From Feminism To Clab Politics:

Community Activism and Feminist Politics Nancy Naples, 2012-11-12 This collection demonstrates the diversity of women's struggles against problems such as racism violence homophobia focusing on the complex ways that gender culture race ethnicity and class shape women's political consciousness in the US **The First Political Order** Valerie M.

Hudson, Donna Lee Bowen, Perpetua Lynne Nielsen, 2020-03-17 Global history records an astonishing variety of forms of social organization Yet almost universally males subordinate females How does the relationship between men and women shape the wider political order The First Political Order is a groundbreaking demonstration that the persistent and systematic subordination of women underlies all other institutions with wide ranging implications for global security and development Incorporating research findings spanning a variety of social science disciplines and comprehensive empirical data detailing the status of women around the globe the book shows that female subordination functions almost as a curse upon nations A society's choice to subjugate women has significant negative consequences worse governance worse conflict worse stability worse economic performance worse food security worse health worse demographic problems worse environmental protection and worse social progress Yet despite the pervasive power of social and political structures that subordinate women history and the data reveal possibilities for progress The First Political Order shows that when steps are taken to reduce the hold of inequitable laws customs and practices outcomes for all improve It offers a new paradigm for understanding insecurity instability autocracy and violence explaining what the international community can do now to promote more equitable relations between men and women and thereby security and peace With comprehensive empirical evidence of the wide ranging harm of subjugating women it is an important book for security scholars social scientists policy makers historians and advocates for women worldwide Neoliberalism and its Impact on the Women's Movement in

Aotearoa/New Zealand Julia Schuster, 2022-02-28 This book investigates how neoliberalism shaped the women's movement in Aotearoa New Zealand from the mid 1980s to late 2010s and looks at the future of the movement Based on an empirical study that encompasses the three levels of the movement individualised feminism the work of women's organisations and state feminism it explores how neoliberal rationality promoted by governments over three decades has impacted feminist identification and activism as well as political opportunities for organisations and institutions working within the movement Exploring the diversity of feminist voices the author analyses intersectional post colonial and intergenerational debates within the movement in the context of neoliberalism's influence on feminist values and strategies and examines whether neoliberal rationality succeeded in depoliticising individualising and fragmenting the movement The book comes to the conclusion that despite some severe drawbacks internal conflicts and changes of strategies the women's movement in Aotearoa New Zealand has survived the impact of neoliberalism This book will be of interest to scholars of Gender Studies Sociology Political Science and Women's History as well as feminist activists *Feminist Geopolitics* Deborah P. Dixon, Sallie

A. Marston, 2016-09-17 Building on a trans disciplinary feminist project that foregrounds the bodies of those at the sharp end of various forms of international activity such as immigration development and warfare the chapters included in this book cover a variety of sites concerns and hopes These range from the fraught geopolitics of marriage and birth in Ladakh India to the fate of detained migrant children in the U S and from the human rights abuses of women and children in Uzbekistan to the body politics of aid workers in Afghanistan The collective aim is to expose the force relations that operate through and upon those bodies such that particular subjectivities are enhanced constrained and put to work and particular corporealities are violated exploited and often abandoned Oriented around issues of security population territory and nationalism these chapters expose the proliferating bodies of geopolitics not simply as the bearers of socially demarcated borders and boundaries but as vulnerable corporealities seeking to negotiate and transform the geopolitics they both animate and inhabit This book was originally published as a special issue of Gender Place and Culture A Journal of Feminist Geography

Gender Myths and Feminist Fables Andrea Cornwall, Elizabeth Harrison, Ann Whitehead, 2009-02-23 This collection brings together leading feminist thinkers who examine the struggles for interpretive power which underlies international development Questions why the insights from years of feminist gender and development research are so often turned into gender myths and feminist fables women are more likely to care for the environment are better at working together are less corrupt have a seemingly infinite capacity to survive Explores how bowdlerized and impoverished representations of gender relations have simultaneously come to be embedded in development policy and practice Traces the ways in which language and images of development are related to practice and provides a nuanced account of the politics of knowledge production Argues that struggles for interpretive power are not only important for our own sake but also for the implications they have for women's lives worldwide An informed analysis of how gender has been transformed in its transfer into development policy and how many authors are now revisiting and reflecting on their earlier work **Anna Julia Cooper, Visionary Black**

Feminist Vivian M. May, 2012-08-21 Vivian M May explores the theoretical and political contributions of Anna Julia Cooper a renowned Black feminist scholar educator and activist whose ideas deserve far more attention than they have received Drawing on Africana and feminist theory May places Cooper's theorizing in its historical contexts and offers new ways to interpret the evolution of Cooper's visionary politics subversive methodology and defiant philosophical outlook Rejecting notions that Cooper was an elitist duped by dominant ideologies May contends that Cooper's ambiguity code switching and irony should be understood as strategies of a radical methodology of dissent May shows how across six decades of work Cooper traced history's silences and delineated the workings of power and inequality in an array of contexts from science to literature economics to popular culture religion to the law education to social work and from the political to the personal May emphasizes that Cooper eschewed all forms of mastery and called for critical consciousness and collective action on the part of marginalized people at home and abroad She concludes that in using a border crossing intersectional approach Cooper

successfully argues for theorizing from experience develops inclusive methods of liberation and crafts a vision of a fundamentally egalitarian social imaginary

Asian American Feminisms and Women of Color Politics Lynn Fujiwara, Shireen Roshanravan, 2018-12-04 Asian American Feminisms and Women of Color Politics brings together groundbreaking essays that speak to the relationship between Asian American feminisms feminist of color work and transnational feminist scholarship This collection featuring work by both senior and rising scholars considers topics including the politics of visibility histories of Asian American participation in women of color political formations accountability for Asian American settler complicities and cross racial solidarities and Asian American community based strategies against state violence as shaped by and tied to women of color feminisms Asian American Feminisms and Women of Color Politics provides a deep conceptual intervention into the theoretical underpinnings of Asian American studies ethnic studies women s gender and sexual studies as well as cultural studies in general

Subjectivities, Knowledges, and Feminist Geographies Liz Bondi, 2002 Research about people always makes assumptions about the nature of humans as subjects This collaboration by a group of feminist researchers looks at subjectivity in relation to researchers the researched and audiences as well as at the connections between subjectivity and knowledge The authors argue that subjectivity is spatialized in embodied multiple and fractured ways challenging the dominant notions of the rational bounded subject A highly original contribution to feminist geography this book is equally relevant to social science debates about using qualitative methodologies and to ongoing discussions on the ethics of social research

Speaker Nancy Pelosi and the New American Politics Ronald M. Peters, Jr., Cindy Simon Rosenthal, 2010-04-16 When the Democrats retook control of the U S House of Representatives in January 2007 after twelve years in the wilderness Nancy Pelosi became the first woman speaker in American history In Speaker Nancy Pelosi and the New American Politics Ron Peters one of America s leading scholars of Congress and Cindy Simon Rosenthal one of

America's leading scholars on women and political leadership provide a comprehensive account of how Pelosi became speaker and what this tells us about Congress in the twenty first century. They consider the key issues that Pelosi's rise presents for American politics, highlight the core themes that have shaped and continue to shape her remarkable career, and discuss the challenges that women face in the male dominated world of American politics, particularly at its highest levels. The authors also shed light on Pelosi's political background, first as the scion of a powerful Baltimore political family whose power base lay in East Coast urban ethnic politics, and later as a successful politician in what is probably the most liberal city in the country, San Francisco. Peters and Rosenthal trace how she built her base within the House Democratic Caucus and ultimately consolidated enough power to win the Speakership. They show how twelve years out of power allowed her to fashion a new image for House Democrats, and they conclude with an analysis of her institutional leadership style. The only full length portrait of Nancy Pelosi in print, this superb volume offers a vivid and insightful analysis of one of America's most remarkable politicians.

The New Presidential Elite Jeane J. Kirkpatrick, 1975-11-02. Explores the idea that a new breed of men and women are actively involved in the majority American political party, and that their motives, goals, ideals, and patterns of organizational behavior are different from those of the people who have dominated U.S. politics in the past. This book is based on interviews with 1,300 delegates to the 1972 Democratic and Republican National Conventions, and mail questionnaires completed by some 55 percent of the delegates. The author identifies women as one part of the new presidential elite, and analyzes their social, cultural, psychological, and political characteristics. This study was funded jointly by Russell Sage Foundation and The Twentieth Century Fund.
