Restoring Justice Edward H. Levi,2022-12-22 In the wake of Watergate Gerald Ford appointed eminent lawyer and scholar Edward H Levi to the post of attorney general and thus gave him the onerous task of restoring legitimacy to a discredited Department of Justice Levi was famously fair minded and free of political baggage and his inspired addresses during this tumultuous time were critical to rebuilding national trust They reassured a tense and troubled nation that the Department of Justice would act in accordance with the principles underlying its name operating as a nonpartisan organization under the strict rule of law For Restoring Justice Jack Fuller has carefully chosen from among Levi s speeches a selection that sets out the attorney general s view of the considerable challenges he faced restoring public confidence

through discussion and acts of justice combating the corrosive skepticism of the time and ensuring that the executive branch would behave judicially Also included are addresses and Congressional testimonies that speak to issues that were hotly debated at the time including electronic surveillance executive privilege separation of powers antitrust enforcement and the guidelines governing the FBI many of which remain relevant today Serving at an almost unprecedentedly difficult time Levi was among the most admired attorney generals of the modern era Published here for the first time the speeches in Restoring Justice offer a superb sense of the man and his work

Theatre Worlds in Motion S.E. Wilmer, H. van Maanen, 2024-04-02 Theatre Worlds in Motion aims to clarify the different theatre traditions and practices in Western Europe from a historical and sociological perspective The book grew out of a perceived need among theatre scholars who had recognised that while they understood the theatre system of their own country they often found it difficult to discover how it compared with other countries The chapters analyse the basic components and dynamics of theatre systems in seventeen Western European nations in order to elucidate how the systems function in general and how they vary in different cultures The book provides a sense of what has been happening recently in particular countries and indicates how the theatre systems have developed over time and have led to the current practices and structures Each national chapter considers the historical tradition and place of theatre within the country and analyses the role of the state in fostering theatre during the last fifty years Material from the national chapters has been used in two general chapters at the beginning and end of the book to provide an overview to developments in all Western Europe The introductory chapter on decentralisation discusses the tendency amongst governments to encourage cultural development outside the national capital by providing subsidy for regional theatre venues and theatre companies and in many cases by developing the decision making and budgetary powers for the theatre to regional and local authorities The epilogue on the functioning of theatre examines the common structures of theatre in society as described in the seventeen national chapters and it proposes areas for future research
