Earth-Friendly Adrian Hofstetter, 2004-10 *Earth Friendly* collects the fruits of a lifetime of study and teaching in search of a holistic organismic living science respectful of the sacredness of nature and the ubiquity of the spirit As a biology philosopher Sister Adrian's first teachers were Aquinas and Aristotle later she came to know the work of Goethe and Rudolf Steiner *Earth Friendly* traces the development of Sister Adrian's conviction that the spiritual science flowing from the thought of St Albert and St Thomas as developed seven hundred years later by Rudolf Steiner could recapture the true greatness of the West as it reaches out to the East to create an earthfriendly re visioning of science and spirituality *Hope for the Earth* Ernst M. Conradie, 2005-05-18 *Hope for the Earth* explores the viability of an eschatological approach to an ecological theology spirituality and praxis in the South African context The basic intuition of such an eschatological approach is that an environmental praxis can only be empowered on the basis of an adequate understanding of Christian hope Despair in the face of environmental destruction will inevitably lead to a spirit of resignation Where then can a vision of hope that includes hope for the earth be found The author proposes a road map for eschatology based on the observation that eschatology has traditionally responded to three aspects of the human predicament namely 1 the evil effects of sin 2 the problem of finitude and transience and 3 the limitations of human power and knowledge in space Part A This analysis is used to fathom the depths of despair as a result of environmental destruction Part B The Biblical roots and subsequent history of Christian eschatology are discussed briefly Part C Recent contributions in Christian eschatology ecological theology cosmology and South African expressions of hope are explored in depth in search of a vision of hope that includes hope for

the earth itself Part D The eschatological road map is used to develop a vision of hope for the earth on the basis of a theology of life amidst death and destruction life beyond death and eternal life in the presence of God Part E Finally the implications of this vision for an ecological ethos spirituality and praxis in the South African context are indicated Part F

The New Apologetics Ian S. Markham, 2020-03-27 Skepticism about Christianity abounds Building on the work of Charles Taylor Ian S Markham argues that contemporary skepticism is more a mood than an intellectual repudiation of Christian theology In its attempt to accommodate science the church too often opts for deistic responses that take the spiritual out of the material Against this response Markham argues for a rich imaginative account of the world that is grounded in Christian revelation and affirms spiritual causation angels and the reality of the saints It is a clarion call for the Western church to learn from the church in the Global South and create a rich theology that lives up to its professed values as a genuinely inclusive church
