**Imperialism and the Anti-Imperialist Mind** Lewis Samuel Feuer, 1989-01-01 In this major work Lewis S Feuer examines critical distinctions between progressive and regressive imperialism He explores causes of anti imperial ideologies noting that unlike the spoliation that took place under regressive tartar Spanish and Nazi colonizations civilization flourished during the progressive imperialism of Hellenic Macedonian Roman and modern British eras of empire building Feuer holds that it is erroneous to blame the relative backwardness of colonial peoples on the imperialism of Western democratic nations In case after case the character of colonial rulers determined economic development and democratic reform alike Pursuing the theme of progress versus regression Feuer compares the imperialism of the United States with that of the Soviet Union to the detriment of the latter in nearly every instance His effort constitutes nothing short of a fundamentally new perspective on the lessons of modern history and the mistakes of modern analysts of international affairs Feuer opens as well a new chapter in political psychology with his study of such anti imperialist intellectuals as Hobson Morel and Leonard Woolf his portrait of Emin Pasha the heroic Jewish governor of Equatorial Sudan suggests a living model for Conrad s Lord Jim

**The Last Expedition** Daniel Liebowitz, Charles Pearson, 2005 Henry Morton Stanley undertook the greatest African expedition of the 19th century to rescue Emin Pasha last lieutenant of the martyred General Gordon and governor of the southern Sudan Instead of ten months the trip took three years and cost the lives of thousands of people as Stanley s column hacked its way across the last great unexplored territory in Africa Stanley s secret agenda was territorial expansion on the model of Leopold s Congo or the British East India Company

Alur Society Aidan Southall, 2004 Alur Society became a classic for a number of reasons Being much more than a descriptive account of an African society it was the first intensive ethnography to adopt the ideas of Max Weber It pioneered the idea that religion and ritual could be the basis of political

action It also showed how state systems could evolve not just on the basis of conquest but as a result of societies without kings inviting those with kings to govern them Author Aidan Southall s theory of the segmentary state was adopted by political anthropologists throughout the subject and also by political scientists being applied not just to Africa but also to India and other parts of the world The book was able to arrive at such long lasting and imaginative conclusions through the use of ethnographic material of a quality rarely surpassed It is moreover arguably the best book in social anthropology of a Nilotic speaking people Southall s own command of their language and his overall scholarly knowledge of Nilotes is also unsurpassed
