Empirical Problem Of Female Social Class:

Women's Social Standing Roy A Carr-Hill, Colin W Pritchard, 2014-01-14

Carr-Hill, Colin Pritchard, 1992-01-01 What is social class Do we all have one Such questions are usually asked about men If women are considered at all it is usually as an appendage to one of the men in their lives It would be astonishing if female social scientists did not complain They do The ensuing debates are fun but of no use to those who need to analyze data This book instead focuses on the methodological issue of the appropriate form of a social classification In Part I the authors describe the genesis of the Registrar General's occupationally based classification and in particular its application to women arguing that it is not obviously appropriate in the current context In Part II they set out the technical criteria which ought to be met by any index and further argue that a social classification should have a specific domain of reference On this basis in Part III they compare the discrimination provided by the occupationally based classifications with that provided by the women's own height with surprising results The book concludes with an examination of the implications of the argument for those concerned in collecting and analyzing empirical data and for the theoretical debate about social class

Feminist Foundations Kristen A. Myers, Cynthia D.

Anderson, Barbara J. Risman, 1998-03-10 There can be no doubt that feminism and its influence on the academy has wrought enormous changes on the social sciences in general and sociology in particular This edited volume is an outgrowth of a discussion that began on the Sociologists for Women in Society Listserv in which participants were asked to talk about key pieces in feminist scholarship that had particularly influenced their sociological thinking Editors Kristen A Myers Cynthia D Anderson and Barbara J Risman have chosen articles that fall into what they consider the intellectual genres that compose feminist sociology This collection differs from others because the editors avoid organizing material by substantive specialty areas i e family race and ethnicity criminology or methods Their vision instead sees sociology as an integrated discipline where feminist contributions have systematically influenced the shape of the whole by similarly influencing the distinct parts In addition to simply compiling a comprehensive list of important articles from the last two decades the editors have invited major feminist scholars to comment and reflect on the articles in each section of the book These reflections help provide the

historical and social context in which feminist scholarship has taken place This book will be of obvious appeal to feminist scholars and gender sociologists Yet as feminist thought rightfully takes its place away from the margins and toward the center of the discipline this book stands as a rich and useful resource for any contemporary theory course **Women of Their Time: Generation, Gender Issues and Feminism** Jane Pilcher, 2017-07-05 This book examines accounts of gender issues and feminism given by three cohorts of women and shows the primacy of age as a source of gender diversity and difference **Applied Studies Towards a Sociology of Language** Basil Bernstein, 2004-11-23 The papers in this second volume show some of the results of the empirical exploration of Bernstein's hypothesis The volume represents a significant contribution not only to the study of the sociology of language but also to education and the social sciences This collection demonstrates the magnitude of Bernstein's pioneering contribution to socio-linguistic studies S John Eggleston Times Educational Supplement *Class Formation, Social Inequality and the Nagas in North-East India* Andreas Küchle, 2019-03-15 This book examines the question of class formation and social inequality within tribal groups in North East India Focussing on the Nagas it analyses and challenges common perceptions about them as a classless society with a uniform culture It looks at the previously neglected themes of class formation and structure division of work emerging social milieus and cultural differentiation among the Naga youth and presents fresh arguments about notions of modernity Providing a theoretical understanding of inequality this volume will be useful for scholars and researchers of North East India tribal studies exclusion studies sociology social anthropology political studies development studies cultural studies and South Asian studies Class John Scott, 1996 Class and status are both foundational themes in the study of sociology John Scott brings together the central theoretical contributions to the debate on class and status as aspects of stratification Using a selection of seminal pieces and commentaries on the classics it raises central issues for example the distinction between class and status which are then examined by leading authorities The Crossroads of Class and Gender Lourdes Benería, Martha Roldán, 1987-06-15 In this innovative exploration of the interaction between economic processes and social relations Lourdes Benería and Martha Roldán examine the effect of homework on gender and family dynamics Their fieldwork in Mexico City during 1981-82 has enabled them to provide important new empirical data on industrial piecework performed by women as well as intimate glimpses of these women's lives which place that piecework in context Tracing the stages of production from home to jobber workshop and manufacturer often a multinational corporation the authors demonstrate the way in which the work and lives of these women are connected through subcontracting to the national and often international system of production Statistical Journal of the United Nations Economic Commission for Europe, 1996 *Sociological Worlds* Stephen K. Sanderson, 2013-10-31 This reissue of the now classic *Sociological Worlds* originally published in 1995 attempts to present a comprehensive picture of human social life from the perspective of the comparative historical revolution in sociology and presents some of the best theoretical and empirical work that is now being done by

comparative historical sociologists as well as work by their close cousins socio cultural anthropologists From this perspective readers gain a picture of the major ways in which human societies differ For this new library edition Professor Sanderson has provided both a new preface and three contributions that did not appear in the original edition **The Transformational**

Potential of Higher Education Inclusion Jesús Humberto Pineda Olivieri, 2017 In the field of higher education research one of the most fascinating observations is the consistent and permanent expansion of higher education systems worldwide since the end of the Second World War Undoubtedly the predominant approach to address these developments has been through quantitative analysis as well as international comparisons The following work examines the particularities of the Venezuelan context with the aim of identifying specific features of this worldwide phenomenon in this South American case Through a combination of qualitative methods the author proposes a biographical approach for the study of higher education inclusion processes which takes into account the perspectives and experiences of those who have been targeted by an ambitious higher education expansion process The most distinctive feature of this work would be its methodological contribution to the field of higher education research One could also argue that the ethnographic account of the Bolivarian Missions of education in Chavez's Venezuela is both original and unprecedented Furthermore the writing approach bridges the interests of both academics practitioners of the field and members of the general public Sporting Equality Rita J.

Simon, 2017-09-29 As part of its Education Amendments the United States Congress passed Title IX in 1972 to ensure that no person should be discriminated against in any education program or activity receiving federal financial assistance In the decades since Title IX has had among other effects a marked increase on school athletic programs for women and girls at both the high school and college level Despite this a range of questions have been raised about the effectiveness of the federal government's enforcement and also the impact on male athletics The government can enact legislation but how it works remains the domain of administrators at one end and thousands of athletes at the other Sporting Equality reviews the impact of Title IX thirty years after its passage and suggests future areas of contention This new title includes the major findings and recommendations of the Secretary of Education's Commission on Opportunities in Athletics established in 2002 as well as the commission's minority report These contributions are followed by seven chapters that analyze and assess the strength and weakness of Title IX and offer recommendations for strengthening or changing its goals and objectives These include Kimberly A Yuracko Title IX and the Problem of Gender Equality in Athletics Eric C Dudley Jr and George Rutherglen A Comment on the Report of the Commission to Review Title IX Barbara Murray How to Evaluate the Implementation of Title IX at Colleges and Universities and Attitudes and Interest of Students Regarding Athletics John J Cheslock and Deborah Anderson Lessons From Research on Title IX and Intercollegiate Athletics Valerie M Bonnette The Little Fusses Over Title IX The book concludes with two controversial chapters The first by Leo Kocher argues that Title IX has been detrimental to male athletics especially gymnastics swimming wrestling and track while the second by Ellen J Staurowsky claims that T *Social*

Stratification, Class, Race, and Gender in Sociological Perspective, Second Edition David Grusky, 2019-09-05 The volume offers essential reading for undergraduates who need an introduction to the field for graduate students who wish to broaden their understanding of stratification research and for advanced scholars who seek a basic reference guide Although most of the selections are middle range theoretical pieces suitable for introductory courses the anthology also includes advanced contributions on the cutting edge of research The editor outlines a modified study plan for undergraduate students requiring a basic introduction to the field

Class, Codes and Control: Applied studies towards a sociology of language Basil Bernstein, 2003 The papers in this second volume show some of the results of the empirical exploration of Bernstein's hypothesis The volume represents a significant contribution not only to the study of the sociology of language but also to education and the social sciences

Marita: or the Folly of Love Stephanie Newell, 2021-07-26 On 20th January 1886 the first installment of what is probably the first West African novel in English was published in a Ghanaian newspaper the *Western Echo* by a male author using the pseudonym A Native Preceded by a proud editorial which welcomed the arrival of this work of local effort by a native gentleman *Marita or the Folly of Love* was serialised in 40 episodes ending two years later in January 1888 It describes the disastrous consequences for African men of uniting according to the colonial Marriage Ordinance of 1884 this ordinance enshrined the Christian Victorian ideal of marriage as a monogamous and lifelong union and is shown in the story to transform peaceful well behaved women into shrews and termagants who are bent upon seizing domestic power from their husbands The story proved to be so popular and relevant that it survived the closure of the *Western Echo* in December 1887 and found a new host in the *Gold Coast Echo* before disappearing from the press unfinished in February 1888
