McGarr, 2013-08-01 The Cold War in South Asia provides the first comprehensive and transnational history of Anglo American relations with South Asia during a seminal period in the history of the Indian Subcontinent between independence in the late 1940s and the height of the Cold War in the late 1960s Drawing upon significant new evidence from British American Indian and Eastern bloc archives the book re examines how and why the Cold War in South Asia evolved in the way that it did at a time when the national leaderships geopolitical outlooks and

regional aspirations of India Pakistan and their superpower suitors were in a state of considerable flux The book probes the factors which encouraged the governments of Britain and the United States to work so closely together in South Asia during the two decades after independence and suggests what benefits if any Anglo American intervention in South Asia s affairs delivered and to whom **The Myth of Decolonization and the Global South** Ahmed W. Waheed,2025-09-26 In recent years scholars of International Relations have increasingly turned their attention to the question of how to decolonize knowledge While emerging debates and initiatives mark a critical step toward exposing the discipline s embedded power structures there remains a striking lack of systematic empirical research into how these asymmetries are reproduced and experienced within the Global South itself This book explores the coloniality of power and knowledge in Pakistan through an examination of Pakistani International Relations It not only unveils the hegemonic processes embedded within the western capitalist structures of knowledge production but also explores how the eurocentrism of International Relations in Pakistan is sustained and maintained through a coloniality of knowledge and power which is designed to promote western epistemologies and emulate western standards This book consequently provides a view of epistemic oppression from below In doing so it is an initial attempt to explore how the process of decolonization can begin to address the issues embedded in the coloniality of knowledge demonstrated through an exploration of the International Relations discipline in Pakistan
