Emerging Issues In Black Economic Development:

Emerging Issues in Black Economic Development Joint Center for Community Studies, 1976 Emerging Issues and Challenges in Business & Economics Francesco Ciampi, 2009 Leading Issues in Black Political Economy Thomas D. Boston, 2018-01-16

Leading Issues in Black Political Economy brings together the foremost experts on issues ranging from employment training and education of African Americans. It also emphasizes macro economic concerns of business development with special emphasis on long term trends of black owned businesses. The work emphasizes welfare considerations in an anti welfare epoch and the role of affirmative action now that it is under attack. Attention is given to the role of race in the continuing disparity of income distribution in American society. The highlights of Leading Issues include: An Employment and Business Strategy for the Next Century. A Comment by Thomas D. Boston. Long Term Trends and Prospects for Black owned Business by Andrew F. Brimmer. Is the U.S. Small Business Administration a Racist Institution by Timothy Bates. Worker Re Training and Labor Market Outcomes. A New Focus for Labor Research by James B. Stewart. Race Cognitive Skills Psychological Capital and Wages by Arthur H. Goldsmith. William Darity Jr and Jonathan R. Veum. and Reparations and Public Policy by Richard F. America.

The overall findings suggest that empirical wage equation specifications do matter. The role of psychological capital is critical in the marketplace. Race is indeed an important determinant of wages especially when the influence of both cognitive skills and psychological capital are included in the wage equation. This volume will be of crucial interest to economists, political scientists, sociologists and policy analysts studying African American life.

Thomas D. Boston is editor of the Review of Black Political Economy and professor of economics at the Georgia Institute of Technology. He is the co editor with Catherine L. Ross of *The Inner City Urban Poverty and Economic Development in the Next Century* also available from Transaction.
