Diversity Explosion William H. Frey, 2018-07-24 Greater racial diversity is good news for America's future Race is once again a contentious topic in America as shown by the divisive rise of Donald Trump and the activism of groups like Black Lives Matter Yet Diversity Explosion argues that the current period of profound racial change will lead to a less divided nation than today's older whites or younger minorities fear Prominent demographer William Frey sees America's emerging diversity boom as good news for a country that would otherwise face declining growth and rapid aging for many years to come In the new edition of this popular Brookings Press offering Frey draws from the lessons of the 2016 presidential election and new statistics to paint an illuminating picture of where America's racial demography is headed and what that means for the nation's future Using the U S Census national surveys and related sources Frey tells how the rapidly growing new minorities Hispanics Asians and multiracial Americans along with blacks and other groups are transforming and reinvigorating the nation's demographic landscape He discusses their impact on generational change regional shifts of major racial groups neighborhood segregation interracial marriage and presidential politics Diversity Explosion is an accessible richly illustrated overview of how unprecedented racial change is remaking the United States once again It is an essential guide for political strategists marketers investors educators policymakers and anyone who wants to understand the magnitude potential and promise of the new national melting pot in the twenty first century [This Delta, this Land](#) Mikko Saikku, 2011-03-15 This environmental history of the Yazoo Mississippi Delta places the Delta's economic and cultural history in an environmental context It reveals the human aspects of the region's natural history including land reclamation slave and sharecropper economies ethnic and racial perceptions of land ownership and stewardship and even blues music

Migration, Accommodation and Language Change B. Brown, 2018-08-06 Since the 2016 presidential election Americans have witnessed countless stories about Appalachia its changing political leanings its opioid crisis its increasing joblessness and its declining population These stories however largely ignore black Appalachian lives Karida L Brown's Gone Home offers a much needed corrective to the current whitewashing of Appalachia In telling the stories of African Americans living and working in Appalachian coal towns Brown offers a sweeping look at race identity changes in politics and policy and black migration in the region and beyond Drawn from over 150 original oral history interviews with former and current residents of Harlan County Kentucky Brown shows

that as the nation experienced enormous transformation from the pre to the post civil rights era so too did black Americans In reconstructing the life histories of black coal miners Brown shows the mutable and shifting nature of collective identity the struggles of labor and representation and that Appalachia is far more diverse than you think **Daily Life during African American Migrations** Kimberley L. Phillips, 2012-05-03 This book examines the century long migration of African Americans who moved within the South after the Civil War and then left to settle permanently in other regions irrevocably altering the political social and cultural history of the United States and considers these movements within the broader historical political and cultural context of the African Diaspora Daily Life during African American Migrations focuses attention to the everyday social cultural and political lives of migrants in the United States as they established communities far away from their former homes This book examines blacks labor and urban experiences social and political activism and cultural and communal identities while also considering the specificity of African Americans migration as part of their long struggle for freedom and equality The author merges information from black migration studies which focus on the internal movement of African American people in the United States with African Diaspora studies which consider peoples of African descent who have settled far from their native homes either voluntarily or through duress to document how these immigrants and their children create new communities while maintaining cultural connections with Africa The stories of the nine million African Americans who collectively left the South between 1865 and 1965 and the millions more who left the Caribbean and Africa not only document this long history of migration but also present compelling human drama Landscapes of Hope Brian McCammack, 2017-10-16 Winner of the Frederick Jackson Turner Award Winner of the George Perkins Marsh Prize Winner of the John Brinckerhoff Jackson Book Prize A major work of history that brings together African American history and environmental studies in exciting ways Davarian L Baldwin Journal of Interdisciplinary History Between 1915 and 1940 hundreds of thousands of African Americans left the rural South to begin new lives in the urban North In Chicago the black population quintupled to more than 275 000 Most historians map the integration of southern and northern black culture by looking at labor politics and popular culture An award winning environmental historian Brian McCammack charts a different course considering instead how black Chicagoans forged material and imaginative connections to nature The first major history to frame the Great Migration as an environmental experience Landscapes of Hope takes us to Chicago s parks and beaches as well as to the youth camps vacation resorts farms and forests of the rural Midwest Situated at the intersection of race and place in American history it traces the contours of a black environmental consciousness that runs throughout the African American experience Uncovers the untold history of African Americans migration to Chicago as they constructed both material and immaterial connections to nature Teona Williams Black Perspectives A beautifully written smart painstakingly researched account that adds nuance to the growing field of African American environmental history Colin Fisher American Historical Review If in the South nature was associated with labor for the inhabitants of the crowded

Reading Hebrews and 1 Peter with the African American Great Migration Jennifer T. Kaalund, 2018-11-29 Kaalund examines the constructed and contested Christian Jewish identities in Hebrews and 1 Peter through the lens of the New Negro a diasporic identity similarly constructed and contested during the Great Migration in the early 20th century Like the identity Christian the New Negro emerged in a context marked by instability creativity and the need for a sense of permanence in a hostile political environment Upon examination both identities also show complex internal diversity and debate that disrupts any simple articulation as purely resistant or accommodating to its hegemonic and oppressive environment Kaalund's investigation into the construction of the New Negro highlights this multiplicity and contends that the rhetoric of place race and gender were integral to these processes of inventing a way of being in the world that was seemingly not reliant on one's physical space Putting these issues into dialogue with 1 Peter and Hebrews allows for a reading of the formation of Christian identity as similarly engaging the rhetoric of place and race in constructive and contested ways *The "Underclass" Debate* Michael B. Katz, 2018-06-05

Do ominous reports of an emerging underclass reveal an unprecedented crisis in American society Or are social commentators simply rediscovering the tragedy of recurring urban poverty as they seem to do every few decades Although social scientists and members of the public make frequent assumptions about these questions they have little information about the crucial differences between past and present By providing a badly needed historical context these essays reframe today's underclass debate Realizing that labels of social pathology echo fruitless distinctions between the deserving and undeserving poor the contributors focus not on individual and family behavior but on a complex set of processes that have been at work over a long period degrading the inner cities and inevitably the nation as a whole How do individuals among the urban poor manage to survive How have they created a dissident infrapolitics How have social relations within the urban ghettos changed What has been the effect of industrial restructuring on poverty Besides exploring these questions the contributors discuss the influence of African traditions on the family patterns of African Americans the origins of institutions that serve the urban poor the reasons for the crisis in urban education the achievements and limits of the War on Poverty and the role of income transfers earnings and the contributions of family members in overcoming poverty The message of the essays is clear Americans will flourish or fail together

The American South William J. Cooper, Jr., Thomas E. Terrill, 2009-01-16 In The American South William J Cooper Jr and Thomas E Terrill demonstrate their belief that it is impossible to divorce the history of the south from the history of the United States Each volume includes a substantial biographical essay completely updated for this edition which provides the reader with a guide to literature on the history of the South Coverage now includes the devastation of Hurricane Katrina in 2005 up to date analysis of the persistent racial divisions in the region and the South s unanticipated role in the 2008 presidential primaries

Fevered Measures John Mckiernan-González, 2012-08-29 In Fevered Measures John Mckiernan Gonz lez examines public health campaigns along the Texas Mexico border between 1848 and 1942 and reveals the changing medical and political frameworks U S health authorities used when facing the threat of epidemic disease The medical borders created by these officials changed with each contagion and sometimes varied from the existing national borders Federal officers sought to distinguish Mexican citizens from U S citizens a process troubled by the deeply interconnected nature of border communities Mckiernan Gonz lez uncovers forgotten or ignored cases in which Mexicans Mexican Americans African Americans and other groups were subject to and sometimes agents of quarantines inspections detentions and forced treatment regimens These cases illustrate the ways that medical encounters shaped border identities before and after the Mexican Revolution Mckiernan Gonz lez also maintains that the threat of disease provided a venue to destabilize identity at the border enacted processes of racialization and re legitimized the power of U S policymakers He demonstrates how this complex history continues to shape and frame contemporary perceptions of the
