Kiser, 2018-08-09 Following Zebulon Pike's expeditions in the early nineteenth century U S expansionists focused their gaze on the Southwest Explorers traders settlers boundary adjudicators railway surveyors and the U S Army crossed into and through New Mexico transforming it into a battleground for competing influences determined to control the region Previous histories have treated the Santa Fe trade the American occupation under Colonel Stephen W Kearny the antebellum Indian Wars debates over slavery the Pacific Railway and the Confederate invasion during the Civil War as separate events in New Mexico In *Coast to Coast Empire* William S Kiser demonstrates instead that these developments were interconnected parts of a process by which the United States effected the political economic and ideological transformation of the region New Mexico was an early

proving ground for Manifest Destiny the belief that U S possession of the entire North American continent was inevitable Kiser shows that the federal government s military commitment to the territory stemmed from its importance to U S expansion Americans wanted California but in order to retain possession of it and realize its full economic and geopolitical potential they needed New Mexico as a connecting thoroughfare in their nation building project The use of armed force to realize this claim fundamentally altered New Mexico and the Southwest Soldiers marched into the territory at the onset of the Mexican American War and occupied it continuously through the 1890s leaving an indelible imprint on the region s social cultural political judicial and economic systems By focusing on the activities of a standing army in a civilian setting Kiser reshapes the history of the Southwest underlining the role of the military not just in obtaining territory but in retaining it
