negotiation and in each case vulnerable workers were the bargaining chip that was sacrificed to guarantee the policy's enactment. For these workers the system that was supposed to act as a safety net has become a sieve and they are still falling through. Caroline Fredrickson is a powerful advocate and DC insider who has witnessed the legislative compromises that leave out temps, farmworkers, staff at small businesses, immigrants and others who fall outside an intentionally narrow definition of employees. The women in this fast-growing part of the workforce are denied minimum wage, maternity leave, health care, the right to unionize and protection from harassment and discrimination, all within the bounds of the law. If current trends continue, their fate will be the future of all American workers. An informative, occasionally shocking exploration of the state of women's rights in the workplace.
