Jerome, 2010-01-07 Sometimes I have a difficult time accepting my good fortune to be living at this particular time nothing has made me feel more that way than reading Dr Jerome's fascinating realistic and informative book It is a treasure house of wonderful information useful knowledge and excellent writing This book essentially takes the basic religious truths that have been handed down to us over hundreds of years from our major world religions and shows how current findings in subatomic particle physics quantum theory and laser technology gives us a way of seeing how they may well be agreeing on the same basic truths that construct and maintain our matter and spiritual existence Larry Dossey M D President of Isthmus Institute and author of Space Time and Medicine and Beyond Illness has written an excellent introduction and endorses Dr Jerome's work I believe that any creditable scientist would do the same and certainly every New Thought student should be enthusiastic about the work This book is not another scientific text It is that of course but is so much more and such fun reading Take a look at this book which is entertaining informative and above all else a book which has great application to daily living Jack H Holland PhD D D Theologian Reviewer of scientific and theological literature for The New Thought Quarterly and Director of The Institute for Human Growth and Awareness Dr Jerome's book just might be one of the most important books of this era It explains the holographic nature of God's consciousness in terms that are understandable Tommy Sellers communications expert in computer science and laser research Dr Jerome personifies a new breed of human now emerging He is a scientist who realizes that his science represents only part of the path to understand his existence and his reality It is an essential part but incomplete in itself To be whole to be balanced in life he knows it is necessary to discover the path's other essential part As the parts of the path become visible before him Dr Jerome integrates them for us As he says in his preface If science is right and if religion is also right then they must allude to the same basic truths The quest to uncover this sameness is the goal of this book This is a sensitive and beautiful book written by an admirable man It deserves to be read then pondered then reread and finally referred to often John C Carls PhD in particle physics and author of What It Means To Be Human      The doctrine of man Augustus Hopkins Strong, 1907      **Systematic Theology: Volume II - The Doctrine of Man** Augustus Hopkins Strong, 2017-04-09 This volume starts off by ending the last part of the first volume and then going into the human doctrine that is taught in the Bible Such topics such as the nature of humanity the nature of sin and what makes up the image of God within us is the bulk of the topics that are covered within this work Finishing off is some talk on the doctrine of the work and office of Christ and the topic of salvation and how that works out theologically      *The Influence of Abraham Cohen*

*de Herrera's Kabbalah on Spinoza's Metaphysics* Miquel Beltran, 2016-06-21 In this book the author seeks to find historiographical and textual evidence that Abraham Cohen de Herrera's main kabbalistic work *Puerta del Cielo* influenced Spinoza's metaphysics as it is expounded in his later work the *Ethica*. Many of the most important ontological topics maintained by the philosopher like the concept of the first cause as substance the procession of the infinite modes the subjective or metaphorical reality of the attributes and the two different understandings of God were anticipated in Herrera's mystical treatise. Both shared a particular consideration of panentheism that entails acosmism. This influence is proven through a comparative examination of the writings of both authors as well as a detailed research on previous Jewish philosophical thought.

Excerpt

Under the influence of Ritschl and his Kantian relativism many of our teachers and preachers have swung off into a practical denial of Christ's deity and of his atonement. We seem upon the verge of a second Unitarian defection that will break up churches and compel secessions in a worse manner than did that of Channing and Ware a century ago. American Christianity recovered from that disaster only by vigorously asserting the authority of Christ and the inspiration of the Scriptures. We need a new vision of the Savior like that which Paul saw on the way to Damascus and John saw on the isle of Patmos to convince us that Jesus is lifted above space and time that his existence antedated creation that he conducted the march of Hebrew history that he was born of a virgin suffered on the cross rose from the dead and now lives forevermore the Lord of the universe the only God with whom we have to do our Savior here and our Judge hereafter. Without a revival of this faith our churches will become secularized mission enterprise will die out and the candlestick will be removed out of its place as it was with the seven churches of Asia and as it has been with the apostate churches of New England.

Rabindranath Mohanty,2023-02-04 What ails us Why are we unhappy Why do we suffer The Upanishads call us Amritasya Putrah scions of immortality But we struggle to be happy Why is it so Where are we going wrong This is because we do not know how to conduct ourselves in this world Though we are endowed with divine virtues we do not practise it Ignorance about Self has enveloped our intellect Though we are born to be blissful we lead a life of misery Our thought process is very important in this regard When we think of something we become the object of thought Sadguru Sri Sri Arjn says Ignorance is the cause of sufferings Ignorance leads to desire desire leads to wrongdoings which leads to suffering This book is a compilation of some of the spiritual discourses of Sadguru Sri Sri Arjun He is the founder of Divya Darshan The Philosophy Divine Divya Darshan lays stress on living harmoniously in society by practising divine virtues and learning about Self to know one s true nature Sadguru Sri Sri Arjun says You never welcome woes but your ignorance brings them to you You are absolutely divine Therefore pursue divine knowledge desire only divinity contemplate on divinity and then only divine bliss will be bestowed upon you He further says Knowledge paves the way to Dharma and Dharma to freedom moksha Elucidating further he explains Knowing the Law of Eternity is knowledge and observance of the same is Dharma Without self knowledge it is impossible to attain bliss and freedom the ultimate goal of everyone      **Worship and Eucharist** Douglas H.

Knight,2024-03-11 Worship is the fundamental form of Christian witness It turns us away from the ideologies cults and gods of power that otherwise dominate our society and destroy lives Since the church is the witness of God to the society to which it is sent it worships out in the public square where the world can watch and hear In six themes of Gathering Hearing Singing Praying Eucharist and Whole People of God Worship and Eucharist tells how the Holy Spirit makes a rational and articulate people We travel together as the body of Christ on a way of the cross through the world and often against its resistance The Eucharist is presented here in its true context of the ongoing priesthood of Christ with a dynamic understanding of our transformation and sanctification What we say about our identity and our own bodies depends on our future redemption in the eternal life God intends for us Worship and Eucharist makes connections across the whole Christian faith with the breadth of a catechism but the familiarity of a friend Densely packed with biblical insight this book will inspire Christian leaders and others interested in worship with a theology of Christian communal life and mission that is accessible yet challenging      **A Select Library of Nicene and Post-Nicene Fathers of the Christian Church: Gregory of Nyssa: Dogmatic treatises, etc. 1893** Philip Schaff, Henry Wace, 1893      **The Far-future Universe** George Francis Rayner

Ellis,2002 Will our universe continue to expand 100 billion years from now Does human life and all intelligence inevitably come to an end as the universe evolves Could our present space be converted catastrophically in to a new kind of space governed by different physical laws Can we construct a theology of the future universe Would the continuation of the universe for eternity be a good thing The Far Future Universe presents eighteen provocative essays offering speculations on various scenarios for the future from the perspectives of cosmology physics biology humanity and theology Other
