## **From Conquest To Struggle Jesus Of Nazareth In Latin America:**

*From Conquest to Struggle* David B. Batstone, 1991-01-01 This book goes to the very heart of the passionate debate over the true character of Christian faith and practice The advance of liberation theology in the Latin American church has caused international reverberations within both the religious and political worlds The Vatican was moved to denounce it as heretical and the Reagan Bush administration has deemed it a significant threat to the stability of the region Here Batstone evaluates the writings of liberation theologians as they consider the central figure of Christian faith Jesus of Nazareth and asks whether a message of liberation for the poor and oppressed actually springs from the life and teachings of Jesus or is merely a religious projection of activists bent on radical social transformation The judgment given to that issue will weigh heavily in the debate which currently rages in religious communities and seminaries over the political role and responsibility of the church Batstone s work links these discussions to the concrete lives of the Latin American people and in that sense goes beneath the text and examines the subtext of religious reflection Chapters present events and stories that originate in the daily realities of contemporary Latin America and then consider what connection these experiences have to the story of Jesus of Nazareth

From conquest to struggle David B. Batstone, 1989      The Cross of Christ in African American Christian Religious Experience Demetrius K. Williams, 2023-10-03 In *The Cross of Christ in African American Christian Religious Experience* Piety Politics and Protest Demetrius K Williams examines and explores the ideational importance and rhetorical function of cross language and terminology in Black religious experience through an ideological lens Williams argues that for the first time in Christian history the European nation of Portugal under the guidance of Prince Henry used the theology of the cross to justify and sustain an exclusive trade of Sub Saharan African peoples Claiming that Jesus died on the cross only to save lost souls provided a convincing rational for Henry s exploratory voyages of discovery to

West African to exclusively enslave Black bodies With the confirmation of Catholic Popes and the competition of other European nations this same rationale would inspire empire building colonization and slave trading justified on their newly constructed ideological narrative of compassionate evangelism to save lost souls Over time with massive conversions to the faith of their enslavers Black people s Christian religious experiences would articulate a response to the world that held them in thrall That response would be articulated most consistently and effectively through their understanding of the cross of Christ Williams affirms Howard Thurman s claim that by some amazing but vastly creative spiritual insight the slave undertook the redemption of a religion that the master had profaned in his midst *The Cambridge Companion to Jesus* Markus Bockmuehl, 2001-11-08 This Companion takes as its starting point the realization that Jesus of Nazareth cannot be studied purely as a subject of ancient history a man like any other man History literature theology and the dynamic of a living worldwide religious reality all appropriately impinge on the study of Jesus The two parts of the book roughly correspond to the interdependent tasks of historical description and critical and theological reflection It incorporates the most up to date historical work on Jesus the Jew with the bigger issues of critical method the story of Christian faith and study and Jesus in a global church and in the encounter with Judaism and Islam Written by seventeen leading international scholars the book encourages students of the historical Jesus to discover the vital contribution of theology and students of doctrine to engage the Christ of faith as Jesus the first century Jew **Biography of a Mexican Crucifix** Jennifer Scheper Hughes, 2010 Here Jennifer Scheper Hughes traces popular devotion to the Cristo Aparecido over five centuries of Mexican history Each chapter investigates a single incident in the encounter between believers and the image *Recovering the Scandal of the Cross* Mark D. Baker, Joel B. Green, 2011-08-02 Since its publication in 2000 *Recovering the Scandal of the Cross* has provoked thought among evangelicals about the nature of the atonement and how it should be expressed in today s various global contexts In this second edition Green and Baker have clarified and enlarged the text to ensure its ongoing critical relevance

Liberation Theologies, Postmodernity and the Americas David Batstone, Eduardo Mendieta, Lois Ann Lorentzen, Dwight N. Hopkins, 2013-09-13 Simultaneously arising out of such diverse contexts as the black community in the United States grassroots religious communities in Latin America and feminist circles in North Atlantic countries theologies of liberation have emerged as a resource and inspiration for people seeking social and political freedom Over the last three decades liberation theology has irrevocably altered religious thinking and practice throughout the Americas *Liberation Theologies Postmodernity and the Americas* provides a meaningful and spirited debate on vital interpretive issues in religion philosophy and ethics The renowned group of scholars explore liberation theologies uses of discourses of emancipation revolution and utopia in contrast with postmodernism s suspicion of grand narratives while assessing what the postmodernism liberation debate means for strategies of social and political transformation Guided by the experiences of those at the margins of social power liberation theologies demystify the eurocentric myths of secularization and modernity and calls for a re appraisal of

*The Open Secret* Alister E. McGrath, 2011-09-23 Natural theology in the view of many is in crisis In this long awaited book Alister McGrath sets out a new vision for natural theology re establishing its legitimacy and utility A timely and innovative resource on natural theology the exploration of knowledge of God as it is observed through nature Written by internationally regarded theologian and author of numerous bestselling books Alister McGrath Develops an intellectually rigorous vision of natural theology as a point of convergence between the Christian faith the arts and literature and the natural sciences opening up important possibilities for dialogue and cross fertilization Treats natural theology as a cultural phenomenon broader than Christianity itself yet always possessing a distinctively Christian embodiment Explores topics including beauty goodness truth and the theological imagination how investigating nature gives rise to both theological and scientific theories the idea of a distinctively Christian approach to nature and how natural theology can function as a bridge between Christianity and other faiths **The Catholic Teacher** James D. Kirylo, 2023-01-26 James D Kirylo gives a personal and reflective account of what it means to be a Catholic teacher drawing on the rich history of the Church and its inclusive nature through ecumenical interfaith and interreligious dialogue along with the Church's social teachings and its link to liberation theology and a critical pedagogy in the light of faith Recognizing teaching as a sacred vocation Kirylo covers how faith should inform the practical matters of teaching and how these intersect with broader debates outside the classroom including the COVID 19 pandemic gun control the sanctity of life and climate change *The Catholic Teacher* Teaching for Social Justice with Faith Hope and Love is a book that underscores the dialectical interweaving of faith and action in the effort to foster a more just loving and right world *International Law as Social Construct* Carlo Focarelli, 2012-05-24 The book distils and articulates international law as a social construct It does so by analysing its social foundations essence and

roots in practical and socially workable as opposed to pure reason In addition to well known doctrines of jurisprudence and international law it draws upon psycho analytic insights into the origins and nature of law as well as philosophical social constructivism The work suggests that seeing law as a social construct is crucial to our understanding of international law and to the struggle to create better working rules The book re conceptualizes both past and new doctrines of international law as constructs namely as strategies of concomitantly de mythologizing and re mythologizing international law Key areas of international law including subjects sources hierarchy values and remedies are shown to be part of this process The social impact on international law of transnational actors and stakeholders normative fragmentation global justice legitimacy of both rules and players dynamics and hierarchization of norms compliance and implementation in municipal law is also extensively investigated Five basic values of the international community namely security humanity wealth environment and knowledge are explored by stressing their inter and intra tensions Finally the analysis is extended to the role that international courts play in the prosecution of heads of state and other transnational players who violate international law

On Cultural Rights: The Equality of Nations and the Minority Legal Tradition William Kurt Barth, 2008-08-31 This work addresses the question how has the evolution of a legal regime within the United Nations and regional organisations influenced state behaviour regarding recognition of minority groups The author assesses the implications of this regime for political theorists account of multiculturalism This research bridges a gap between normative questions in political theory on multiculturalism and the international law on minorities It does so by means of case studies of legal challenges involving two groups namely the Aboriginal peoples of Canada and the Roma peoples in Europe The author concludes by discussing the normative implications of the minority regime for helping to resolve conflicts that arise out of state treatment of minority groups
