A Study of Emersonian Transcendental Educational Thought Yang Jing, 2020-06-01

Waldo Ralph Emerson 1803 1882 was a famous American writer and poet in the 19th century He was also an educational thinker who advocates reform and progress As a representative of transcendentalism he advocated the doctrine of individualism emphasizing that the power of the spirit is far more than material and that the potential of individual potential is infinite Around him gathered a group of people of insight who were determined to transform the society such as Amos Bronson Alcott 1799 1888 Margaret Fuller 1810 1850 Nathaniel Hawthorne 1804 1864 Henry David Thoreau 1817 1862 etc All of the above had once been teachers and they were deeply saddened by the rigid education system and the old fashioned education methods at the time and firmly believed that the progress and improvement of society must be based on personal education and moral self improvement They actively participated in the mainstream of educational reforms that opened people's mind innovated their ways of thinking and created a new culture with reformed educational system in New England At the same time transcendentalism has become an important part of American educational thought

The Wilson Bulletin, 1929 **Slavery, Philosophy, and American Literature, 1830-1860** Maurice S. Lee, 2005-08-18 Examining the literature of slavery and race before the Civil War Maurice Lee in this 2005 book demonstrates how the slavery crisis became a crisis of philosophy that exposed the breakdown of national consensus and the limits of rational authority Poe Stowe Douglass Melville and Emerson were among the antebellum authors who tried and failed to find rational solutions to the slavery conflict Unable to mediate the slavery controversy as the nation moved toward war their writings form an uneasy transition between the confident rationalism of the American Enlightenment and the more skeptical thought of the pragmatists Lee draws on antebellum moral philosophy political theory and metaphysics bringing a different perspective to the literature of slavery one that synthesizes cultural studies and intellectual history to argue that romantic sentimental and black Atlantic writers all struggled with modernity when facing the slavery crisis

Visva-Bharati Quarterly ,1952 **Emerson's Transcendental Etudes** Stanley Cavell, David Justin Hodge, 2003 This book is Stanley Cavell s definitive expression on Emerson Over the past thirty years Cavell has demonstrated that he is the most emphatic and provocative philosophical critic of Emerson that America has yet known The sustained effort of that labor is drawn together here for the first time into a single volume which also contains two previously unpublished essays and an introduction by Cavell that reflects on this book and the history of its emergence Students and scholars working in philosophy literature American studies history film studies and political theory can now more easily access Cavell s luminous and enduring work on Emerson Such engagement should be further complemented by extensive indices and annotations If we are still in doubt whether America has expressed itself philosophically there is perhaps no better space for inquiry than reading Cavell reading Emerson **The Art of Contrary Thinking** Humphrey B. Neill, 1963 When everybody thinks alike everyone is likely to be wrong a The ten words quoted above are according to Humphrey B Neill a potent factor behind the

economic booms and busts that blight our civilization a The Mississippi Bubble Holland s incredible Tulipmania and the New York stock market crash of 1929 are historic examples of disasters magnified and hastened by the pressure of mass opinion a Neill describes these occurrences in detail and tells the reader how to avoid and recognize the dangers that following the pack can pose to the discerning investor
