hegemony is often missing in reality A major work of historical Marxist theory this book is essential reading for students of international political economy globalisation and the crisis of capitalism This book is also ideal for students of politics history economics and international relations **The Commonwealth of Nations** Lionel Curtis,1917 **Decolonisation and the British Empire, 1775-1997** George Boyce,1999-09-20 This book combines an analysis of the ideas and policies that governed the British experience of decolonization It shows how the British perhaps more correctly the English political tradition with its emphasis on experience over abstract theory was integral to the way in which the empire was regarded as being transformed rather than lost This was a significant aspect of the relatively painless British loss of empire It places the process of decolonization in its wider context tracing the twentieth century domestic and international conditions that hastened decolonization and through a close analysis of not only the policy choices but also the language of British imperialism it throws new light on the British way of managing both the expansion and contraction of empire **Empires Without Imperialism** Jeanne Morefield,2014 *Visions of Empire in the Nazi-Occupied Netherlands* Jennifer L. Foray,2012 *Visions of Empire in the Nazi Occupied Netherlands* is a study of empire occupation and decolonization and uncovers Nazi occupied Netherlands Empires in World History Jane Burbank,Frederick Cooper,2011-07-05 Burbank and Cooper examine Rome and China from the third century BCE empires that sustained state power for centuries From British Empire to Commonwealth of Nations ,2003 The Statecraft of British Imperialism Robert D.
