From Biplane To Spitfire The Life Of Air Chief Marshal Sir Geoffrey Salmond:

From Biplane to Spitfire Anne Baker, 2004-02-19 Air Marshal Sir Geoffrey Salmond and his brother Jack joined the Royal Flying Corps during the Great War and both were to have a major influence on the development of the Royal Air Force in the 1920s and 1930s After a most distinguished war service Geoffrey the older of the two became one of the original pioneers of long range flight and rose steadily through the ranks He was one of the first to recognize the importance of high speed flight and the development of the Supermarine S6 the forerunner of the Spitfire As such he was closely involved with the Schneider Trophy races of the early 1930s His successful career also encompassed flights of long range endurance Extraordinarily both Jack and Geoffrey rose to become Chiefs of the Air Staff in the mid 1930s Geoffrey succeeded his brother at the top of his profession only to die in post before he could see the fruits of his labors come to fruition in the Battle of Britain without his vision the RAF might very well not have had the Spitfire and the result would surely have been very different **From**

Fleet and the Indian Ocean, 1942-1944 Charles Stephenson, 2022-04-06 A study of the British Royal Navy s activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson s deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson s authoritative study should appeal to readers who have a special interest in the war with Japan in naval history

more generally and Royal Navy in particular Praise for The Eastern Fleet and the Indian Ocean 1942-1944 This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web *Spitfire* Leo McKinstry, 2010-10-14

In June 1940 the German Army had brought the rest of Europe to its knees Hitler knows that he will have to break us in this island or lose the war If we can stand up to him all Europe may be free and the life of the world will move forward into broad sunlit uplands said Churchill The future of Europe depended on Britain A self confident Herman Goring thought that it would be only a matter of weeks before his planes had forced Britain to surrender The courage resourcefulness and brilliant organisation of the RAF were to prove him wrong By late September 1940 the RAF had proved invincible thanks to the Vickers Supermarine Spitfire It exceeded anything that any other air force possessed RJ Mitchell a shy and almost painfully modest engineer was the genius behind the Spitfire On the 5th March 1936 following its successful maiden flight a legend was born Prize winning historian Leo McKinstry's vivid history of the Spitfire brings together a rich cast of characters and first hand testimonies It is a tale full of drama and heroism of glory and tragedy with the main protagonist the remarkable plane that played a crucial role in saving Britain *R. J. Mitchell: To the Spitfire* John Shelton, 2023-04-16 R J Mitchell at Supermarine is the definitive account of the life of Britain's best known aeronautical engineer Shelton calls upon unpublished letters extensive press accounts and updated material from his previous publications concentrating particularly on the harsh conditions of Mitchell's apprentice years the precarious state of the aircraft firm he joined and moments of good fortune of which he took advantage He was a chancer as well as a methodical developer of mainly slow flying seaplanes Mitchell's progress from draughtsman with no formal training in aeronautical design to internationally known chief designer is charted through a chronological study of his designs revealing a formidable work ethic with a complex personality that combined dreams and common sense It will also be shown how the success of his high speed Schneider Trophy designs propelled him reluctantly into public attention and how his anxiety for his pilots safety matched an equal concern that his designs should not let down an expectant nation Later expectations on him to produce a killer fighter were equally daunting and the outcome was often uncertain but details of colleagues accounts highlight the essential and unique contribution of R J's experience and drive to the eventual appearance of the iconic Spitfire [Eavesdropping on the Emperor](#) Peter Kornicki, 2021-12-01 The forgotten history of Britain's least likely war heroes men and women with a talent for languages

Airway to the East, 1918-1920 Clive Semple, 2012-03-19 The origins of what became officially known as No 1 Aerial Route lay in the newly formed Royal Air Forces desire to move several squadrons of the then recently designed first heavy bomber to enter service the Handley Page O 400 to the war in the Middle East The aircraft had served on the Western Front with some success although not in the long range capacity During the spring of 1918 the Wing Commander of No 5 Wing Billy Borton requested that one of the HP O 400 aircraft be flown to Egypt This was approved by Major General Sir Frederick Sykes Before the flight could proceed a great deal of planning was required since the aircrafts maximum range was only 600 miles Several refueling and maintenance bases along the route were required When planned in 1918 the route was from Paris Lyons Istres Pisa Rome Barletta Taranto Athens Crete Mersa Matruh and finally Cairo Each landing station would require fuel spares and communications and back up personnel On July 50 00 1918 a new HPO 400 set off from Manston in Kent with Borton and his pilot Major McLaren plus two crew After a comparatively trouble free flight the bomber arrived in Aboukir Alexandria on the evening of 7 August As a result the RAF decided to use this route to fly several squadrons of the Handley Page bombers

shortly after the war had ended The Arab leaders had found out that the Allies promise that the captured Turkish lands would be returned to them was a duplicitous lie and that France and Great Britain would take control of the area This quite naturally lead to massive unrest and rioting throughout the middle eastern lands The bombers were needed to quell the rioting and sabotage that had broken out Thus on 3 May 1919 58 Squadron set off from France on No 1 Aerial Route It was a premature departure since many of the refueling airfields along the route were not prepared for there incoming customers Chaos ensued by 1 November Three Squadrons had been dispatched Of the 51 bombers sent only 26 had arrived ten were stuck en route and 15 had been written off as broken or lost at sea and 11 aircrew had perished This is the story of the development of the route It would eventually form the first stage of the Imperial Air Route to Australia [Aviation News](#),2004 [The RAF and Tribal Control](#) Richard D. Newton,2019-11-01 In light of technological advances and multiplying irregular conflicts conventional wisdom suggests airpower as the ideal low cost means of conducting modern warfare and the air control method adopted by the British between the two world wars seems to back this up Swift and precise targeting from above was considered more humane after all sparing civilians as well as British soldiers during punitive expeditions in unruly colonial regions But what conventional wisdom misses and this book makes clear is how the Royal Air Force s RAF innovative approach actually worked relying on British airmen on the ground at least as much as on airborne technology to control restive tribes and villages The RAF and Tribal Control tells the story of these forgotten airmen the RAF special service officers who embedded among local populations and indigenous tribes collected vital intelligence developed targets directed air strikes when necessary and perhaps most important provided personal assessments of airpower s qualitative effects against primarily guerrilla forces Airpower is a highly technological endeavor But in wars where the human dimension takes primacy Richard Newton reminds us that measuring the effectiveness of air actions requires a qualitative approach that is nearly impossible via overhead sensors And this is where the RAF special service officers came in airmen who understood the local cultures and peoples they served as conduits for information and communication between the colonial administration and the tribes and villages It was their ground level contributions that made the integration of airpower into the civilian administration of colonies and mandates possible This first in depth account of the RAF special service officers role brings to light previously unpublished insights The RAF and Tribal Control fills a significant gap in the history of air warfare In doing so the book dispels the notion that airpower alone is effective in small wars and irregular conflicts and reveals the importance of the boots on the ground human component in waging unconventional air warfare both in the days of the RAF s vaunted air control and in our own time **The British National Bibliography** Arthur James Wells,2004 [Da Suez ad Aleppo](#) Antonello Battaglia,2015-10-01 Il 26 gennaio 1915 alcuni reparti della quarta armata ottomana comandati dal generale tedesco Kress von Kressenstein attaccarono il canale di Suez Iniziava la Grande Guerra anche in quello strategico scacchiere In un primo momento gli Alleati organizzarono una difesa passiva del canale limitata al respingimento degli

attacchi nemici ma dopo la fine della fallimentare campagna di Gallipoli per la quale l'Egitto era stato una base di fondamentale importanza la difesa di quel settore divenne attiva. Nell'agosto del 1916 infatti le forze Alleate si lanciarono al contrattacco sbaragliarono le forze turco tedesche in Sinai e giunsero alle porte della Palestina. Nella tarda primavera del 1917 arrivò a Rafah il Distaccamento Italiano composto di trecento bersaglieri e un centinaio di carabinieri reali. Gli uomini guidati dal maggiore D'Agostino presero parte alla terza battaglia di Gaza, difesero valorosamente il settore di Khan Yunis ed entrarono a seguito del generale britannico Allenby trionfalmente a Gerusalemme. Dal 1918 furono impiegati nelle retrovie in servizi di polizia, vigilanza dei depositi, presidio degli snodi ferroviari, smistamento e sorveglianza dei prigionieri. Contestualmente agli eventi bellici un'intensa attività diplomatica fece da sfondo all'azione del distaccamento. La vexata quaestio alimentata dall'acceso spirito di competizione italiano nei confronti della Francia riguardava l'ostinata volontà di Roma di tutelare i propri interessi in Palestina sostenendo la fine del protettorato transalpino in Terra Santa. Di contro l'evidente ostracismo anglo-francese dovuto all'accordo segreto Sykes-Picot che già nel maggio 1916 aveva decretato la spartizione di quella regione.
