Istvan Farkas 1887-1944 István Farkas, 1999 From Toleration to Expulsion Henry A. Fischer, 2015-01-30 On April 6 1948 a significant portion of the population of the village of Ecsny in Somogy County Hungary was expelled from their homeland This was the result of Protocol XIII of the Potsdam Declaration of 1945 calling for the orderly and humane transfer of German populations now living in Poland Czechoslovakia and Hungary The families involved were descendants of German settlers who began to arrive in what would become the village of Ecsny as early as 1754 They formed an Evangelical Lutheran congregation at the outset that would survive as an underground movement until the Edict of Toleration promulgated by the Emperor Joseph II of Austria in 1782 These two governmental actions taken centuries apart play pivotal roles in the lives and destinies of the families who would call Ecsny their home The families that were expelled were sent to the then Russian Zone of Germany from which large numbers later escaped into the American and British Zones Numerous families were successful in emigrating from there to Canada the United States and Australia This publication is addressed to their English speaking descendants providing them with genealogical information about their forebears In addition the families associated with the various affiliated congregations in Hcs Polny Rksi Somodor and Vmos are included as well as information about the families that emigrated to Slavonia the United States and Canada prior to World War II There are also introductory articles to assist the reader in having a basic knowledge of the history lifestyle and origins of their families This work is published on the 260th anniversary of the founding of Ecsny *Capitalism in Chaos* Máté Rigó, 2022-08-15

Capitalism in Chaos explores an often overlooked consequence and paradox of the First World War the prosperity of business elites and bankers in service of the war effort during the destruction of capital and wealth by belligerent armies This study of business life amid war and massive geopolitical changes follows industrialists and policymakers in Central Europe as the region became crucially important for German and subsequently French plans of economic and geopolitical expansion in the late nineteenth and early twentieth centuries Based on extensive research in sixteen archives five languages and four states M t Rig demonstrates that wartime destruction and the birth of war millionaires were two sides of the same coin Despite the

recent centenaries of the Great War and the Versailles peace treaties knowledge of the overall impact of war and border changes on business life remains sporadic based on scant statistics and misleading national foci Consequently most histories remain wedded to the viewpoint of national governments and commercial connections across national borders Capitalism in Chaos changes the static historical perspective by presenting Europe's East as the economic engine of the continent Rig accomplishes this paradigm shift by focusing on both supranational regions including East Central and Western Europe as well as the eastern and western peripheries of Central Europe Alsace Lorraine and Transylvania from the 1870s until the 1920s As a result Capitalism in Chaos offers a concrete lively history of economics during major world crises with a contemporary consciousness toward inequality and disparity during a time of collapse

The National Union Catalog, Pre-1956 Imprints, 1968 **Luxury and the Ruling Elite in Socialist Hungary** György Majtényi, 2021-11-02 After World War II a new community of elite emerged in Hungary in spite of the communist principles espoused by the government In *Luxury and the Ruling Elite in Socialist Hungary* György Majtényi allows us a peek inside their affluence Majtényi exposes the lavish standard of living that the higher echelon enjoyed complete with pools Persian rugs extravagant furniture servants and groundskeepers They shopped in private stores stocked with expensive meats and tropical fruits just for them They benefited from access to everything from books telephone lines and international travel to hunting grounds soccer games and even the choicest cemetery plots But Majtényi also reveals the underbelly of such society particularly how these privileges were used as a way of maintaining power initiating or denying entry to party members and strengthening the very hierarchies that communism promised to abolish Taking readers on a fascinating and often surprising look inside the manor homes and vacation villas of wealthy post World War II Hungarians Majtényi offers fresh insight into the realities of patriarchy loyalty gender and class within the communist regime
