industry and in their reaction created modified and maintained a sense of their own identity **The Literary Review** ,1987

The German Pícaro and Modernity Bernhard Malkmus,2014-03-13 The German Pícaro and Modernity reads the re emergence of the picaresque narrative in twentieth century German language writing as an expression of modernity and its social imaginaries Malkmus argues that the picaresque whose origins date back to the Spanish Renaissance and the Baroque Age re emerged as a reflection both of Germany s explosive modernizing processes between 1880 and 1930 and of the most barbarous implosion of modern civilization under National Socialism Another reason for the fertility of this literary form at

that particular cultural moment is rooted in the complexities of German Jewish relations and the history of Jewish assimilation in central Europe. A considerable number of authors who used the picaresque form in the twentieth century are from a Jewish background and Malkmus demonstrates how the picaresque narrative template also offers a medium for German Jewish self reflection. In highlighting these connections he contributes not only to scholarship in European literature but also but also to our understanding of major social economic and political issues at stake in modernity.

**Neo-Victorian Lesbians on Screen** Sarah E. Maier, Rachel M. Friars, 2025-09-09. In *Neo Victorian Lesbians on Screen*. Maier and Friars argue that the on screen portrayal of lesbians situated in the long nineteenth century across various countries is at the very least a dual task: the imperative project of revoicing lesbian silence and female companionship is complicated by the lack of and/or complex representation of such women in the past. The adaptations with varying degrees of success carefully manipulate the gaze of the viewer to illustrate both how crucial the act of looking proves to be for lesbian attachment in these films and how the viewer's own gaze changes the way the lesbian is represented. Maier and Friars consider the adaptations' awareness of the audience and the ways in which the films implicitly acknowledge the stakes behind bringing the lesbian to life as it were in visual media. Because screen adaptations disrupt historical distance by literally picturing Victorian subjects via a medium they did not have, film adaptations of novels and biofictions and original screenplays are challenged by the lesbian subject's vivid presence on screen. The lesbian is no longer a contained neo-Victorian presence in the othered nineteenth century but her very existence on screen signals her effervescent modernity which filmmakers alternately embrace or reject.
