Valuation of Property, Hobart Town and Launceston Tasmania. House of Assembly,1875 **Temple Restoration in Early Achaemenid Judah** Peter Ross Bedford,2001 In the early Achaemenid Persian period the Jews returned to Jerusalem to rebuild the temple of Yahweh This volume investigates issues surrounding the rebuilding of this temple focusing on the timing and purpose of the project and the social and political circumstances in which it was undertaken The study reflects on certain passages from the Old Testament such as Ezra 1 6 Haggai and Zechariah 1 8 early Achaemenid Persian administrative practices and Judean hopes for restoration in order to question the contention that the Jerusalem temple was established as an economic and administrative centre around which competing groups struggled for socio economic and political power **The Concept of Exile in Ancient Israel and its Historical Contexts** Ehud Ben Zvi,Christoph Levin,2010-10-19 In ancient Israelite literature Exile is seen as a central turning point within the course of the history of Israel In these texts the Exile is a central ideological concept It serves to explain the destruction of the monarchic polities and the social and economic disasters associated with them in terms that YHWH punished Israel Judah for having abandoned his ways As it develops an image of an unjust Israel it creates one of a just deity But YHWH is not only imagined as just but also as loving and forgiving for the exile is presented as a transitory state Exile is deeply intertwined with its discursive counterpart the certain Return As the Exile comes to be understood as a necessary purification or preparation for a renewal of YHWH s proper relationship with Israel the seemingly unpleasant Exilic conditions begin discursively to shape an image of YHWH as loving Israel and teaching it Exile is dystopia but one that carries in itself all the seeds of utopia The concept of Exile continued to exercise an important influence in the discourses of Israel in the Second Temple period and was eventually influential in the production of eschatological visions **Consider Leviathan** Brian R. Doak,2014 Brian R Doak observes that the book of Job uses metaphors drawn from the natural world especially of plants and animals as raw material for thinking about human suffering Doak argues that Job should be viewed as an anthropological ground zero for the traumatic definition of the post exilic human self in ancient Israel Consider Leviathan explores the test at the intersection of

anthropology theology and ecology opening up new possibilities for charting the view of nature in the Hebrew Bible From Publisher **Land Rights, Ethno-nationality and Sovereignty in History** Stanley Engerman, Jacob Metzger, 2004-08-02 The complex relationships between ethno nationality rights to land and territorial sovereignty have long fed disputes over territorial control and landed rights between different nations ethnicities and religions These disputes raise a number of interesting issues related to the nature of land regimes and to their economic and political implications The studies drawn together in this key volume explore these and related issues for a broad variety of countries and times They illuminate the diverse causes of ethno national land disputes and the different forms of adjustment and accommodation to the power differences between the contesting groups This is done within a framework outlined by the editors in their analytical overview which offers contours for comparative examinations of such disputes past and present Providing conceptual and factual analyses of comparative nature and wealth of empirical material both historical and contemporary this book will appeal to economic historians economists political scientists sociologists anthropologists and all scholars interested in issues concerning ethno nationality and land rights in historical perspective First Peoples In Canada Alan D.
