Emerging Order God In The Age Of Scarcity:

The Emerging Order Jeremy Rifkin, Ted Howard, 1983 COVENANT THEOLOGY: A Critical Analysis Of Current Pentecostal Covenant Theology , **Exporting the American Gospel** Steve Brouwer, Paul Gifford, Susan D. Rose, 2013-12-16 As the pressures of globalization are crushing local traditions millions of uprooted people are buying into a new American salvation product This fundamentalist Christianity a fusion of American popular religion and politics is one of the most significant cultural influences exported from the United States With illuminating case studies based on extensive field research *Exporting the American Gospel* demonstrates how Christian fundamentalism has taken hold in many nations in Africa Latin America and Asia **Regime Change Begins at Home** Charles Derber, 2004-07-01 Since 1980 America has been run by a corporate regime that has co opted both political parties and shifted sovereignty from we the people to trans national corporations The result has been job insecurity for millions of workers debts as far as the eye can see and a dangerous quest for global domination Democracy itself has been undermined and the Constitution weakened This regime must be overturned And as Charles Derber demonstrates in his provocative new book it can be After all Derber points out there have been other corporate regimes in American history although this latest version is by far the most extreme Still the corporate regimes of the Gilded Age and Roaring Twenties were overturned To create regime change again it will require bold creative strategies uniting progressives and conservatives in a new politics which Derber outlines in detail *Regime Change Begins at Home* exposes the many lies the corporate regime has used to maintain itself throughout its history from the Cold War to the Iraq war with a particular emphasis on how the Bush administration has cynically sought to as Condelezza Rice once put it capitalize on the opportunities presented by 9 11 Derber reveals how the Bush administration has used the so called war on terror to frighten and distract the public But regime change is possible In Part III Derber lays out the vision of a new regime describing the social movements now fighting to achieve it and the major new political realignment one spanning the traditional conservative liberal divide that can make it happen Derber does not minimize the difficulty of the task ahead but he offers hope and specific sophisticated often surprising advice for defeating the regime and returning America to its citizens Different Visions of Love Brian Griffith, 2008 Griffiths narrative moves like a searchlight over each phase of church history illuminating the visions options and choices behind events He traces the rise of a dominator version of Christianity in which the primary concern was a chain of command to be followed with rewards or punishments according to the degree of obedience And beside this he illuminates another face of Christianity concerned with healing all divisions between loved and unloved people The story Griffith presents is often deeply disturbing as in his unstinting accounts concerning the gospel for women or the age of holy wars and witch hunts But ultimately his story offers solid grounds for optimism He shows that all contention between different religious visions can be a process of building partnership As Griffith points out Jesus himself wished to debate his opponents openly not to silence or eliminate them He

was not afraid of real encounter or the potential of creative conflict I want to congratulate Brian Griffith on this masterful controversial and highly readable account His book offers hope in a divided world where reaction against globalized godless corporate secularism meets with a war on religious fundamentalism I hope to see other writers do comparable work in highlighting the partnership and dominator visions within their religious traditions around the world Riane Eisler author of *The Chalice the Blade Sacred Pleasure Tomorrows Children The Power of Partnership The Real Wealth of Nations* I find it gives me an incredibly clarifying perspective on Christianity way beyond my previous understanding It should be read by everyone with an interest in Western Civilization It is a marvelous companion to *The Great Turning* David Korten author of *The Great Turning From Empire to Earth Community*

Chemicals, Human Health, and the Environment John F. Sieckhaus Ph.D, 2009-06-03 As we enter the new millennium chemical and energy technology practice is in the throes of a paradigm shift During the past fifty years there has been a growing awareness of the adverse effects of chemical products byproducts and wastes upon human health and the environment and the development of federal and state regulations has been an important first step in the redress of these problems This book provides a history of these early years from a scientific and sociopolitical perspective to provide the necessary background for charting a course for the new millennium The sources of pollution of the air we breathe the water we drink the land that provides our sustenance and the blood that courses through our veins are no longer regional or even national in scope and it is clear that new ways of thinking are required to insure that the ongoing evolution of chemical and energy technology is in keeping with the needs of all the people and ecosystems of planet earth The book concludes with an environmental credo to provide the technical political and ethical bases for the paradigm shift to a sustainable balance among chemicals human health and the environment

The Third Reformation Carter Lindberg, 1983 *Community of the Transfiguration* Paul R. Dekar, 2008-02-01 In the 1930s German theologian Dietrich Bonhoeffer anticipated the restoration of the church after the coming second world war through a new kind of monasticism a way of life of uncompromising adherence to the Sermon on the Mount in imitation of Christ Since then the renewal of Christian monasticism has become a great spiritual movement Imbued with a love for God and neighbor and with a healthy self love people are going to monasteries to deepen their relationship with God to pray and to find peace While some monastic institutions are suffering a decline in traditional vocations many Christians are exploring monastic lifestyles This book introduces *The Community of the Transfiguration* in Australia the story of a new monastic community and an inspiring source of hope for the world at another time of spiritual social and ecological crisis

In the Latter Days Vinson Synan, 2001 *What in the World is God Doing* asks Vinson Synan Evil has swept the earth in the twentieth century the bloodiest in human history Yet this century has also seen an astounding outpouring of the Holy Spirit Writing with both a historian's perspective and prophetic urgency Synan helps us understand our times Today God is giving great gifts in times of great trouble *In the Latter Days* describes the Pentecostal outpouring of the Holy Spirit in the twentieth century It is the

greatest revival in human history It has touched millions of lives reached across denominational barriers restored spiritual gifts to Christian life and permanently reshaped Christianity The Pentecostal movement began humbly in a Kansas farmhouse and a shabby Los Angeles meeting hall It spread rapidly throughout the U S spawning several new fast growing denominations and within a few decades had taken hold in every continent Then in the 1960s even Pentecostal Christians were amazed when a neo Pentecostal movement erupted in the mainline Protestant denominations and the charismatic renewal unexpectedly appeared in the Catholic Church In the Latter Days tells the whole dramatic story of God s Pentecostal working our day a day of great evil and a day of great blessing Publisher s information Pentecostal Formation Cheryl Bridges Johns,2010-11-01 The Pentecostal movement has been subject to some negative external assumptions In this enlightening and challenging book Cheryl Bridges Johns argues that in fact Pentecostals employ a powerful process of formation of catechesis which has enabled millions of believers to own and articulate the Christian story She engages dialectically with the work of Paulo Freire a specialist in education among the marginalized As well as looking more broadly at the nature of all catechesis there is also an attempt to move beyond the rationalism found in a praxis epistemology
