Andrew Kirk,2016-12-05 Focusing on the history of ideas this book explores important questions concerning knowledge in relation to philosophy science ethics and Christian

faith Kirk contributes to the current debate about the intellectual basis and integrity of Western culture exploring controversial issues concerning the notions of modernity and post modernity Repositioning the Christian faith as a valid dialogue partner with contemporary secular movements in philosophy and ethics Kirk seeks to show that in post Christian Europe the Christian faith still possesses intellectual resources worthy to be reckoned with This book s principal argument is that contemporary Western society faces a cultural crisis It explores what appears to be an historical enigma namely the question of why Western intellectual endeavours in philosophy and science seem to have abandoned the search for a source of knowledge able to draw together disparate pieces of information provided by different disciplines Kirk draws conclusions particularly in the area of ethical decision making from this apparent failure and invites readers to consider Christian theism afresh as a means for the renewal of culture and society Archives and Recordkeeping Caroline Brown,2013-11-23 This groundbreaking text demystifies archival and recordkeeping theory and its role in modern day practice The book s great strength is in articulating some of the core principles and issues that shape the discipline and the impact and relevance they have for the 21st century professional Using an accessible approach it outlines and explores key literature and concepts and the role they can play in practice Leading international thinkers and practitioners from the archives and records management world Jeannette Bastian Alan Bell Anne Gilliland Rachel Hardiman Eric Ketelaar Jennifer Meehan and Caroline Williams consider the concepts and ideas behind the practicalities of archives and records management to draw out their importance and relevance Key topics covered include Concepts roles and definitions of records and archives Archival appraisal Arrangement and description Ethics for archivists and records managers Archives memories and identities The impact of philosophy on archives and records management Does technological change marginalize recordkeeping theory Readership This is essential reading for students and educators in archives and recordkeeping and invaluable as a guide for practitioners who want to better understand and inform their day to day work It is also a useful guide across related disciplines in the information sciences and humanities *AN IMAGE OF SAINTS IN INDIAN ENGLISH NOVELS* Dr. Prerana Shende,2024-12-16 Literature society and culture are closely related It is in the society and culture that literature is produced in the language which is spoken in that society to reflect it Literature is a vague term which denotes poetry drama and epic lyric short story essay prose etc It is the term carrying with it qualitative connotations which imply that the work in question has superior qualities that it is well above the ordinary run of written work Cuddon 492 It denotes primarily fictional and imaginative writing In an expanded use it designates also any other writings that are especially distinguished in form expression and emotional power Abram and Harpham 156 Literature signifies the concept of global body of literary writing which has been accredited with being pointedly to borrow Matthew Arnold famous utterance the best that has been known and said in the world Arnold 6 in Widdowson 4 It is defined in Oxford Companion to the English Language *Chinese Law* Deborah Cao,2017-03-02 Studying Chinese law from a linguistic and communicative perspective this book examines meaning
