Internal Revenue Service,1994 A Dictionary of the Spanish Language in Two Parts: I. Spanish-English; 2. English-Spanish Alfred Elwes,1888 **Historical Dictionary of the Friends (Quakers)** Margery Post Abbott,2011-12 The modern reputation of Friends in the United States and Europe is grounded in the relief work they have conducted in the presence and aftermath of war Friends also known as Quakers have coordinated the feeding and evacuation of children from war zones around the world They have helped displaced persons without regard to politics They have engaged in the relief of suffering in places as far flung as Ireland France Germany Ethiopia Egypt China and India Their work was acknowledged with the award of the Nobel Peace Prize in 1947 to the American Friends Service Committee AFSC and the Friends Service Council of Great Britain More often however Quakers live worship and work quietly without seeking public attention for themselves Now the Friends are a truly worldwide body and are recognized by their Christ centered message of integrity and simplicity as well as their nonviolent stance and affirmation of the belief that all people women as well as men may be called to the ministry The expanded second edition of the Historical Dictionary of the Friends Quakers relates the history of the Friends through a chronology an introductory essay an extensive bibliography and over 700 cross referenced dictionary entries on concepts significant figures places activities and periods This book is an excellent access point for scholars and students who will find the overviews and sources for further research provided by this book to be enormously helpful **The to Z of the Friends (Quakers)** Margery Post Abbott,Mary Ellen Chijioke,Pink Dandelion,John W. and admired they are too often known only superficially The A to Z Guide of the Friends Quakers clears up these superficialities by digging much deeper into the Society's past as well as present In the guide's dictionary section numerous cross referenced entries describe the origins and history the situation in many different countries the basic concepts and practices and the views on important contemporary issues Others present the leading figures from the founders such as George Fox and Francis Howgill on The chronology shows the progression over time while the bibliography points the way to further reading The book's four editors were aided by an Advisory Committee while the contributions stem from over a hundred authors **Publications of the Historical Society of Southern California** ,1893 **The Cambridge**
