## **Empire Dreams:**

Dreams, Dreamers, and Visions Ann Marie Plane, Leslie Tuttle, 2013-04-26 In this volume scholars from three continents trace the role of dreams in the cultural transitions of the early modern Atlantic world illustrating how both indigenous and European methods of understanding dream phenomena became central to contests over religious and political power

**The Empire Dreams**, 2002      **Dreams and Divination from Byzantium to Baghdad, 400-1000 CE** Bronwen Neil, 2021-01-14 Why did dreams matter to Jews Byzantine Christians and Muslims in the first millennium Dreams and Divination from Byzantium to Baghdad 400 1000 CE shows how the ability to interpret dreams universally attracted power and influence in the first millennium In a time when prophetic dreams were viewed as God's intervention in human history male and female prophets wielded was unparalleled power in imperial courts military camps and religious gatherings The three faiths drew on the ancient Near Eastern tradition of dream key manuals which offer an insight into the hopes and fears of ordinary people They melded pagan dream divination with their own scriptural traditions to produce a novel and rich culture of dream interpretation Prophetic dreams enabled communities to understand their past and present circumstances as divinely ordained and helped to bolster the spiritual authority of dreamers and those who had the gift of interpreting their dreams Bronwen Neil takes a gendered approach to the analysis of the common culture of dream interpretation across late antique Jewish Byzantine and Islamic sources to 1000 CE in order to expose the ways in which dreams offered women a unique opportunity to exercise influence The epilogue to the volume reveals why dreams still matter today to many men and women of the monotheist traditions      *Empire Dreams* Wendy Wax, 2000-01-01      **Empires** Krishan Kumar, 2020-10-22 Empires have been the commonest form of political organization for most of recorded history How should we best understand them What are their principles and how do they differ from other political forms such as the nation state What sort of relations between rulers and ruled do they express Do they as many have held follow a particular course of rise decline and fall How and why do empires end and with what consequences Is the era of empire over This book explores these questions through a fascinating analysis of the major empires of world history and the present It pays attention not just to the modern overseas empires of the Europeans but also to the ancient empires of the Middle East and Mediterranean the Islamic empires of the Arabs Mughals and Ottomans and the two thousand year Chinese Empire As Kumar shows understanding empires helps us understand better the politics of our own times      Narrated Empires Johanna Chovanec, Olof Heilo, 2021-02-05 This book examines the role of imperial narratives of multinationalism as alternative ideologies to nationalism in Central and Eastern Europe the Balkans and the Middle East from the revolutions of 1848 up to the defeat and subsequent downfall of the Habsburg and Ottoman empires in 1918 During this period both empires struggled against a rising tide of nationalism to legitimise their own diversity of ethnicities languages and religions Contributors scrutinise the various narratives of identity that they developed supported encouraged or unwittingly created and left behind for posterity as they tried to keep up with

the changing political realities of modernity Beyond simplified notions of enforced harmony or dynamic dissonance this book aims at a more polyphonic analysis of the various voices of Habsburg and Ottoman multinationalism from the imperial centres and in the closest proximity to sovereigns to provinces and minorities among intellectuals and state servants through novels and newspapers Combining insights from history literary studies and political sciences it further explores the lasting legacy of the empires in post imperial narratives of loss nostalgia hope and redemption It shows why the two dynasties keep haunting the twenty first century with fears and promises of conflict coexistence and reborn greatness **Inventing**

**Laziness** Melis Hafez,2021-12-09 A lively and original study tracing the development of laziness as a way to understanding emerging civic culture in the Ottoman Empire The Vanquished Gods Richard H. Schlagel,2011-02-02 The greatest influence on Western civilization during the past two millennia has been the Judeo Christian religious tradition Besides its influence on religious beliefs it has also shaped Western values conceptions of origins customs political systems and overall worldview But today owing to the unprecedented scientific and technological advances in the 20th century this influence has greatly diminished Developments in the natural sciences have radically altered our understanding of human existence and the universe biblical scholarship has demystified the Bible and scientific inquiry has superseded biblical and church authority Despite this dramatic shift in our frame of reference the public seems largely unaware of the radical conceptual implications of scientific discoveries and explanations The aim of this clearly written engaging work by philosopher Richard Schlagel is to provide the open minded reader with the necessary historical biblical and scientific background for understanding and evaluating this crucial development Reviewing both the history of science and the history of Judaism and Christianity as uncovered by modern scholarship Schlagel comes to the conclusion that the religious viewpoint has been rendered obsolete by the scientific method Following Socrates dictum that the unexamined life is not worth living Schlagel exhorts us all to leave outmoded tradition behind and accept the rationally compelling evidence of the scientific worldview Dragon Isle Keith Michael Mahan,2004-02 Three dark empires ally as three dark gods merge into one unholy trinity Concepts concerning life cycles evolving revolving into passing seasons yin and yang are all immersed into a ballistic journey laden with symbolism The Christian Crusades were a skirmish in comparison as some deep journeys are inevitably drenched in blood Dark dragons seize the moment to defy their god given tasks to protect the lower races from genocidal tendencies Evil dragons were to protect the darker races of ogre troll goblin and such while good dragons protect elf dwarf and human Dragons no longer wish to play their protective roles Instead evil dragons intend to captivate and cultivate elves humans and dwarves like sheep cattle or pigs An island sets in the center of the World Sea that provides the perfect rest stop for flying dragons Rampaging evil denizens dominate the isle but both an elf and a human empire have naval outposts upon the fringes of the rocky coastline Between the two military installations sets the finest trading city that elf and man has ever established together Neither of the two empires intends to let this fair city fall without a bloody rumble *Piracy in the Eastern Mediterranean*

Leonidas Mylonakis, 2021-07-29 Did British French and Russian gunboats pacify the notoriously corsair infested waters of the Eastern Mediterranean This book charts the changing rates and nature of piracy in the Eastern Mediterranean in the nineteenth century Using Ottoman Greek and other archival sources it shows that far from ending with the introduction of European powers to the region piracy continued unabated The book shows that political reforms and changes in the regional economy caused by the accelerated integration of the Mediterranean into the expanding global economy during the third quarter of the century played a large role in ongoing piracy It also considers imperial power struggles ecological phenomena shifting maritime trade routes revisions in international maritime law and changes in the regional and world economy to explain the fluctuations in violence at sea

**Forging Ties, Forging Passports** Devi Mays, 2020-08-25 Forging Ties Forging Passports is a history of migration and nation building from the vantage point of those who lived between states Devi Mays traces the histories of Ottoman Sephardi Jews who emigrated to the Americas and especially to Mexico in the late nineteenth and early twentieth centuries and the complex relationships they maintained to legal documentation as they migrated and settled into new homes Mays considers the shifting notions of belonging nationality and citizenship through the stories of individual women men and families who navigated these transitions in their

everyday lives as well as through the paperwork they carried In the aftermath of World War I and the Mexican Revolution migrants traversed new layers of bureaucracy and authority amid shifting political regimes as they crossed and were crossed by borders Ottoman Sephardi migrants in Mexico resisted unequivocal classification as either Ottoman expatriates or Mexicans through their links to the Sephardi diaspora in formerly Ottoman lands France Cuba and the United States By making use of commercial and familial networks these Sephardi migrants maintained a geographic and social mobility that challenged the physical borders of the state and the conceptual boundaries of the nation **Imperial Resilience** Hasan Kayali,2021-10-26 Imperial Resilience tells the story of the enduring Ottoman landscape of the modern Middle East s formative years from the end of the First World War in 1918 to the conclusion of the peace settlement for the empire in 1923 Hasan Kayali moves beyond both the well known role that the First World War s victors played in reshaping the region s map and institutions and the strains of ethnonationalism in the empire s Long War Instead Kayali crucially uncovers local actors searches for geopolitical solutions and concomitant collective identities based on Islamic commonality Instead of the certainties of the nation states that emerged in the wake of the belated peace treaty of 1923 we see how the Ottoman Empire remained central in the mindset of leaders and popular groups with long lasting consequences **Religious pamphlets**,1921 **Making Modernity in the Islamic Mediterranean** Margaret S. Graves,Alex Dika Seggerman,2022-04-19 The Islamic world s artistic traditions experienced profound transformation in the 19th century as rapidly developing technologies and globalizing markets ushered in drastic changes in technique style and content Despite the importance and ingenuity of these developments the 19th century remains a gap in the history of Islamic art To fill this opening in art historical scholarship Making Modernity in the Islamic Mediterranean charts transformations in image making architecture and craft production in the Islamic world from Fez to Istanbul Contributors focus on the shifting methods of production reproduction circulation and exchange artists faced as they worked in fields such as photography weaving design metalwork ceramics and even transportation Covering a range of media and a wide geographical spread Making Modernity in the Islamic Mediterranean reveals how 19th century artists in the Middle East and North Africa reckoned with new tools materials and tastes from local perspectives **Landscape and Film** Martin Lefebvre,2007-05-07 Landscape is everywhere in film but it has been largely overlooked in theory and criticism This volume of new work will address fundamental questions What kind of landscape is cinematic landscape How is cinematic landscape different from landscape painting How is landscape deployed in the work of such filmmakers as Greenaway Rossellini or Antonioni to name just three What are differences between the use of landscape in Western filmmaking and in the work of Middle Eastern and Asian filmmakers How is cinematic landscape related to the idea of a national cinema and questions of identity The first collection on the idea of landscape and film this volume will present an impressive international cast of contributors among them Jacques Aumont Tom Conley David B Clarke Marcus A Doel Peter Rist and Antonio Costa **Young Titan** Michael Shelden,2013-03-12 An
