The Farm Bureau Through Three Decades Orville Merton Kile, 1948      **Farmers Helping Farmers** Nancy K. Berlage, 2016 Introduction Organizational structure the rise of the local farm bureau Organizational strategy economic political and social functions Science cultural authority and the farm bureau bovine tuberculosis Home bureaus and the sciences of separate spheres Women and the agricultural occupation Reproducing the farm family youth clubs gender and science Conclusion      The Rise of Political Action Committees Emily J. Charnock, 2020-09-01 Political Action Committees PACs are a prominent and contentious feature of modern American election campaigns As organizations that channel money toward political candidates and causes their influence in recent decades has been widely noted and often decried Yet there has been no comprehensive history compiled of their origins development and impact over time In *The Rise of Political Action Committees* Emily J Charnock addresses this gap telling a story with much deeper roots than contemporary commentators might expect Documenting the first wave of PAC formation from the early 1940s to the mid 1960s when major interest groups began creating them she shows how PACs were envisaged from the outset as much more than a means of winning elections but as tools for effecting ideological change in the two main parties In doing so Charnock not only locates the rise of PACs within the larger story of interest group electioneering which went from something rare and controversial at the beginning of the 20th Century to ubiquitous today but also within the narrative of political polarization Throughout she offers a full picture of PACs as far more than financial vehicles showing how they were electoral innovators who pioneered strategies and tactics that came to pervade modern US campaigns and reshape American politics A broad ranging political history of an understudied American campaign phenomenon this book contextualizes the power and purpose of PACs while revealing their transformative role within the American party system helping to foster the partisan polarization we see today

*The Emergence of the New South, 1913-1945* George Brown Tindall, 1967-11-01 The history of the South in this century has been obscured in the ever growing mass of information about the region s rapid change and turbulent development In this book Volume X of *A History of the South* the historical image of the modern South is brought into full focus for the first time George Brown Tindall presents a thorough and well balanced historical narrative of the region during the years 1913-1945 when the South underwent a transformation from a predominantly agricultural area to one of growing industrialization The inauguration of President Woodrow Wilson ended a half century of political isolation for the South and ushered in an era of agrarian reforms prohibition woman suffrage industrial growth and recurring crises for Southern farmers During the 1920s the South was caught in a contrast of urban booms and farm distress There were flareups of racial violence and the Ku Klux Klan was revived Mr Tindall devotes considerable attention to the Southern literary renaissance which produced William Faulkner Thomas Wolfe and many other notable writers and critics *The Emergence of the New South* provides a new understanding of the changing political and social climate in the South under the stresses of depression the New Deal the

News for Farmer Cooperatives ,1968      The Forging of Bureaucratic Autonomy Daniel Carpenter,2020-06-16 Until now political scientists have devoted little attention to the origins of American bureaucracy and the relationship between bureaucratic and interest group politics In this pioneering book Daniel Carpenter contributes to our understanding of institutions by presenting a unified study of bureaucratic autonomy in democratic regimes He focuses on the emergence of bureaucratic policy innovation in the United States during the Progressive Era asking why the Post Office Department and the Department of Agriculture became politically independent authors of new policy and why the Interior Department did not To explain these developments Carpenter offers a new theory of bureaucratic autonomy grounded in organization theory rational choice models and network concepts According to the author bureaucracies with unique goals achieve autonomy when their middle level officials establish reputations among diverse coalitions for effectively providing unique services These coalitions enable agencies to resist political control and make it costly for politicians to ignore the agencies ideas Carpenter assesses his argument through a highly innovative combination of historical narratives statistical analyses counterfactuals and carefully structured policy comparisons Along the way he reinterprets the rise of national food and drug regulation Comstockery and the Progressive anti vice movement the emergence of American conservation policy the ascent of the farm lobby the creation of postal savings banks and free rural mail delivery and even the congressional Cannon Revolt of 1910      Texas, Cotton, And The New Deal Keith Joseph Volanto,2005 Cotton growing Government policy Texas History 2 Cotton trade government policy Texas History 3 New Deal1933 1939 Texas 4 United States      *Chronological Landmarks in American Agriculture* ,1990 This chronology lists major events in the history of U S agriculture A source to which the reader may turn for additional information on the subject is included with most of the events Generally each source appears only once although it may apply to more than one chronological citation pp The reader interested in a particular subject can compile a short bibliography by consulting each citation for that subject      **Chronological Landmarks in American Agriculture** Maryanna S.
