Administration, 1976 Weekly Record, 1975 **African Modernity and the Philosophy of Culture in the Works of**
Femi Euba Iyunolu Osagie, 2017-06-05 This book is a significant and original contribution to the ongoing conversation on
modernity It uses the creative and critical works of Nigerian playwright and novelist Femi Euba to demonstrate the place and
function of African cultures in modernity and makes the case for the vibrancy of such cultures in the shaping and constitution
of the modern world In addition to a critique of Euba's fifty year artistic career this book offers an account of Euba's
formative relationship with the 1986 Nobel Prize for Literature winner Wole Soyinka during the promising days of the
Nigerian theatre in the immediate post independence period and the effect of this relationship on Euba's artistic choices and
reflections Euba contributes to our understanding of Africa's negotiation of modernity in significant ways especially in his
sensitive reading of Esu the Yoruba god of fate and chance as an artistic consciousness whose historical and ideological
mobility during New World slavery during Africa's colonial period and in the manifestations in the black diaspora today
emblemizes the process we call modernity By using ritual myth and satire as avenues to the debate on modernity Euba lays
emphasis on the transformative possibilities at the crossroads of history His works engage the psychological interconnections
between old gods and new worlds and the dialogic relationship between tradition and modernity Delineating the
philosophical and literary debates that reject an easy division between a stereotypically traditional Africa and a modern West
the author shows how Euba's plays and novel engage the entwined and intimate relationships between the modern and the
traditional in contemporary Africa and thereby she asserts the global resonance of Euba's African and specifically Yoruba
conception of the world By meticulously collecting cataloguing and critiquing Euba's works Osagie models a new way of
practicing African literary studies and invites us to glimpse narrative genius on the continent that she firmly believes African
scholars should both promote and celebrate **Journals of the Continental Congress, 1774-1789** United States.

Medicine and Modern Warfare ,2016-08-29 After years at the margins of medical history the relationship between war and medicine is at last beginning to move centre stage The essays in this volume focus on one important aspect of that relationship the practice and development of medicine within the armed forces from the late nineteenth century through to the end of the Second World War During this crucial period medicine came to occupy an important position in military life especially during the two world wars when manpower was at a premium Good medical provisions were vital to the conservation of manpower protecting servicemen from disease and returning the sick and wounded to duty in the shortest possible time A detailed knowledge of the serviceman s mind and body enabled the authorities to calculate and standardise rations training and disciplinary procedures Spanning the laboratory and the battlefield and covering a range of national contexts the essays in this volume provide valuable insights into different national styles and priorities They also examine the relationship between medical personnel and the armed forces as a whole by looking at such matters as the prevention of disease the treatment of psychiatric casualties and the development of medical science The volume as a whole demonstrates that medicine became an increasingly important part of military life in the era of modern warfare and suggests new avenues and approaches for future study *Comprehensive Calendar of Bicentennial Events* ,1976-06 *How Local Politics Shape Federal Policy* Sarah S. Elkind,2011-08-15 Focusing on five Los Angeles environmental policy debates between 1920 and 1950 Sarah Elkind investigates how practices in American municipal government gave business groups political legitimacy at the local level as well as unanticipated influence over federal politics Los Angeles s struggles with oil drilling air pollution flooding and water and power supplies expose the clout business has had over government Revealing the huge disparities between big business groups and individual community members in power influence and the ability to participate in policy debates Elkind shows that business groups secured their political power by providing Los Angeles authorities with much needed services including studying emerging problems and framing public debates As a result government officials came to view business interests as the public interest When federal agencies looked to local powerbrokers for project ideas and political support local business interests influenced federal policy too Los Angeles with its many environmental problems and its dependence upon the federal government provides a distillation of national urban trends Elkind argues and is thus an ideal jumping off point for understanding environmental politics and the power of business in the middle of the twentieth century **Natural Resources and Sustainability** Daniel E. Vasey,Sarah E. Fredericks,Lei Shen,Shirley

Thompson, 2011-12-08 Natural Resources and Sustainability explores how human needs and desires from sustenance and shelter to recreation and travel have spurred the consumption of Earth's material resources. Scientists, ecologists, and other expert authors present the historical impact of commercial activities in industries as varied as fisheries, agriculture, energy, and mineral extraction; discuss the global distribution and use of renewable and nonrenewable resources; and focus on innovative approaches for the future. Readers will learn why renewal doesn't necessarily put a resource beyond harm and why the no free lunch adage applies to all natural resources.
