British Escort Destroyers of the Second World War Les Brown,2022-05-12 An extensive guide to crafting models of Royal Navy escort destroyers used during World War II The ShipCraft series provides in depth information about building and modifying model kits of famous warship types Lavishly illustrated each book takes the modeller through a brief history of the subject highlighting differences between ships and changes in their appearance over their careers This includes paint schemes and camouflage featuring colour profiles and highly detailed line drawings and scale plans The modelling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing of the subjects and provides hints on modifying and improving the basic kit This is followed by an extensive photographic gallery of selected high quality models in a variety of scales and the book concludes with a section on research references books monographs large scale plans and relevant websites This volume covers the many variations of Royal Navy wartime escort destroyers both the purpose built Hunt class and the conversions from older fleet destroyers The Hunts were built in four groups Types I to IV while the old V W classes were modified to Long Range Escort Short Range Escort and Wair anti aircraft variants Also included are the fifty ex US flush deckers that became the Town class With its unparalleled level of visual information paint schemes models line drawings and photographs this book is simply the best reference for any modelmaker setting out to

build any of these numerous escort types Praise for British Escort Destroyers of the Second World War Another excellent addition to the ShipCraft series I enjoy building the occasional model warship and have a few destroyers Not only did I find plenty of inspiration in here but a number of model producers that I wasn't aware of before There is also a bibliography at the back which provides plenty of good reference books along with a list of useful websites Another very nice addition to the series Military Model Scene Bookseller and the Stationery Trades' Journal ,1914 **USS Constitution, 44-gun frigate, 1797** Kerry Jang,2025-08-30 The ShipCraft series provides in depth information about building and modifying model kits of famous warships In general these cover plastic and resin models of 20th century subjects but like the previous volumes on Nelson's Victory and Captain Bligh's Bounty this is a radical departure not only a period sailing ship but one for which kits are available in many different materials and scales This requires some changes to the standard approach but the main features of the series remain constant Now preserved in Boston harbour USS Constitution is the oldest commissioned warship still afloat One of the original building programme of 1794 for the newly established US Navy the ship would enjoy a stellar career beginning with the Quasi War with France and the campaigns against the Barbary states of north Africa However it was the War of 1812 that established the fame of the ship that became known as Old Ironsides following her victories over two British frigates and a number of smaller warships a potent symbol of national pride that kept the ship in commission until the 1880s In the course of this long service the ship's appearance was altered significantly and many of the features of the ship as commonly modelled are actually the product of later and not historically consistent reconstructions A major achievement of this volume is to detail these changes as accurately as evidence allows and to reconstruct the probable colour schemes carried at the most significant stages of her career The modelling section reviews the strengths and weaknesses of available kits lists commercial accessory sets for super detailing and provides hints on modifying and improving the basic kit including the complexities of rigging This is followed by an extensive photographic gallery of selected high quality models in a variety of scales and coverage concludes with a section on research references books monographs large scale plans and relevant websites Following the pattern of the series this book provides an unparalleled level of visual information paint schemes models line drawings and photographs and is simply the best reference for anyone setting out to model this famous frigate *The Encyclopaedia Britannica: Index A to Eng* ,1922 *The Encyclopædia Britannica* ,1922

The Encyclopædia Britannica Hugh Chisholm,1922 *A Postcard History of the Passenger Liner* Christopher Deakes,2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating

passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting *Ships Monthly* ,2002
