeal to students and scholars of peace studies international relations security studies and conflict resolution as well as policy makers and analysts **The Palgrave**

**Handbook of Disciplinary and Regional Approaches to Peace** Oliver Richmond,Sandra Pogodda,Jasmin Ramovic,2016-03-15 In this handbook a diverse range of leading scholars consider the social cultural economic political and developmental underpinnings of peace This handbook is a much needed response to the failures of contemporary peacebuilding missions and narrow disciplinary debates both of which have outlined the need for more interdisciplinary work in International Relations and Peace and Conflict studies Scholars students and policymakers are often disillusioned with universalist and northern dominated approaches and a better understanding of the variations of peace and its building blocks across different regions is required Collectively these chapters promote a more differentiated notion of peace employing comparative analysis to explain how peace is debated and contested **Historical Dictionary of the United Nations**

Jacques Fomerand,2017-12-29 At a time of profound transformations in international relations the second edition of Historical Dictionary of the United Nations maps out the continuing and deepening role and relevance of the United Nations in the maintenance of peace and the promotion of development and human rights Focusing on the past two decades developments this book contributes to a reasoned and fuller understanding of an organization which remains the cornerstone of a changing world fraught with challenges which simply cannot be addressed either unilaterally or bilaterally This second edition of Historical Dictionary of the United Nations contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1 000 cross referenced entries on its basic organizations subsidiary bodies related specialized and other agencies and nongovernmental actors as well as outstanding figures in its history This book is an excellent resource for students researchers and anyone wanting to know more about the United Nations **Violence, Extremism and Transformation** Bertelsmann Stiftung,2010-07-30 Based on the results of the Bertelsmann Transformation Index 2006 BTI this study challenges widespread assumptions and stereotypes about the nature of political violence It reminds us that religious extremism while on the rise accounts for only a small fracture of armed conflict in the world

Moreover Western countries preoccupation with transnational terrorism is misleading as most political violence has been and remains local in its origin and its area of activity Study results call for a factual and more differentiated assessment of the threats posed by militants and extremists If political violence and terrorism are still predominantly home grown the multitude of local causes such as socioeconomic grievances or state weakness should receive more attention In any comprehensive effort to foster stability political institutions will have to play the pivotal role This insightful analysis is linked directly to the broader results of the BTI 2006 which highlight the major democratic deficiencies in 119 development and transformation countries It underlines the importance of supporting democratic institutions and good governance in international efforts to combat terrorism

Reconstructing Afghanistan William Maley, Susanne Schmeidl, 2014-11-27 This book identifies some of the main lessons for civil military interactions that can be derived from the experiences of Provincial Reconstruction Teams PRTs in Afghanistan The book has three main themes Firstly the volume analyses why the ways in which civil and military actors interact in theatres of operations such as Afghanistan matter for both those categories of actors and for the ordinary people who their interactions serve Second the book highlights that these interactions are invariably complex The third theme which arises specifically from the PRT experience in Afghanistan is that such teams vary significantly in their roles resourcing and operational environments Consequently to appraise the value of the PRT experience it is necessary to unpack the experiences of different PRTs which the use of case studies allows one to do The volume comprises an introduction identifying some key questions to which the PRT experience gives rise and case studies of the experiences of the United States United Kingdom New Zealand Canada The Netherlands Australia Germany and France chapters dealing with the roles played by NGOs and the UN system and a discussion from an Afghan perspective of the implications of civilian casualties It is the combination of the diverse cases discussed in this book with a focus on the broad challenges of optimising civil military interactions that makes this book distinctive This book will be of much interest to students of the Afghan War civil military relations statebuilding Central Asian politics and IR in general

*Just Intervention* Anthony F. Lang Jr., 2003-12-01 What obligations do nations have to protect citizens of other nations As responsibility to our fellow human beings and to the stability of civilization over many years has ripened fully into a concept of a just war it follows naturally that the time has come to fill in the outlines of the realities and boundaries of what constitutes just humanitarian intervention Even before the world changed radically on September 11 policymakers scholars and activists were engaging in debates on this nettlesome issue following that date sovereignty human rights and intervention took on fine new distinctions and questions arose Should sovereignty prevent outside agents from interfering in the affairs of a state What moral weight should we give to sovereignty and national borders Do humanitarian emergencies justify the use of military force Can the military be used for actions other than waging war Can national interest justify intervention Should we kill in order to save These are profound and troubling questions and questions that the distinguished contributors of *Just Intervention* probe in all their complicated dimensions

Sohail Hashmi analyzes how Islamic tradition and Islamic states understand humanitarian intervention Thomas Weiss strongly advocates the use of military force for humanitarian purposes in Yugoslavia Martin Cook Richard Caplan and Julie Mertus query the use of force in Kosovo Michael Barnett drawing on his experience in the United Nations while it debated how best to respond to Rwandan genocide discusses how international organizations may become hamstrung in the ability to use force due to bureaucratic inertia and Anthony Lang ably envelopes these and other complex issues with a deft hand and contextual insight Highlighting some of the most significant issues in regard to humanitarian intervention Just Intervention braves the treacherous moral landscape that now faces an increasingly unstable world These contributions will help us make our way

Transition in Afghanistan William Maley, 2018-04-17 This book by one of the most experienced authorities on the subject presents a deep analysis of the very difficult current situation in Afghanistan Covering a wide range of important subjects including state building democracy war the rule of law and international relations the book draws out two overarching key factors the way in which the prevailing neopatrimonial political order has become entrenched making it very difficult for any other political order to take root and the hostile region in which Afghanistan is located especially the way in which an ongoing creeping invasion from Pakistani territory has compromised the aspirations of both the Afghan government and its international backers to move the country to a more stable position

**Holding UNPOL to Account** Ai Kihara-Hunt, 2017-03-06 Ai Kihara Hunt's **Holding UNPOL to Account** Individual Criminal Accountability of United Nations Police Personnel analyzes whether the mechanisms that address criminal accountability of United Nations police personnel serving in peace operations are effective and if there is a problem how it can be mitigated The volume reviews the obligations of States and the UN to investigate and prosecute criminal acts committed by UN police and examines the jurisdictional and immunity issues involved It concludes that these do not constitute legal barriers to accountability although immunity poses some problems in practice The principal problem appears to be the lack of political will to bring prosecutions as well as a lack of transparency which makes it difficult accurately to determine the scale of the problem
