From Cottage To Bungalow:

From Cottage to Bungalow Joseph C. Bigott, 2001-08-15 In this book Joseph C Bigott challenges many common assumptions about the origins of modern housing For example most studies of this period maintain that the prosperous middle class housing market produced innovations in housing and community design that filtered down to the lower ranks much later *A Cottage Bungalow* Sherwin-Williams Company, 1910 **Craftsman Bungalows** Gustav Stickley, 2012-10-30 Best and most attractive designs from Arts and Crafts Movement publication 1903 1916 includes sketches photographs of homes floor plans descriptive text **How the Working-Class Home Became Modern, 1900-1940** Thomas C. Hubka, 2020-12-08 The transformation of average Americans domestic lives revealed through the mechanical innovations and physical improvements of their homes At the turn of the nineteenth century the average American family still lived by kerosene light ate in the kitchen and used an outhouse By 1940 electric lights dining rooms and bathrooms were the norm as the traditional working class home was fast becoming modern a fact largely missing from the story of domestic innovation and improvement in twentieth century America where such benefits seem to count primarily among the upper classes and the post World War II denizens of suburbia Examining the physical evidence of America s working class houses Thomas C Hubka revises our understanding of how widespread domestic improvement transformed the lives of Americans in the modern era His work focused on the broad central portion of the housing population recalibrates longstanding ideas about the nature and development of the middle class and its new measure of improvement standards of living In *How the Working Class Home Became Modern 1900 1940* Hubka analyzes a period when millions of average Americans saw accelerated improvement in their housing and domestic conditions These improvements were intertwined with the acquisition of entirely new mechanical conveniences new types of rooms and patterns of domestic life and such innovations from public utilities and kitchen appliances to remodeled and multi unit housing are at the center of the story Hubka tells It is a narrative amply illustrated and finely detailed that traces changes in household hygiene sociability and privacy practices that launched large portions of the working classes into the middle class and that in Hubka s telling reconfigures and enriches the standard account of the domestic transformation of the American home American Builder, 1927 The Outlook, 1917 **The Chicago Bungalow** Dominic A. Pacyga, 2003 Provides an interpretation of both the design and the meaning of the Chicago bungalow a one and one half story single family freestanding house that successive waves of ethnic newcomers to the city have called home **Architect and Engineer**, 1912 *Bungalow Modernity* Mary Lou Emery, 2020-07-15 Despite its cozy image the bungalow in literature and film is haunted by violence even while fostering possibilities for personal transformation utopian social vision and even comedy Originating in Bengal and adapted as housing for colonialist ventures worldwide the homes were sold in mail order kits during the bungalow mania of the early 20th century and enjoyed a revival at century s end The bungalow as fictional setting stages ongoing contradictions of modernity
