that Contemporary American poetry's characteristic problematic is the subject's contestation of hir discursive condition While self comprehension is a central recurrent concern in post literate poetry most poetries in English since the Enlightenment have conceived their lyric subjects in accordance with the foundational Western philosophical assumption of the rationality of being However after Freud Heisenberg Saussure Derrida and Lacan conceptions of the lyric I as representative of a more or less permanent self conscious and self possessed personality inhabiting an ontologically dependable natural and historical world in a consistent way are no longer credible. The problems of how to conceptualize the psycho linguistic structuration of the male putatively masculine subject and hir relation to hir cultural environment and of how to represent both the subject and hir relations in a medium language that is complexly involved in the construction of both the subject and hir representation and in a certain sense of the subject as representation emerge for Contemporary poets out of an historic moment particularly strongly marked by theoretical developments in extra literary fields Norton asserts that the lyric speaker in Contemporary American poetry cannot be understood unless the explicit and implicit dialogic relations between religious philosophical psychological linguistic aesthetic critical and poetic texts are made central to the interpretive project BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Cambridge Companion to William Carlos Williams Christopher MacGowan, 2016-06-23 An invaluable introductory guide for students this Companion features thirteen new essays from leading international experts on William Carlos Williams covering his major poetry and prose works It addresses central issues of recent Williams scholarship and considers his relationships with contemporaries as well as the importance of his legacy The Palgrave Encyclopedia of Urban Literary Studies Jeremy Tambling, 2022-10-29 This encyclopaedia will be an indispensable resource and recourse for all who are thinking about cities and the urban and the relation of cities to literature and to ways of writing about cities Covering a vast terrain this work will include entries on theorists individual writers individual cities countries cities in relation to the arts film and music urban space pre early and modern cities concepts and movements and definitions amongst others Written by an international team of contributors this will be the first resource of its kind to pull together such a comprehensive overview of the field
