Peters, 2018-01-09 Large mature companies often struggle when it comes to the uncertain process of breakthrough innovation But innovation is an imperative in today s cutthroat business environment To fulfill its potential there has to be a better way and there is

Beyond the Champion argues that innovation is a talent all its own that requires distinct skills and expertise just like finance or marketing Viewing innovation as a discipline in its own right it is easy to see that breakthrough wins require an organizational design with clearly delineated roles responsibilities and career tracks for those who shoulder the responsibility for new products Drawing on the results of a four year study and two decades of related research this book outlines three fundamental competencies necessary for innovation discovery incubation and acceleration Mapping these skills onto roles and opportunities for advancement the authors deliver a pioneering blueprint for sustainable innovation
