Perriman, 2009-03-26 What made Emily Dickinson the reclusive woman she was and the dynamic poet she became A Wounded Deer concludes that her enigmatic poetry may have originated from a personal exposure to incest and examines how she used her craft to make the transition from victim to survivor at a time when the medical profession failed to acknowledge any damage related to this event Research into the Dickinson family background evidence from letters and poems and the testimony of people who knew the poet indicate that she apparently displayed at least 33 of 37 Incest Survivors Aftereffects from a diagnostic tool used internationally by many therapists when a client exhibits over 25 of these behavior patterns sexual abuse is strongly suspected The second section of the book deals with the three stage of recovery from complex post traumatic stress as outlined by trauma expert Judith Herman Remarkably Dickinson seems to have completed stages one and two but was unable to complete stage three because she could not reconnect with the outside world Writing was Dickinson s way of identifying the nature of her trauma coming to terms with its impact breaking the silence to inspire future women writers and reconstructing a new persona albeit from the sanctuary of her self imposed isolation The final section of A Wounded Deer examines what the poet might have discovered about sexual abuse from the literature she read and how she responded to this information in her own work It discusses The Bible Shakespeare Byron Hawthorne Charlotte Bront George Eliot and Barrett Browning A Wounded Deer is fascinating clearly written difficult to put down and a must for Dickinson scholars psychologists and anyone interested in psychological interpretations of literature Marilyn Berg Callander President Elect of the Fulbright Association A Wounded Deer is well worth reading its argument is clear cogent and at times riveting Although we will never know the truth of the poet s life this study offers readers a very plausible suggestion of what may be at the core of Dickinson s omitted center Maryanne Garbowsky English professor at the County College of Morris NJ and Dickinson scholar This is a groundbreaking book a fascinating and revealing read E Sue Blume LCSW Diplomate in Clinical Social Work Author Secret Survivors Uncovering Incest and Its Aftereffects in Women 1990 Ballantine Books How many multitudes of women have been terrorized into silence withholding the truth of their damning accusations rather than face their fear condemnation and shame of incest Emily allows her soul to reach over time and space to tell others tortured by life s tragedies that they are not alone and doing so the poet triumphs Sandra Bloom has served as President of the International Society for Traumatic Stress Studies President of the Philadelphia Physicians for Social Responsibility and Chair of the Task Force on Family Violence for the Attorney General She is the author of two books *Creative Therapies with Traumatized Children* Anne Bannister, 2003 As a probation officer and social worker Anne

Bannister has successfully used creative therapies with abused children for 25 years. Combining her practical experience and recent doctoral research she reflects on how and why these therapies actually work in the healing process. She shows how in the space between children and their therapists the child and adult can each use their creative skills to aid developmental processes, reverse negative brain patterns and affect positive behavioural changes to heal the damage caused by severe abuse in childhood. The author presents a practical model called the Regenerative Approach to use when assessing and working therapeutically with traumatised children. Her research has implications for those working in the field of children's development and learning and provides an important new approach for social workers, creative therapists and all those who work with traumatised children.

detailed and often disturbing accounts of the histories and troubles of young people afflicted by poverty disruption of family relationships and long term unemployment While much of the book is concerned with the difficulties young offenders experience and the problems probation officers have in trying to help them change the overall message of the book is not one of despair The authors show that good probation practice can make a difference and the book is written in a way which will be useful to practitioners and policy makers involved with supervising offenders in the community From the typology of offending the authors extract lessons for appropriate and relevant practice which should help to improve the quality and effectiveness of the probation service Some of these implications are explored in the concluding chapter by Cedric Fullwood Chief Probation Officer of Greater Manchester As well as criminal justice practitioners students of criminology probation trainees and other social work students will find in the book many vivid examples of how sociological theory can be used to understand and interpret practice The book is likely to provoke much debate about what constitutes positive practice in a probation service facing the challenges of the future
