Taking the Reins Harold Kurstedt, Tim Thayne, 2012-10-19 For anyone who wants better relationships and success at the office and at home In solution focused leadership a leader recognizes affirms harnesses and encourages further development of the strengths of those around him or her while guiding the team toward a mutually agreed upon vision Like horses people in the workplace want to be treated fairly and with respect are willing to take responsibility and want to productively contribute They want to participate be heard trust and be trusted and make a difference Neither horses nor people are motivated by rules and organizational bureaucracies Instead getting through the day in peace doing a good job building enduring relationships with others and finding joy in what they do helps them discover meaning and purpose in their lives Many of our top industry producers fail to become superior contributors until they learn to be other focused Through conscious and consistent effort a producer's relationship competence can be raised to the level of his or her technical competence resulting in a highly valued leader supervisor and manager Taking the Reins encourages management techniques focused on relationships supervision based on realistic expectations and leadership through recognition of the strengths of others

The Harmony Project Kate Farmer, 2003-12 The Harmony Project is a unique concept to give horse lovers a deeper insight into the equine mind The project follows the training and development of a filly foal called Harmony from 6 months and separation from the mare up to 3 and a half years and carrying her first rider Harmony's behaviour and training are explained in terms of her view of the world and show how we can present ourselves to our horses in a way that is more meaningful to them and therefore more effective Harmony is being trained primarily under the principles of natural horsemanship taught by the top American trainer Richard Thompson who is the mentor of Harmony's owner and trainer Kate Farmer Date comes from a classical British riding background and aims to show in the Harmony Project that the principles of natural horsemanship are equally relevant to all equestrian disciplines and not as many suppose mostly of help to western riders Part 1 of The Harmony Project follows harmony from 6 months to 18 months and presents the first stages of her training in a clear easy to follow way Each chapter focusses on one or two specific aspects of equine psychology and the exercises that relate to them It offers an excellent introduction of natural horsemanship for newcomers to these methods and a very useful companion for those who have already started working on NH principles

Equine Fictions Jopi Nyman, 2019-04-15 This innovative volume approaches the intriguing relationship between humans and horses in 21st century Anglophone fiction and autobiography from the perspectives of affect and politics It addresses the strong emotional power attached to the human horse bond and contextualizes horse narratives within debates concerning identity and its politics The in depth analysis deals with topics such as the intertwinement of humans and animals healing mourning and nostalgia in horse narratives and the formation of gendered and national identities The volume pays particular attention to life writing by Susan Richards Rupert Isaacson and Buck Brannaman

fiction by Gillian Mears and Jane Smiley and Follyfoot fanfiction Because of its focus on narratives telling of today's human horse encounters and its explicit attention to diverse textual forms this book represents a unique contribution to the study of human horse encounters in contemporary writing and will be of particular use to scholars working in human animal studies Anglophone literature and American studies

Horse J. Edward Chamberlin, 2010-06-04 Full of wisdom passion and wonder Horse is the utterly fascinating and enlightening story of horses and humans from the beginning of time to the present Ever since the dawn of human history horses have held a mystical sway over our imagination we respect and revere them like no other animal We have conceived of them as both domesticated and free both belonging to our civilization and to the wild At first ours was an encounter of death as prehistoric humans hunted horses all across the steppes of Asia and throughout Europe But they also painted horses full of grace and beauty on the walls of their caves and gave them a central place in their songs and sacred rituals Long before the invention of writing and the wheel horses began to shape the way humans lived Drawing on archaeology biology art literature and ethnography Horse illuminates the relationship between humans and horses throughout history from Alexander the Great to Genghis Khan from the Moors in Spain and the knights in France to the great horse cultures of native America From the Ice Age to the Industrial Age horses have provided sustenance transportation status companionship and the ability to establish and expand empires Included are stories of horses at work at war and at play both wild horses and famous horses in paintings books and movies Horse looks at the ancient traditions of horse trading and horse stealing horse racing and games with horses and at rodeos and circuses jumping and dressage It compares techniques of training and traditions of breeding from the Persians to the Nez Perce from Lippizans to Percherons and ponders the intelligence of horses their skill and strength as well as their grace and beauty

The Culture of Feedback Daniel Belgrad, 2019-08-30 When we want advice from others we often casually speak of getting some feedback But how many of us give a thought to what this phrase means The idea of feedback actually dates to World War II when the term was developed to describe the dynamics of self regulating systems which correct their actions by feeding their effects back into themselves By the early 1970s feedback had become the governing trope for a counterculture that was reoriented and reinvigorated by ecological thinking The Culture of Feedback digs deep into a dazzling variety of left of center experiences and attitudes from this misunderstood period bringing us a new look at the wild side of the 1970s Belgrad shows us how ideas from systems theory were taken up by the counterculture and the environmental movement eventually influencing a wide range of beliefs and behaviors particularly related to the question of what is and is not intelligence He tells the story of a generation of Americans who were struck by a newfound interest in and respect for plants animals indigenous populations and the very sounds around them threading his tapestry with cogent insights on environmentalism
