How can they transfer fictional experience into real life? Why do they care about fictional characters? How does fiction enhance young people's sense of selfhood? Supported by cognitive psychology and brain research, this ground-breaking book is the first study of young readers' cognitive and emotional engagement with fiction. It explores how fiction stimulates perception, attention, imagination, and other cognitive activity, and opens radically new ways of thinking about literature for young readers. Examining a wide range of texts for a young audience, from picturebooks to young adult novels, the combination of cognitive criticism and children's literature theory also offers significant insights for literary studies beyond the scope of children's fiction. An important milestone in cognitive criticism, the book provides convincing evidence that reading fiction is indispensable for young people's intellectual, emotional, and social maturation. **Talkabout for Children 2** Alex Kelly, 2024-04-30 *Talkabout for Children: Developing Social Communication* 3rd edition is a bestselling professional workbook designed to support educators and therapists who deliver social and relationship skills groups for children. MOTHER WEST WIND WHY STORIES - 16 Why Stories from Mother West Wind Thornton W. (Waldo) Burgess, 2020-12-21 Thornton W. Burgess was a bird watching, berry picking student of nature who took up writing children's stories, including those collected in *Old Mother West Wind* and *Why Stories*, which were published in 1920. Grandfather Frog is very old and very wise, and he knows all about the days when the world was young. When he is feeling just right, he dearly loves to tell about those long ago days. Chug-a-rum says Grandfather Frog. And then he told why Peter Rabbit and all rabbits cannot bend their wrists. In fact, he told a thousand stories because that's what Grandfather Frog was meant to do. Stories of Rabbits, Chipmunks, Possums, Foxes, and more forest animals. Grandfather Frog knows the important stuff about everybody who lives around the meadow. Burgess sets his tales at a time when the world was young, back when Peter Rabbit's great-great-ever-so-great grandfather was a young hopper and Old Mother Nature still had some work to do on basic designs. She sees that a duck needs webbed feet to swim and a prairie dog needs a burrow designed to keep dry. Burgess's animals are proud of their unique features and abilities, but the real voice of enthusiasm is the author's own, sharing the delights he found in the woods of New England.

Typical of the book's charm is the story of where Dippy the loon got the name of being crazy. The bird is smarter than he looks and that's how Dippy always gets the last laugh. 10% of the profit from the sale of the book will be donated to charities.
